Customs.

PREFATORY NOTE.

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., July 15, 1908.

This publication of customs laws and decisons is made in pursuance of the authority contained in the joint resolution of June 30, 1906 (34 Stat., 840).

The book contains the tariff acts of 1897, 1894, 1890, and 1883, complete, except certain provisions relating to internal revenue and other matters not germane to this work, and also the customs administrative act of 1890. The plan has been followed of taking the provisions of the tariff law of 1897 in the order in which they appear therein and grouping under each respective paragraph or section, as the case may be, of said statute, the provisions of the earlier acts which correspond to it, that is, which treat of the same subject-matter. Where this has not been found practicable by reason of the absence of similar provisions in prior acts, the fact has been noted. Specific provisions of the earlier acts which do not appear as such in the present law are listed immediately following the last paragraph of the free-list section. The digest has been brought down to January 1, 1908.

The code system has been applied in the arrangement of the digest of decisions so that each decision digested will be found under the heading of the statutory provision relating to the subject-matter of the decision.

Following the digest of decisions under the customs administrative act is a digest of rulings on sundry topics which are treated under appropriate captions.

The subject-matter index will, it is hoped, make easy the finding of any desired ruling.

GEO. B. CORTELYOU,
Secretary.

COMPILATION OF CUSTOMS LAWS

AND

DIGEST OF DECISIONS THEREUNDER.

AN ACT TO PROVIDE REVENUE FOR THE GOVERNMENT AND TO ENCOURAGE THE INDUSTRIES OF THE UNITED STATES.

[30 U. S. Stat., 151; U. S. Comp. Stat., 1626.]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That on and after the passage of this Act, unless otherwise specially provided for in this Act, there
1897 shall be levied, collected, and paid upon all articles imported from foreign countries, and mentioned in the schedules herein contained, the rates of duty which are, by the schedules and paragraphs, respectively prescribed, namely:

AN ACT TO REDUCE TAXATION, TO PROVIDE REVENUE FOR THE GOVERNMENT, AND FOR OTHER PURPOSES.

[28 U. S. Stat., 509.]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That on and after the first day of August, eighteen hundred and ninety-four, unless otherwise specially
1894 provided for in this Act, there shall be levied, collected, and paid upon all articles imported from foreign countries or withdrawn for consumption, and mentioned in the schedules herein contained, the rates of duty which are, by the schedules and paragraphs, respectively prescribed, namely:

AN ACT TO REDUCE THE REVENUE AND EQUALIZE DUTIES ON IMPORTS, AND FOR OTHER PURPOSES, APPROVED OCTOBER 1, 1890.

[26 U. S. Stat., 567.]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That on and after the sixth day of October, eighteen hundred and ninety, unless otherwise specially pro-
1890 vided for in this act, there shall be levied, collected, and paid upon all articles imported from foreign countries, and mentioned in the schedules herein contained, the rates of duty which are, by the schedules and paragraphs, respectively prescribed, namely:

SEC. 6. That on and after the first day of July, eighteen hundred and eighty-three, the following sections shall constitute and be a substitute for Title thirty-three of the Revised Statutes of the United States:

* * * * * * *

1883

SEC. 2502. There shall be levied, collected, and paid upon all articles imported from foreign countries, and mentioned in the schedules herein contained, the rates of duty which are, by the schedules, respectively prescribed, namely:

DECISIONS ON THE SUBJECT-MATTER OF THE ENACTING CLAUSE.

(*a*) While the law does not generally recognize fractions of a day as applicable to the date statutes take effect, the rule is otherwise as to laws of a penal nature, and in all cases where, to promote substantial justice, it becomes necessary to determine conflicting or accrued rights of the Government or citizens under two separate tariff acts in operation on parts of the same day. Hence evidence is admissible to show that the President did not sign the act of 1897 until 6 minutes after 4 o'clock, p. m., of the date of its passage; said act being operative only in future from the moment of such approval, and not being retroactive.—T. D. 18533, G. A. 3989.

(*b*) The Dingley bill was signed by the President at 6 minutes past 4 o'clock of the afternoon of July 24, 1897, became operative as a law only at such moment of signature, and was not operative, by relation, at any previous hour of the day. Accordingly, goods imported and entered for consumption on July 24, 1897, previous to the time of such executive approval are subject to duty under the act of 1894.—Burgess *v.* Salomon (97 U. S., 381); Louisville *v.* Savings Bank (104 U. S., 469); and Hancock *v.* Burgess (1 Hughes, 356), followed; T. D. 18533, G. A. 3989; T. D. 18537, G. A. 3993; T. D. 20700, G. A. 4356; United States *v.* Iselin; Same *v.* Hirsch; Same *v.* Dyer (87 Fed. Rep., 194); United States *v.* Stoddard, Haserick, Richards & Co. (89 Fed. Rep., 699).

(*c*) When an act takes effect by its terms from and after its passage, with a proviso that it "shall not affect any act done or any right accruing or accrued" (sec. 34 of this act), as between the Government and the individual, the act does not take effect until the moment of its approval by the President, when such time can be shown.— United States *v.* Stoddard, Haserick, Richards & Co. (C. C.), (89 Fed. Rep., 699).

(*d*) In the absence of proof there is a presumption that an act was signed on the first minute of the day when it took effect, but it is competent to show by proof the exact time when a law was approved, and when this is made to appear, the law can only be given effect from that time. The Dingley act did not take effect until it was signed by the President, at 4 minutes past 4 o'clock, p. m., Washington time, on July 24, 1897.—Nunn *v.* William Gerst Brewing Company (C. C. A.), (99 Fed. Rep., 939).

(*e*) On evidence which showed that certain vessels loaded with lumber bound for Chicago had arrived in American waters but had not reached a point generally regarded as limiting the bonndary of the port of Chicago, prior to 4.06 p. m., July 24, 1897, it was held that the lumber was subject to duty under the law of 1897 and not under that of 1894. The tender by the importers to the collector of entries of the goods during the day of July 24 was held to have been properly rejected by the collector, inasmuch as the importation was not complete, and a tender before such time is of no avail.—United States *v.* Lumber Company and Lumber Company *v.* United States (142 Fed. Rep., 432; T. D. 26826), reversing 128 id., 306; T. D. 25135, and affirming T. D. 24535, G. A. 5365.

(*f*) To the general rule of law that there are no fractions of a day there is an exception where it is necessary, to protect a completed or vested right, to prove the time by shorter measurement.—Ibid.

(*g*) Goods arrived August 7, 1894, entered and duties paid August 8, and entry liquidated August 28, were subject to duty under the act of 1890 and not under the act of 1894. The provision of section 1 of the act of 1894, which took effect August 28, 1894, that from and after the first day of August there shall be levied, collected, and paid upon articles imported from foreign countries the rate of duty provided by that act, does not apply to transactions completed when the act became a law.—United States *v.* Burr (159 U. S., 78).

(*a*) Where goods were entered on August 27, 1894, but were in custody of the Government on August 28, they must be treated as imported on the 28th, and are dutiable under the act of 1894.—Oppenheimer *v.* United States (C. C.), (90 Fed. Rep., 796).

(*b*) Merchandise imported and entered for warehouse before, but withdrawn for consumption after, the act of 1894 went into effect was subject to duty under this act, notwithstanding that the duties had been paid while the act of 1890 was still in force.—United States *v.* Amsinck (140 Fed Rep., 96; T. D. 26420).

(*c*) The act of 1894 does not apply to merchandise in bond on August 1, 1894, but withdrawn before August 28, 1894.—T. D. 15381, G. A. 2775; T. D. 15382, G. A. 2776; T. D. 16403, G. A. 3192.

(*d*) An importation of lemons was entered a few days before the passage of the act of 1894, and, according to the custom and rules of administration of the port, were designated for examination on the wharf. On August 29 the goods were examined there, having remained in custody up to that time, and were then sold by the importers. *Held*, that under this section imposing duty upon all merchandise "imported from foreign countries or withdrawn for consumption" they were dutiable under the new law.—United States *v.* E. L. Goodsell Co. (C. C.), (78 Fed. Rep., 806). Affirmed (C. C. A.), 84 Fed. Rep., 439.

(*e*) Goods arriving prior to October 6, 1890, but not entered until after that date, are dutiable under the act of 1890.—T. D. 10479, G. A. 129.

(*f*) The vessel arrived at the port of New York prior to October 6, 1890, but the entries made under R. S. 2785 were not verified until after that date. *Held*, that duties must be assessed under the act of 1890.—T. D. 10678, G. A. 262.

(*g*) Goods arrived in port October 4, 1890, but not entered until October 6, 1890. They pay the duty prescribed by the act of October 1, 1890. The date when this act went into effect for duty purposes was October 6, 1890. Reversing the circuit court and sustaining the board of appraisers.—In re Gardiner (C. C. A.), (53 Fed. Rep., 1013).

(*h*) Various sections of the act of 1883 recite when each shall go into effect. Section 7 names no date when it is to go into operation. It takes effect from and after the date of the passage of the act.—Robertson *v.* Bradbury (132 U. S., 491, 493).

(*i*) Tea arrived in port at 9 o'clock p. m., April 29, 1864. Entry, invoice, and bill of lading presented to the collector at 2 o'clock, April 30, and 20 cents per pound tendered as the duty under the act of December 24, 1861. *Held*, that under the joint resolution of April 29, 1864, and section 20, act of June 30, 1864, the duty was 30 cents per pound.—Smith *v.* Draper (5 Blatchf., 238; 2 Int. Rev. Rec., 6; 22 Fed. Cas., 523).

(*j*) The act of July 1, 1812, took effect on the day of its date, and all vessels arriving at their port of entry and discharge on that day were liable to pay the duties, although they had actually arrived before within the jurisdiction of the United States.—United States *v.* Arnold (1 Gall., 348; 24 Fed. Cas., 868).

(*k*) The act of July 12, 1812 (2 Stat., 768), took effect on the day of its passage, and the cargo of a vessel arriving on that day is liable to the additional duty imposed by that act.—Arnold *v.* United States (9 Cranch, 104).

(*l*) It is a general rule that where computation is to be made from an act done the day on which the act is done is to be included.—Id.

(*a*) An act laying duties "from and after the passage of the act" takes effect the beginning of the day on which it is passed and not from the time of it being signed by the President.—United States *v.* Williams (1 Paine, 261; 28 Fed. Cas., 677).

(*b*) When necessary to determine conflicting rights, courts of justice will take cognizance of the fractions of a day.—Louisville *v.* Savings Bank (104 U. S., 469).

(*c*) It is true that for many purposes the law knows no division of a day but when it becomes important to the ends of justice, or in order to decide upon conflicting interests, the law will look into fractions of a day as readly as into the fractions of any other unit of time.—Grosvenor *v.* Magill (37 Illinois, 239) cited in Louisville *v.* Savings Bank (104 U. S., 469, 474).

(*d*) The very hour when an act was passed may be shown when it need and can be done.—Matter of Wellman (20 Vermont, 653); Lord Mansfield in Combs *v.* Pitt (4 Burr, 1423).

(*e*) An impost or duty on imports is a custom or a tax levied on articles brought into a country, and is most usually secured before the importer is allowed to exercise his rights of ownership over them, because evasions of the law can be prevented more certainly by executing it while the articles are in custody. It would not, however, be less an impost or duty on the articles if it were to be levied on them after they are landed.—Brown *v.* State of Maryland (12 Wheat., 419, 437).

(*f*) The terms "imports" and "exports" in article 1, section 10, clause 2 of the Constitution, prohibiting States, without the consent of Congress, from levying duties on imports or exports, has reference to goods brought from or carried to foreign countries alone, and not to goods transported from one State to another.—Brown *v.* Houston (114 U. S., 622).

(*g*) A general State tax, levied alike upon all property, does not infringe that clause of the Constitution if it happens to fall upon goods which, though not then intended for exportation, are subsequently exported.—Id.

(*h*) The laws of the United States in relation to commerce and revenue use the word "import" in its commercial sense.—United States *v.* Forrester (Newb., 81; 25 Fed. Cas., 1147).

(*i*) The importation of merchandise into the United States implies bringing the goods and productions of other countries into the United States from a foreign jurisdiction.—Id.

(*j*) Imports and inspection laws, within the meaning of article 1, section 10, of the Constitution, have reference solely to merchandise and do not include persons.—People *v.* Compagnie Generale Transatlantique (10 Fed. Rep., 357; 107 U. S., 59).

(*k*) The word "export" as used in the customs laws means the taking of goods out of one country into another and there unlading them, and it is entirely immaterial whether the owner intends to bring them back again. It is the converse of "import."—Kid *v.* Flagler (C. C.), (54 Fed. Rep., 367).

(*l*) A State law requiring an importer to take a license and to pay $50 before he should be permitted to sell a package of imported goods is in conflict with that provision of the Constitution of the United States which prohibits a State from laying any imposts, etc., and also with the clause which declares that Congress shall have power to regulate commerce.—Brown *v.* Maryland (12 Wheat., 419).

(*a*) The term "import" as used in that clause of the Constitution which says that "no State shall levy any duty or imposts on imports or exports" does not refer to articles imported from one State into another, but only to articles imported from foreign countries into the United States.—Woodruff *v.* Parham (8 Wallace, 123).

(*b*) The principle of the preceding decision is applicable to a case where, although the mode of collecting the article made in the State was different from the mode of collecting the tax on the article brought from another State into it, yet the amount paid was, in fact, the same on the same article in whatever State.—Hinson *v.* Lott (8 Wallace, 148).

(*c*) The effect of the act being such as just described, it was held to institute no legislation which discriminated against the products of sister States, but merely to subject them to the same rate of taxation which similar articles paid that were manufactured within the State, and, accordingly, that it was not an attempt to regulate commerce, but an appropriate and legitimate exercise of the taxing power on the State.—Id.

(*d*) Goods imported do not lose their character as imports and become incorporated into the mass of the property of the State until they have passed from the control of the importer or been broken up by him from their original cases.—Low *v.* Austin (13 Wallace, 29).

(*e*) Goods imported from a foreign country upon which the duties and charges at the custom-house have been paid are not subject to State taxation whilst remaining in the original cases unbroken and unsold in the hands of the importer, whether the tax be imposed upon the goods as imports or upon the goods as part of the general property of the citizens of the State, which is subject to an ad valorem tax.—Low *v.* Austin (13 Wallace, 29).

(*f*) May & Co., merchants at New Orleans, were engaged in the business of importing goods and selling them. In each box or case in which they were brought into this country there would be many packages, each of which was separately marked and wrapped. The importer sold each package separately. The city of New Orleans taxed the goods after they reached the hands of the importer (the duties having been paid) and were ready for sale. *Held*, (1) that the box, case, or bale in which the separate parcels or bundles were placed by the foreign seller, manufacturer, or packer was to be regarded as the original package, and when it reached its destination for trade or sale and was opened for the purpose of using or exposing to sale the separate parcels or bundles the goods lost their distinctive character as imports and each parcel or bundle became a part of the general mass of property in the State and subject to local taxation; (2) that Brown *v.* Maryland (12 Wheat., 419) established these propositions: That the payment of duties to the United States gives the right to sell the thing imported, and that such right to sell can not be forbidden or impaired by a State; that while the things imported retain their character as imports and remain the property of the importer "in his warehouse in the original form or package in which it was imported" a tax upon it is a duty on imports within the meaning of the Constitution; that a State can not, in the form of a license or otherwise, tax the right of the importer to sell, but when the importer has so acted upon the goods imported that they have been incorporated or mixed with the general mass of property in the State such goods have then lost their distinctive character as imports and have become from that time subject to State taxation, not because they are the products of other countries, but because they are property within the State in like condition with other property that should contribute in the way of taxation to the support of the government which protects the owner in his person and estate.—May *v.* New Orleans (178 U. S., 496).

(*a*) Goods imported and not entered are in custody of the laws of the United States and can not be attached upon State process. The United States having a lien on the goods for the payment of the duties accruing thereon and being entitled to a virtual custody of them from the time of their arrival in port until the duties are paid or secured, any attachment by a State officer is an interference with such lien and right of custody and, being repugnant to the laws of the United States, is void.—Harris *v.* Dennie (3 Pet., 292, 305).

(*b*) A collector of customs can not in a foreign attachment proceeding in a State court be made garnishee with respect to goods held for duties, and if he is served with a writ of attachment in such proceedings the service will be set aside.—Fischer *v.* Daudistal (9 Fed. Rep., 145).

(*c*) The tackle, apparel, and furniture of a foreign vessel wrecked upon our shores and landed and sold separate from the hull are not goods, wares, and merchandise imported into the United States within the meaning of the revenue laws.—The Gertrude (3 Story, 68; 2 Ware (Dav., 176), 181; 4 Law Rep., 444; 10 Fed. Cas., 265).

(*d*) From the foundation of the Government the duties upon ships and vessels have been regulated by acts independent of the customs laws and under a different system of legislation. Nor are vessels mentioned by name in any of the schedules prescribing duties. Accordingly, when the foreign-built yacht *Conqueror* was purchased abroad by an American citizen and navigated to the port of New York and was then seized by the collector, on the claim that she was liable to duties under the act of October 1, 1890, it was held that the yacht was not an imported article and not subject to duty.—The Conqueror (D. C.), (49 Fed. Rep., 99).

(*e*) A foreign-built vessel purchased by a citizen of the United States is not taxable under the tariff laws of the United States.—The Conqueror (166 U. S., 110, 114).

(*f*) A dredge boat without power of self-propulsion and capable of use as a dredging machine only is a "manufacture or machine" and after exportation is entitled to be reimported without duty if "returned in the same condition as exported."—United States *v.* Dunbar (C. C. A.), (67 Fed. Rep., 783).

(*g*) A steam dredge and scows used in connection therewith are vessels within the meaning of section 3, Revised Statutes, and neither is dutiable as a manufactured article not specially provided for. Affirming 83 Fed. Rep., 840.—The International (C. C. A.), (89 Fed. Rep., 484).

(*h*) A scow is a "vessel" within the meaning of section 3, United States Revised Statutes, and is not dutiable under the tariff act as imported merchandise.—The International (89 Fed. Rep., 484) followed; T. D. 24002, G. A. 5208.

(*i*) The vessel arrived at Bristol on June 12, 1812, entered on July 2, and began to discharge her cargo. *Held*, that the duties accrued upon the arrival in port with intent to unlade the cargo there and not upon the entry of the goods at the custom-house. The importation is complete on such arrival. In this case the question was, Were the goods liable to single duties or double duties under the act of July 1, 1812 (2 Stat., 768).—United States *v.* Lindsey (1 Gall., 365; 26 Fed. Cas., 971).

(*j*) Duties accrue as soon as the goods are voluntarily imported, and this as well as to prize goods as to any other, for the condemnation relates back to the time of importation.—Prince *v.* United States (2 Gall., 204; 19 Fed. Cas., 1331).

(*k*) Duties upon goods imported do not accrue until their arrival at the port of entry.—United States *v.* Vowell (5 Cranch, 368, 372).

(*a*) To constitute an importation so as to attach the right to duties, an arrival within the limits of a port of entry is necessary.—Arnold *v.* United states (9 Cranch, 104, 120).

(*b*) Vessel arrived within limits of the United States June 30 and within collection district on July 1; entry made on July 2. Duties attach on arrival within limits of port of entry.—Arnold *v.* United States (9 Cranch, 104, 120).

(*c*) An importation is complete when the goods arrive at the port of entry, and the duties accrue at that time and not at the time of the subsequent entry at the custom-house.—United States *v.* Dodge (1 Deady, 124; 25 Fed. Cas., 878).

(*d*) There is [1816] no statute of the United States nor principle of law which requires an entry to be made in order to render an importation complete.—Perots *v.* United States (Pet. C. C., 256; 19 Fed. Cas., 258).

(*e*) The arrival of a vessel at her port of destination with intent to land her cargo constitutes an importation.—Id.

(*f*) An importation is complete when goods are brought within the limits of a port of entry with the intention of unlading them there, and the right of the Government to duties accrues immediately upon importation. It is immaterial that before being unladen from the vessel the merchandise was lost overboard, so that the customs officers could not retain control of it.—United States *v.* Ten Thousand Cigars (2 Curt., 437; 28 Fed. Cas., 30) and United States *v.* Boyd (24 Fed. Rep., 692, 694) followed; T. D. 22828, G. A. 4869.

(*g*) Goods in transit if entered for consumption, though as a matter of convenience only, the goods not being intended for consumption and being subsequently exported, must pay duty.—T. D. 10740, G. A. 293.

(*h*) The Mackay-Bennett cable consigned to the Commercial Cable Company, New York, not landed, but laid under navigable waters between a foreign country and the United States, held to have been imported and dutiable.—T. D. 15725, G. A. 2906.

(*i*) The rule to be observed in the treatment of foreign material for an international bridge between Canada and the United States is this: Articles brought to the American shore for temporary use only, as a matter of convenience, but which are kept in charge of customs officers and are designed for permanent use in that portion of the bridge within the jurisdiction of Canada, are properly exempt from duty on the theory that they are not imported within the meaning of our tariff acts. But materials for use on the part of the bridge within the limits of the United States are properly subject to duty unless made free by some express provision of law.—T. D. 22967, G. A. 4906.

(*j*) It is the duty of the importer to show to which of the above classes his goods belong, and in the absence of such proof the whole will be treated as dutiable.—Id.

(*k*) Oranges imported and duty paid on 288,000. When the oranges were discharged it was found that 35,700 had decayed and were worthless, being in a mass and in such condition that they could not be abandoned (sec. 23, act of June 10, 1890, and art. 609 of the regulations). *Held*, that it being shown to the satisfaction of the collector and naval officer that oranges originally shipped were destroyed by accident during the voyage the collector is authorized to make an allowance.—T. D. 11373, G. A. 656.

(*l*) Fruit arriving in the United States in such damaged condition as to be utterly worthless and of no pecuniary value is to be treated as a nonimportation, and allowance may be made as if the goods had never arrived at all. Such allowance being not for damage, but for short shipment, does not come within

the proviso of section 23, act of June 10, 1890, and is to be made irrespective of whether or not the fruit thus decayed amounts to 10 per cent of any invoice.—Lawder *v.* Stone (187 U. S., 281), reversing 101 Fed. Rep., 710, and affirming T. D. 19774, G. A. 4222, followed; T. D. 24444, G. A. 5344.

(*a*) Window glass broken in transit prior to arrival in this country, but which is fit for remanufacture at the time of such arrival, is not to be treated as a nonimportation within the principle laid down in Lawder *v.* Stone (187 U. S., 281) merely because it got mixed with dirt and refuse in the warehouse of the importer after the cases containing it were unpacked. Such a mixing of the glass with refuse constitutes a damage within the principle settled in United States *v.* Bache (59 Fed. Rep., 762), affirming T. D. 12988, G. A. 1539; T. D. 25477, G. A. 5741.

(*b*) To constitute a nonimportation or shortage of imported fruit which will justify a pro rata abatement of duties, the merchandise must be rendered valueless and unmerchantable, so as not to be a proper subject for abandonment and sale under the provision of section 23, act of June 10, 1890, providing for the abandonment of damaged goods. In a case relating to imported fruit claimed to be rotten or decayed the onus is on the importer to show with sufficient certainty and by satisfactory evidence the percentage of the merchandise which is destroyed so as to have become valueless. Vague estimates of such percentages made upon superficial examination are not sufficient to justify an abatement of duties. A fortiori, no allowance will be made when it is shown that the original packages of such goods were sold in the market without separating the decayed fruit from that which was sound.—T. D. 25552, G. A. 5779.

(*c*) Duties can be collected only on articles which actually arrive in this country.—Marriott *v.* Brune (9 How., 619); T. D. 25965, G. A. 5891.

(*d*) Portions of shipments of fruit or vegetables which have become so rotted or damaged on the voyage of importation as to be absolutely worthless are to be treated as nonimportations, and allowance therefor must be made in the assessment of duties.—Courtin *v.* United States (143 Fed. Rep., 551; T. D. 26998); Stone *v.* Shallus (143 Fed Rep., 486; T. D. 27133), affirming 137 id., 675 (T. D. 26315); United States *v.* Courtin (153 Fed. Rep., 594; T. D. 27970), affirming T. D. 27324, G. A. 6356; T. D. 26004, G. A. 5905.

(*e*) The rule that duty is not to be assessed on fruit which has become worthless through decay on the voyage of importation is applicable where the fruit is imported in packages as well as when imported in bulk, regardless of whether the entire package is in a worthless condition.—Stone *v.* Shallus (143 Fed. Rep., 486; T. D. 27133), affirming 137 id., 674 (T. D. 26315).

(*f*) Imported fruit which has so far decayed as to be absolutely unfit for commerce and which would be nondutiable if separated from the sound fruit in the same package does not become dutiable because it is kept with the good fruit and sold with it instead of being separated. If the importer is able to show by satisfactory evidence the quantity which has become valueless through decay, he is entitled to an allowance therefor in the duty. In ascertaining the allowance which should be made for decay in an importation of fruit in packages the importer examined at least one package out of every ten in each consignment and assumed the percentage of loss in that package to prevail through all the other packages. It was held that this is a reasonable way of arriving at the percentage of decaying fruit and that proof of such percentage would justify an allowance on that basis. T. D. 25552, G. A. 5779, in effect overruled.—Courtin *v.* United States (143 Fed. Rep., 551; T. D. 26998).

(*g*) The importers of certain fruit in ascertaining the amount of decay for the purpose of securing an allowance therefor in the assessment of duty did

not pursue the method provided in T. D. 21831, giving them the privilege of opening and repacking the fruit under customs supervision. It was held that this was not essential to their right of allowance, as T. D. 21831 applies only to cases of abandonment under section 23, customs administrative act of 1890. T. D. 25843, G. A. 5865, reversed.—Villari *v.* United States (147 Fed. Rep., 766; T. D. 27396), affirmed in *id.* (T. D. 28654).

(*a*) The rotten portions of imported fruit, which are condemned by local health authorities after the issuance of a tropical permit of delivery, but while the merchandise is being unloaded, held not dutiable. The law is complied with if the Government receives duty on the entire amount of fruit which comes into the country as such. T. D. 27324, G. A. 6356, affirmed.—United States *v.* Courtin (153 Fed. Rep., 594; T. D. 27970).

(*b*) Duty is assessable only upon such merchandise as is actually brought within the limits of the United States and enters into the commerce of this country. Merchandise destroyed, or so totally damaged as to be valueless, before it is brought into the United States and enters into the commerce of this country is to be treated as a nonimportation and not dutiable.—T. D. 28651, G. A. 6700.

(*c*) An importer gave a bond for the removal of goods under the provisions of section 2899, Revised Statutes, the obligation of which is to hold the merchandise unopened for ten days after the examination of public-store cases, or until permission to open the same is secured by him from the collector, and then to open them in the presence of a customs inspector. In violation of that bond the importer opened the merchandise and discovered that it was totally destroyed by decay. *Held*, that the importation will not be treated as a nonimportation, for the reason that it has passed into the limits of the United States and entered into the commerce thereof.—Ibid.

(*d*) Foreign goods, once lawfully admitted into the United States, if reexported or voluntarily placed within the limits of a foreign jurisdiction lose the character imparted to them by such admission, and if reimported into the United States it must be done in conformity with the law governing the importation of goods of foreign growth or manufacture from a foreign country.—Ten Cases of Opium (1 Deady, 62; 23 Fed. Cas., 840).

(*e*) Goods, of whatever growth or manufacture, brought from a foreign port or place and landed at a port or place within the United States without a permit are forfeited to the United States.—Id.

(*f*) Where goods are withdrawn from a bonded warehouse to avoid the payment of internal-revenue tax, exported from a domestic port, carried beyond the jurisdiction of the United States, and then brought back into a domestic port, they are imported goods, although not actually landed in any foreign port or place.—McGlinchy *v.* United States (4 Cliff., 312; 16 Fed. Cas., 118.)

(*g*) Two double-barrel breech-loading shotguns imported in 1893 and duty paid, the guns found to be defective and returned to the foreign manufacturer for alteration, and reimported in 1894. The importer claims that duty should be assessed only upon the value of the parts changed or altered. *Held*, that there is no law entitling him to the relief sought.—T. D. 15236, G. A. 2729.

(*h*) A pump of English manufacture sent as part of a wrecking apparatus to be used to raise an American steamer wrecked on the coast of British Columbia. Returned and assessed under paragraph 215, act of 1890. Claim that it was free overruled.—T. D. 15321, G. A. 2755.

(*i*) Silk and lace goods imported in a trunk at New York and duties paid. Goods taken possession of by the importer and shipped in the trunk as baggage

to San Francisco, through Canada, not corded and sealed by United States customs officers, but only by Canadian customs officer. Held dutiable at San Francisco as a new importation.—T. D. 16418, G. A. 3207.

(*a*) A reimportation of exported merchandise is ordinarily to be considered, for all customs purposes, as a new importation and is dutiable accordingly.—T. D. 21504, G. A. 4527.

(*b*) Watch bought in Switzerland in 1899, imported, afterwards returned to Switzerland to be repaired, and reimported by the original purchaser and importer. *Held*, that the rule as to imported goods is that they are subject to duty unless there is some provision exempting them, and that a reimportation is, in general, to be treated as an original importation (art. 1438, Reg. 1899).—T. D. 22648, G. A. 4816.

(*c*) In 1850 a new vessel sailed from Boston to New Orleans and thence to Liverpool having a set of anchors and chains as a part of her equipments. It was her first voyage. At Liverpool her master, by direction of her owner, previously given, bought another set of four anchors and chain cables. Nothing had happened during the voyage to make anchors and chain cables with which she started less seaworthy than when she left the United States. The new set was purchased for the alleged reason that the former set was too light to hold the vessel while lying at anchor in the river Mersey. The new set used and the old set tranferred to another vessel after return to the United States. Held dutiable.—Weld *v.* Maxwell (4 Blatchf., 136; 29 Fed. Cas., 614).

(*d*) If an anchor and chain cable is purchased abroad by an American vessel to supply the place of one which has become unseaworthy from any cause after the sailing of the vessel from a port of the United States, and if such purchase is made bona fide for the use of such vessel and not to sell it again as merchandise, and if it is used for the vessel, then it is bona fide a part of the equipments and appurtenances of the vessel and not subject to duty.—Weld *v.* Maxwell (4 Blatchf., 136; 29 Fed. Cas., 614).

(*e*) To be merely used as a part of the equipments and appurtenances of a vessel is not sufficient to change the character of the articles and to convert them from goods, wares, and merchandise into a portion of the vessel. They must also be bona fide such a part, under a necessity not occasioned by any fault of her master or owners in not properly equipping her originally for her voyage.—Id.

(*f*) An anchor and chain cable which is bona fide a part of the equipments and appurtenances of an American vessel is not on being brought by her to the United States subject to duty.—Id.

(*g*) German vessel sailed from Charleston and was towed into Hampton Roads in a disabled condition, having broken her screw shaft. Vessel placed in dry dock and new screw shaft telegraphed for, which arrived, was entered, and placed on the vessel. *Held*, that the shaft was dutiable.—T. D. 11220, G. A. 579.

(*h*) A vessel lost her anchor, which was recovered and shipped to her at Port Townsend. *Held*, that the anchor was part of the equipment of the ship, temporarily separated from her and not dutiable.—T. D. 13779, G. A. 1973.

(*i*) Prize goods brought in by ships of war are liable to the payment of duties as to the moiety belonging to the officers and crew of the capturing ship, but no duties are payable on the moiety belonging to the United States. The whole of that moiety belongs to the navy pension fund.—The Liverpool Hero (2 Gall., 184; 15 Fed. Cas., 639).

(*a*) If captured goods claimed by a neutral owner be by consent sold under order of the court and afterwards by the final sentence of the court the proceeds are ordered to be restored to such owner, the amount of the duties due to the United States upon the importation of the goods must be paid.—Brig Concord (9 Cranch, 387).

(*b*) Opium shipped on board a steamship at Honolulu for Panama via San Francisco, intended to be transferred on landing to another steamer at San Francisco running to Panama in connection with the steamship from Honolulu and entered on the manifest and bills of lading and reported to the collector as being in transit for Panama, the owner having applied to the collector for a permit to make the transshipment and offered to give the security prescribed by statute and a permit having been refused, was held not to be liable for duties and a seizure for nonpayment of duties held to be illegal.—R. S. 2502, 2931, and 2979 construed; McLean *v.* Hager (31 Fed. Rep., 602).

(*c*) Goods saved from a wreck and brought within the United States are subject to duty under the acts of 1818 and 1823.—Blatchf. & H., 114.

(*d*) Import duties upon wrecked goods are to be paid out of the gross proceeds before deducting salvage, and are not to be charged exclusively upon the owner's share of the salvage.—Id.

(*e*) Where property is salved on the high seas and brought by the salvors within the limits of the United States, the salvage claims are entitled to priority over the claims of the Government for duties.—Merritt *v.* One Case of Wool (32 Fed. Rep., 111).

(*f*) Goods so brought into the United States are not imported goods in the sense of the customs laws, so as to necessarily attach the right to duties.—Id.

(*g*) But where the goods so brought within the United States subsequently, by virture of a sale, pass into consumption within the United States an equitable right on the part of the Government to be paid duties arises, not taking precedence, however, of the salvage claims.—Id.

(*h*) Two war ships wrecked in the harbor of Apia, Samoa, in 1888 and wrecks presented to the Samoan Government, which Government engaged a San Francisco firm to gather and transport the material to the United States on an agreement to give the firm a share of the profits. *Held*, that the merchandise is not free as wreckage (art. 426, Reg. 1884), but has become the subject of purchase and sale and is merchandise.—T. D. 11582, G. A. 757.

(*i*) Goods furnished gratuitously are dutiable.—T. D. 14558, G. A. 2350.

(*j*) With the ratification of the treaty of peace with Spain, April 11, 1899, the island of Porto Rico ceased to be a "foreign country" within the meaning of the tariff laws, and duties collected on merchandise imported from Porto Rico during June, July, or September, 1899, were illegally exacted.—De Lima *v.* Bidwell (182 U. S., 1), The Insular Cases.

(*k*) Duties upon imports from the United States to Porto Rico collected by the military commander and by the President as Commander-in-Chief from the time possession was taken of the island until the ratification of the treaty of peace were legally exacted under the war power, but this right to exact duties upon importations from Porto Rico to New York ceased with the ratification of the treaty of peace, and with it the correlative right to exact duties upon imports from New York to Porto Rico.—Dooley *v.* United States (182 U. S., 222), Armstrong *v.* United States (182 U. S., 243), The Insular Cases.

(*l*) In passing upon the question of the dutiability of merchandise imported into New York from Porto Rico upon which duty had been assessed

under the provisions of the act of May 1, 1900, known as the Foraker Act, imposing duties on goods imported into the United States from Porto Rico, it was held that the island of Porto Rico is a territory appurtenant and belonging to the United States, but not a part of the United States within the revenue clauses of the Constitution; that the Foraker Act is constitutional so far as it imposes duties upon imports from such islands, and that duty on a cargo of oranges imported into New York from Porto Rico in November, 1900, was legally exacted.—Downes *v.* Bidwell (182 U. S., 244), The Insular Cases.

(*a*) The constitutional inhibition against export duties is limited to articles exported to a foreign country and has no application to Porto Rico, which in the case of De Lima *v.* Bidwell (182 U. S., 1) was held not to be a foreign country within the meaning of the general tariff law then in force.—Dooley *v.* United States (183 U. S., 151), The Insular Cases.

(*b*) The duty imposed by the act of Congress taking effect May 1, 1900, known as the Foraker Act, upon merchandise going into Porto Rico from the United States is not an export tax or duty, and the act is constitutional.—Ibid.

(*c*) Merchandise imported from the Philippine Islands subsequent to the ratification of the treaty of peace between the United States and Spain April 11, 1899, to wit, in September, 1900, was not legally liable to any duty, said islands having ceased to be foreign territory within the meaning of the tariff laws at the date of the ratification.—De Lima *v.* Bidwell (182 U. S., 1) reaffirmed and applied; Fourteen Diamond Rings (183 U. S., 176).

(*d*) Cuba was, as to the United States, a foreign country during the occupation of that island by American military forces previous to the transfer of the island to Cuban government and control on May 20, 1902, and importations from the United States into Cuba during the American control and prior to that date were properly subject to the duties levied by the American military authorities.—Galban *v.* United States (40 Ct. Cls. Rep., 495; T. D. 27946).

(*e*) After the island of Porto Rico had passed into American control goods imported from the United States were non dutiable, and hence it was no crime to bring goods into Porto Rico from the United States without entering them of paying duties thereon.—Basso *v.* United States (40 Ct. Cls. Rep., 202; T. D. 27949).

(*f*) Merchandise is not imported from a foreign country, within the meaning of the tariff laws, until it actually arrives at a port of entry of the United States, and it is dutiable under the law in force at the time of its arrival. Goods which left the Philippine Islands before the ratification of the treaty with Spain by which the islands were ceded to the United States, but which did not arrive at a port of entry of the United States until after the treaty took effect, were not subject to duty.—American Sugar Refining Company (124 Fed. Rep., 677).

(*g*) Sugar which left Porto Rico on April 8, 1899, while the island was still Spanish territory, but which did not arrive at the port of New York until after the taking effect of the treaty ceding the island to the United States, was not subject to duty, as at the time of its arrival Porto Rico had ceased to be a foreign country.—American Sugar Refining Company (124 Fed. Rep., 683).

(*h*) Porto Rico ceased to be a foreign country for tariff purposes on April 11, 1899, on which day ratifications of the treaty with Spain were exchanged, and merchandise entered at any hour on that day was not subject to duty.—Howell *v.* Bidwell (124 Fed. Rep., 683).

(*a*) The treaty by which the island of Porto Rico was ceded to the United States became effective on April 11, 1899, when ratifications were exchanged, and not on December 10, 1898, when it was signed, nor on February 16, 1899, when it was ratified by the Senate and the President of the United States, nor on March 19, 1899, when it was ratified by the Queen Regent and Cortes of Spain.—Discussion of when treaties become effective, Armstrong *v.* Bidwell (124 Fed. Rep., 690).

(*b*) The order of the President, dated July 12, 1898, that "upon the occupation of any ports and places in the Philippine Islands by the forces of the United States" duties should be levied and collected "as a military contribution" was a measure taken with reference alone to the war with Spain and did not extend to the period including the subsequent insurrection in those islands. It was intended to deal with imports from foreign countries only, and duties exacted on importations from New York into Manila after the exchange of the ratifications of the treaty of peace with Spain (30 Stat., 1754) April 11, 1899, were not subject to such duties.—Lincoln et al. *v.* United States (197 U. S., 419; T. D. 26393).

(*c*) The act of July 1, 1902 (32 Stat., 691), ratifying the action of the President in his order of July 12, 1898, approved the action of the authorities only so far as in accordance with the provisions of such order and did not extend to the imposition of duties on merchandise imported into Manila from New York after the exchange of ratifications of the treaty of peace with Spain (30 Stat., 1754). which was not authorized by such order.—Ibid.

(*d*) After the title to the Philippines passed to the United States there was nothing in the insurrection there of sufficient gravity to give to the islands the character of foreign countries within the meaning of a tariff act.—Ibid.

(*e*) The act of July 1, 1902 (32 Stat., 691), ratifying the order of the President, dated July 12, 1898, under which duties were collected by the Philippine government on merchandise imported into the Philippines from the United States after they had passed into American possession, related only to collections made prior to the exchange of ratifications of the treaty of peace with Spain April 11, 1899. The right to levy duties on merchandise brought from the United States ceased at the time of such exchange, though military occupation still continued.—Lincoln et al. *v.* United States (202 U. S., 484; T. D. 27413).

(*f*) Congress had the power to ratify the collection of duties imposed by the Philippine government on importations into the Philippines subsequent to the acquisition of those islands by the United States, and under the act of June 30, 1906 (34 Stat., 636), ratifying the collection of all duties prior to March 8, 1902, duties are not recoverable that were paid on importations from the United States.—United States *v.* Heinszen (206 U. S., 370; T. D. 28237).

(*g*) Where an agent of the United States has without precedent authority exercised in the name of the United States a power which Congress has the right to bestow, Congress may ratify and confirm such unauthorized act, and thus retroactively give it validity when rights of the parties have not intervened.—Ibid.

(*h*) In dealing with the Philippines Congress has power to delegate legistive authority to such agencies as it may select.—Ibid.

(*i*) In testing the validity of an act of Congress ratifying the imposition of duties previously collected an important consideration in favor of such validity is that, although the duties were illegally exacted, the illegality was not the result of an inherent want of power to have authorized the imposition, but sim-

ply arose from the failure to delegate to the collecting officials the authority essential to give immediate validity to their enforcement of the payment of duties.—Ibid.

(*a*) The act of June 30, 1906 (34 Stat., 636), ratifying the previous imposition of duties on importations into the Philippines does not violate the fifth amendment to the Constitution by requiring the taking of property without due process of law.—Ibid.

(*b*) The fact of the commencement of a suit against the Government for duties illegally exacted does not affect the power of Congress to ratify the exactions by causing the statute to become repugnant to the fifth amendment to the Constitution, prohibiting the taking of property without due process of law.—Ibid.

(*c*) Cuba did not by reason of the treaty with Spain become a part of the United States, and for tariff purposes it remains a foreign country.—T. D. 21738, G. A. 4594.

(*d*) Importations from Cuba are dutiable.—T. D. 22019, G. A. 4659.

(*e*) Cuba, as between Spain and the United States—indeed as between the United States and all foreign nations—upon the cessation of hostilities with Spain and after the treaty of Paris was to be treated as if it were conquered territory; but as between the United States and Cuba that island is territory held in trust for the inhabitants of Cuba, to whom it rightfully belongs and to whose exclusive control it will be surrendered when a suitable government shall have been established by their voluntary action.—Neely *v.* Henkel (180 U. S., 109, 120).

(*f*) Cuba is none the less foreign territory within the meaning of the act of June 6, 1900, because it is under a military governor appointed by and representing the President in the work of assisting the inhabitants to establish a government of their own.—Neely *v.* Henkel (180 U. S. 109, 120).

(*g*) The status of Cuba as a foreign country was not changed by the operation of the treaty with Spain, and merchandise from that island is dutiable.—T. D. 23087, G. A. 4932.

(*h*) Query: Whether sponges obtained from the high seas about 30 or 40 miles from the Florida coast are articles imported from foreign countries.—T. D. 27912, G. A. 6541.

(*i*) The Isle of Pines is a part of Cuba, and therefore a foreign country, and importations therefrom are subject to the tariff laws of the United States.—Pearcy *v.* Stranahan (205 U. S., 257; T. D. 28108).

(*j*) The joint resolution of July 7, 1898, provided for the annexation of the Hawaiian Islands to the United States and declared that "until legislation shall be enacted extending the United States customs laws and regulations to the Hawaiian Islands the existing customs relations of the Hawaiian Islands with the United States and other countries shall remain unchanged." Duties were accordingly assessed upon goods brought from the Hawaiian Islands, against the protest of importers claiming free entry upon the ground that the Hawaiian Islands had become part of the United States by virtue of the said joint resolution.—T. D. 22400, G. A. 4735.

(*k*) Whether the Constitution extends ex proprio vigore, with all its limitations, to newly acquired territory not yet admitted as a State, or whether the power of Congress over the territory is general and plenary to make such rules and regulations as it may see fit, subject only to constitutional limitations in favor of personal rights. Query.—Id.

(*a*) Whether newly acquired territory remains a foreign country for tariff purposes until Congress by special legislation extends the tariff and revenue laws over it and establishes collection districts therein. Query.—Id.

(*b*) It seems upon these points the opinions of the courts and the jurists are in conflict, if not inextricable confusion.—Id.

(*c*) It is a well settled principle that a court should not pronounce an act of Congress unconstitutional unless its incompatibility with the constitution is clear, decided, and inevitable.—Id.

(*d*) The protest of the importers claimed the unconstitutionality of the legislation continuing in force the tariff duties between the Hawaiian Islands and the United States, as being in violation of those clauses of the Constitution which provide (*a*) that duties shall be uniform throughout the United States; (*b*) that no tax shall be levied upon articles exported from any State.—Id.

(*e*) *Held*, that in view of the before-mentioned considerations the protest should be overruled, the question being deemed one of sufficient importance to require the determination of the Supreme Court.—Id.

(*f*) The provision of the joint resolution for the annexation of the Hawaiian Islands, which retained in force the same customs duties between such islands and the ports of the United States as formerly, is constitutional. Sustaining the Board.—Crossman *v.* United States (105 Fed. Rep., 608).

(*g*) The President was authorized to establish a military government and a war tariff in Porto Rico, which was acquired from Spain by conquest, the title being only confirmed and perfected by subsequent treaty.—T. D. 22018, G. A. 4658.

(*h*) The Board of General Appraisers sitting as a board of classification will take judicial cognizance of all laws, Executive proclamations, and public documents showing the political and fiscal relations of this country to Spain and Porto Rico.—Id.

(*i*) The treaty of Paris (30 Stat., 1754) became the supreme law of the land within the meaning of article 1, section 2, of the Constitution, as an act of Congress is, only, so far as not being merely executory, it prescribes a rule by which the rights of the private citizen or subject may be determined and enforced in a court of justice. In other respects it addresses itself to the political and not to the judicial department of the Government.—Id.

(*j*) The cession of Porto Rico to the United States did not ipso facto bring that island within the operation of the general tariff laws of this country without special Congressional legislation on the subject.—Id.

(*k*) Jute bags for sugar imported into Porto Rico from Germany are not free under section 3, act of April 12, 1900 (31 Stat., 77), and War Department Circular 115, of January 17, 1899. The exemption from duty accorded by said section extends only to such goods when imported from the United States.—T. D. 23269, G. A. 4988.

(*l*) The General Appraisers have jurisdiction to examine and decide protest cases arising upon decisions of collectors in Porto Rico.—T. D. 22410, G. A. 4739.

(*m*) There is no discrimination in Porto Rico in conflict with treaty in respect to port charges, such as entrance and clearance dues, light-house dues, and tonnage duties, between American and Spanish vessels.—T. D. 22507, G. A. 4773.

(*n*) The boundaries of the United States can be enlarged and the operation of its institutions and laws extended over new territory only by the treaty-making power or the legislative authority. The occupation of territory conquered in war, while it gives the United States title to such territory as against

foreign nations, does not change the status of its inhabitants, who remain foreigners so far as regards their relations to the United States and its laws.—Goetze *v.* United States (C. C.), (103 Fed. Rep., 72).

(*a*) A treaty ceding territory to the United States in order to have the effect of incorporating such territory as an integral part of the United States under the Constitution and of giving its inhabitants the status of citizens thereof must do so by express provision or by necessary implication. Whether a treaty is sufficient without legislation is not clearly established, but the mere fact of acquiring title to the soil and dominion over it can not change the constitutional status of the inhabitants.—Id.

(*b*) By the conquest and occupation of Castine by the enemy that territory passed under the temporary allegiance and sovereignty of the enemy, and of course the sovereignty of the United States was during the same period suspended and the laws of the United States could no longer be rightfully enforced there. Castine during such occupation was not a port of the United States with reference to the nonimportation acts. Therefore the bringing of British goods from Halifax to Castine during the occupation was not an offense against those acts.—United States *v.* Hayward (2 Gall., 485; 26 Fed. Cas., 240).

(*c*) By the conquest and military occupation of a portion of the territory of the United States by a public enemy that portion is to be deemed a foreign country so far as respects our revenue laws.—United States *v.* Rice (4 Wheat., 246).

(*d*) Goods imported into territory of the United States occupied by a public enemy are not imported into the United States and are subject to such duties only as the conqueror may impose.—Id.

(*e*) The subsequent evacuation of the conquered territory by the enemy and resumption of authority by the United States can not change the character of past transactions. The jus postliminii does not apply to the case, and goods previously imported do not become liable to pay duty to the United States by the resumption of their sovereignty over the conquered territory.—Id.

(*f*) Duties collected in California between February 3, 1848 (the date of the treaty of peace), and November 13, 1849 (when the collector entered on the duties of his office), were not illegally exacted and can not be recovered back.—Cross *v.* Harrison (16 How., 164).

(*g*) The capture and occupation of Tampico during the war with Mexico, though sufficient to cause it to be regarded by other nations as a part of our territory, did not make it a part of the United States under our Constitution and laws. It remained foreign country within the meaning of the revenue laws of the United States.—Fleming *v.* Page (9 How., 603).

(*h*) The conquest and occupation of Santiago by the United States military authorities did not make that territory a part of the United States. For tariff purposes it remained a foreign port.—T. D. 21476, G. A. 4515.

(*i*) Merchandise transported from New Orleans to Santiago de Cuba while that place was within the military occupation of the United States must be deemed to be "exported" from this country. The fact that it is afterwards returned to New Orleans without having been landed does not take it out of the category of imported merchandise dutiable.—Id.

(*a*) Cinnamic acid can be produced from benzaldehyd which is produced from bitter almonds, and also from indigo and gum benzoin. For economic and commercial reasons it has, however, within recent years been produced synthetically, almost wholly, if not entirely, as a commercial article from the hydrocarbon tolnol or tolnine derived from coal tar. It differs essentially from the benzaldehyd of commerce, being a more advanced and expensive product, and, consequently, is not free under paragraph 524, as benzaldehyd. It was assessed as an acid not specially provided for.—T. D. 22563, G. A. 4788.

(*b*) Tetra-chlor-phthalic acid or anhydride is dutiable under the provision for all other acids not specially provided for, being a distinct and different article from phthalic acid, and not inclnded in paragraph 464 or 524. It was held by the United States circuit court for the southern district of New York to be exempt from duty under paragraph 473, act of 1890, but the provisions of that paragraph differed essentially from the corresponding provisions of the present act.—T. D. 22664, G. A. 4824.

(*c*) The article known scientifically as "acetic anhydrid," and commercially as "acetic acid anhydrous," though not an acid in chemical composition, held to be one of the substances covered by the provision herein for acetic acid and dutiable accordingly as acetic acid.—Lueders *v.* United States (140 Fed. Rep., 970; T. D. 26460), reversing T. D. 23426, G. A. 5051, followed.—T. D. 26590, G. A. 6101.

(*d*) An antiseptic preservative, composed of a mechanical mixture of boracic acid and borax, held to be dutiable as borax or as boracic acid according to which is the component material of chief value, by virtue of the provision in section 7, tariff act of 1897, that articles not enumerated, composed of two or more materials, shall be assessed at the highest rate at which the same would be chargeable if composed wholly of the component material thereof of chief value.—Levi *v.* United States (126 Fed. Rep., 420; T. D. 25050), affirming T. D. 24215, G. A. 5276.

(*e*) So-called clarifying powders—a chemical mixture of tannic acid or tannin with organic matter—do not constitute a chemical compound and are dutiable under the provision for tannic acid or tannin.—T. D. 25151, G. A. 5623.

Rep., 475; T. D. 27747), affirming 143 id., 361; T. D. 27030, and T. D. 25648, G. A. 5807, followed; T. D. 27781, G. A. 6499.

(*h*) Extract of nutgalls made by grinding nutgalls, digesting the powder in water, filtering to remove impurities, and adding a chemical to keep the filtrate from fermenting or molding, but which works no chemical change in the article, is not dutiable either directly or by similitude as tannin or tannic acid.—United States *v.* Proctor (145 Fed. Rep., 126; T. D. 27115), affirming 139 id., 586; T. D. 26544, and reversing T. D. 24395, G. A. 5333.

(*i*) In order to bring an importation within a class of merchandise specified in the tariff as used for certain purposes, the evidence should show that the article was so generally used for one of such as to be understood among those dealing in and using it as falling within that class, but it is not necessary to show that it is universally used for that purpose.—Lutz *v.* Robertson (T. D. 25606).

C.), (41 Fed. Rep., 128).

(*f*) Saccharine was not free under the act of 1883 as an "acid used for medicinal, chemical, or manufacturing purposes not specially provided for."—Lutz *v.* Magone (153 U. S., 105).

1883 [Not enumerated. Dutiable under paragraph 92, page 26.]

DECISIONS UNDER PARAGRAPH 40, ACT OF 1897.

(*e*) Bottles containing olive oil are not covered by the provisions of this paragraph, but are dutiable under paragraph 99.—T. D. 23255, G. A. 4985.

(*f*) Olive oil containing a large percentage of free fatty acid, having an acrid taste, a strong, offensive, and rancid odor, unsafe for human consumption, and not imported or adapted for food consumption, is entitled to free entry under paragraph 626 as olive oil for manufacturing or mechanical purposes and "fit only for such use." The fact that such oil is used for frying or salads by a class of foreigners presumably ignorant of its deleterious qualities and injurious effects does not show that it is fit for use as a food.—Oil Seeds Pressing Company *v.* United States (120 Fed. Rep., 1022), affirming 114 Fed. Rep., 793, and reversing T. D. 21613, G. A. 4557, followed; T. D. 24685, G. A. 5427.

(*g*) Bottles containing olive oil as provided for in this paragraph are subject to separate duty under paragraph 99.—Smith *v.* United States (124 Fed. Rep., 291) followed; T. D. 24993, G. A. 5578.

(*h*) Olive oil imported in tins is dutiable by the gallon. Where an importer of such olive oil claims that the measurement made by the gauger is excessive, no allowance for shortage will be made in the absence of satisfactory evidence showing the actual quantity contained in the cans, which would furnish a guide for reliquidation by the collector, and the onus of producing such evidence is cast on the importer.—T. D. 26833, G. A. 6191.

(*i*) Mere presence or absence of free fatty acids in olive oil does not determine whether or not such oil is fit for use as an article of human food,

Rancidity may exist in such oil before the formation of free fatty acids, and such acids may exist long before the oil becomes rancid. Olive oil in condition to be filtered and blended with cotton-seed oil, and when so blended fit to be used as an article of human food, is dutiable under this paragraph.—T. D. 27218, G. A. 6317; affirmed by consent (T. D. 28210).

(*a*) Olive oil in tins is dutiable at the rates named herein upon the quantity of oil actually imported and not on the capacity of the tin containers. A gallon of olive oil weighs, accurately, 7.56 pounds, equal to 3.43 kilos, and duty should be assessed on this basis.—United States *v.* Zucca (154 Fed. Rep., 172; T. D. 28002), affirming T. D. 27556, G. A. 6416, followed; T. D. 28072, G. A. 6575.

(*b*) Olive oil contained in tins of a capacity of 5 gallons is dutiable under the provision herein for olive oil not specially provided for and not under that for olive oil in bottles, jars, tins, or similar packages.—United States *v.* La Manna (T. D. 28186), affirming without opinion T. D. 27681, G. A. 6469.

(*c*) Olive oil shown to have been fit for food at the time of importation will not be held to be free of duty, notwithstanding that the sample offered by the importer at the trial was unwholesome, this condition being the result of exposure to light and air.—Collette *v.* United States (140 Fed. Rep., 990; T. D. 27070).

DECISIONS UNDER THE ACT OF 1894.

(*d*) Olive oil imported in tins holding from about a quart to 5 gallons, the quantity of which when sold here is reckoned according to the quarts or gallons of the various sizes, without regard to exact measurements, and which is returned by the gauger according to the quantity of the various sizes, though this measure exceeds the true measure by one thirty-second, as testified by the gauger, and about one-twelfth, as claimed by the importer, is properly assessed on the quantity so returned, in the absence of more exact testimony to furnish a guide for reliquidation. Sustaining the Board of General Appraisers.—Giglio *v.* United States (C. C.), (91 Fed. Rep., 758).

DECISIONS UNDER THE ACT OF 1890.

(*e*) The phrase "fit for salad purposes" means ordinarily regarded as fit for eating purposes.—T. D. 13545, G. A. 1817.

1883 [Not enumerated. Dutiable under paragraph 92, page 26.]

DECISIONS UNDER PARAGRAPH 42, ACT OF 1897.

(*g*) Cod oil, although used only for dressing or stuffing leather, dutiable as fish oil and not as oils for dressing or stuffing leather.—T. D. 20076, G. A. 4273; affirmed in Wells *v.* United States (99 Fed. Rep., 258).

(*a*) The provision for "fish oils" in this paragraph is not limited to such oils as are made from the entire fish, and therefore includes cod oil, which is made from codfish livers. Cod oil, being a fish oil, is accordingly excluded from paragraph 568, admitting to free entry "oils (excepting fish oils) such as are commonly used * * * for stuffing or dressing leather." It is also similarly excluded by reason of the fact that it is "fit" for other uses than those specified in paragraph 568, which is limited specifically to oils "which are fit only for such uses." A requirement in a tariff provision that an article shall be "fit only" for a certain purpose is not satisfied by showing that its chief or predominant use is for that purpose. Cod oil being a fish oil, and for the further reason that it is fit for other uses than those specified in this paragraph, is not free, but is dutiable under paragraph 42.—Swan *v.* United States (113 Fed. Rep., 243), affirming 109 id., 949, and Train *v.* United States (113 id., 1020), affirming 107 id., 261, followed; T. D. 23720, G. A. 5136.

(*c*) Japanese herring oil is dutiable as fish oil and not free as oil used in soap making. The oils exempt in paragraph 599 are not fish oils.—T. D. 15414, G. A. 2808; reversed T. D. 18008, G. A. 3852, United States *v.* Wells (77 Fed. Rep., 411).

(*d*) Sperm oil double refined is dutiable as whale oil.—T. D. 11326, G. A. 609.

(*e*) Spermaceti is dutiable as whale oil. T. D. 11573, G. A. 748.

Rep., 14; T. D. 27768), reversing 143 id., 694 (T. D. 27024).

(*b*) While it may be conceded that no reason is apparent why Congress should impose a much lower duty on powdered opium than is imposed upon the crude or unmanufactured article, the courts can only ascertain the legislative intention by the language used, and it is not their duty by a distorted construction to attempt to cover an article which may have been omitted by inadvertence.—Ibid..

(*o*) Castile soap imported. The importer claimed that allowance should be made for shortage on weight. Duties are to be paid only upon the actual quantity of merchandise which is imported, and not upon the original quantity bought and shipped.—Reiss *v.* Magone (C. C.), 39 Fed. Rep., 105.

(*p*) Where, however, an importation has shrunk in weight from evaporation or other like causes, and such shrinkage has added a percentage of value, so that the actual quantity which arrives is worth more per pound in the markets of the country from which it came than the original quantity bought and shipped was worth per pound, the actual quantity should be appraised at its increased value per pound, and duty assessed upon the value so appraised, although the invoice describes the original quantity as worth less per pound.—Id.

(*a*) But to warrant such an assessment of duty the appraiser must first find that the actual quantity was worth per pound such a sum as would warrant the particular amount of duty assessed. The appraiser having found the soap to be worth the amount as given in the invoice without having found that the value of what was left was enhanced by shrinkage, verdict and judgment was rendered in favor of the importer.—Id.

(*b*) Bottles having printed or painted upon their surfaces, in gilt or silver, a label having only plain lettering thereon held not to be ornamented or decorated.—T. D. 22503, G. A. 4769.

(*c*) Bottles containing fruits and alcoholic perfumery, dutiable under paragraphs 263 and 2, respectively, were imported. *Held*, that where the language of a tariff provision in its ordinary meaning and grammatical construction leads to an absurdity, hardship, or injustice by the exaction of an exhorbitant rate of duty, presumably not intended, a literal interpretation is to be avoided if a more reasonable result may be reached by a judicious modification of the meaning of the words in their ordinary sense. Accordingly, it is held that the provision of this paragraph is not to be construed that glass bottles shall be dutiable at the compound rates applied to their contents, but only at the ad

valorem rate to which the contents are liable, subject to the proviso that none of the articles shall pay a less rate than 40 per cent.—T. D. 22621, G. A. 4812.

(*a*) The proviso to this paragraph qualifies the whole paragraph, including the parenthetical exception with reference to bottles containing merchandise subject to ad valorem. Accordingly, glass bottles containing merchandise subject to ad valorem rates less than 40 per cent are by virtue of said proviso dutiable at 40 per cent. T. D. 18613, G. A. 4011, overruled.—T. D. 18742, G. A. 4055, and United States *v.* Hensel (C. C. A.), (106 Fed. Rep., 70), reversing (C. C.), (99 Fed. Rep., 259), followed; T. D. 22768, G. A. 4858.

(*b*) The proviso to this paragraph applies as well to bottles containing merchandise subject to an ad valorem duty as to others. Sustaining T. D. 18742, G. A. 4055, and reversing 99 Fed. Rep., 259.—United States *v.* Hensel (C. C. A.), 106 Fed. Rep., 70.

(*c*) Old bottles are not entitled to free entry as junk, but are dutiable as bottles.—Carberry *v.* United States (116 Fed. Rep., 773), affirming T. D. 22145, G. A. 4697, followed; T. D. 24046, G. A. 5223.

(*d*) Covered carboys are such as are covered with canvas, wickerwork, or other material, in such manner as to be practically inseparable from the glass container; but where merchandise is imported in large carboys packed in straw in a basket having a lid attached, this basket being placed in a larger basket, the carboy so packed constitutes by itself an uncovered crboy within the meaning of this paragraph and the packing (straw and baskets) should be treated and held dutiable as coverings.—T. D. 24706, G. A. 5436.

(*e*) Bottles containing olive oil are dutiable under this paragraph.—T. D. 24993, G. A. 5578.

(*h*) Glass jars, cylindrical in shape, and without contraction at the mouth, fitted with stoppers ground only with the object of rendering them suitable for their intended use as stoppers for such jars, are dutiable at 40 per cent under this paragraph and are not dutiable under paragraph 100.—T. D. 27558, G. A. 6418.

(*i*) Woulff bottles or flasks being known under either designation are dutiable as bottles. Other articles of glass in the form of flasks for use in chemical laboratories are dutiable as articles of blown glassware or as manufactures of glass.—T. D. 27584, G. A. 6429.

(*j*) Fancy glass bottles with metal mountings are not classifiable as plain glass bottles.—Cross *v.* United States (150 Fed. Rep., 610; T. D. 27771).

(*k*) In construing the provision of this paragraph relating to filled glass bottles, and in connection therewith the various tariff provisions relating to the merchandise with which the particular bottles under consideration are filled, the corks, capsules, labels, envelopes, packing cases, and all other dutiable items are incident to the contents rather than to the bottles, and their cost should not be included in the dutiable value of the latter, either entirely or by apportionment according to the value of the bottles and their contents.—Hayes *v.* United States (150 Fed. Rep., 63; T. D. 27806), in effect overruling Leggett *v.* United States (138 Fed. Rep., 970; T. D. 26270); Dickson *v.* United States (131 Fed. Rep., 573; T. D. 25339); West *v.* United States (199 Fed. Rep., 495); T. D. 24262, G. A. 5290, and T. D. 27317, G. A. 6353.

The act of 1883, paragraph 458, provided for manufactures of jet and for imitation of jet. There can hardly be a doubt that Congress used the word "jet" with the same meaning in the act of 1890 that it had in the act of 1883. Sustaining the Board of General Appraisers.—In re Goldberg (C. C.), (56 Fed. Rep., 818).

(*a*) Hat trimmings and ornaments comprised of black glass and wire (glass chief value) and made in imitation of jet are dutiable as manufactures of glass and not as manufactures of jet, though commercially known as jet trimmings and jet goods. 56 Fed. (*b*) Articles imported variously colored in imitation of "cat's eyes," "tiger eyes," and others colored in resemblance to the garnet, aquamarine, moonstone, and topaz, and certain articles in imitation of pearls, all strung. *Held*, that if the act of 1890 did not specifically provide for beads as prior acts glass beads as such were in the legislative mind and their various conditions contemplated. It was impossible to have in contemplation glass beads loose, unthreaded, and unstrung (paragraph 445, act of 1890) and not have the opposite in contemplation—beads not loose, beads threaded and strung—and made provision for them. What provision? Were they to be dutiable at the same or a higher rate than beads unthreaded and unstrung? If at the same rate—if all beads were to be dutiable at the same rate—why have qualified any of them? Were some to be dutiable at one rate and some at another rate? If made of plain glass, were they to be dutiable at 60 per cent (paragraph 108, act of 1890)? If trimmed or made of the color of some precious stone, were they to be dutiable at 10 per cent (paragraph 454, act of 1890)? No reason is assigned for such discrimination, and we are not disposed to infer it. It is a more reasonable inference that beads threaded of all kinds were intended to be dutiable at a higher rate than beads unthreaded, and if there can be no choice of provisions that intention must determine. Indeed, admitting that either provision (paragraph 108 or 454, act of 1890) equally applied, the statute (section 5, act of 1890) prescribed the rule to be that "if two or more rates of duty shall be applicable to any imported article, it shall pay duty at the highest of such rates. Sustaining G. A. decision, affirming the decision of the Circuit Court (77 Fed. Rep., 605), and reversing the Circuit Court of Appeals (55 U. S. (*j*) In making steel boiler plates the plates, after leaving the rolls, are subject to a process of shearing whereby the rough, ragged, and uneven edges are cut off, so as to leave the boiler plate true and commercially acceptable and practically serviceable. The pieces which fall off in this process are rough and irregular in size and shape and are known in the trade as scrap steel, and are only used for manufacture by remelting or heating and welding together

for making tacks and trunk iron. Such merchandise is dutiable at $4 per ton and not under paragraph 135 as steel in all forms and shapes.—T. D. 22673, G. A. 4825. See Schlesinger *v.* Beard 120 U. S., 264.

(*f*) Old steel rails which retain their identity as rails, although because of their pattern they are not likely to be used for railway purposes in this country, are dutiable as steel rails and not as scrap steel.—T. D. 28175, G. A. 6594.

These ferros, which, even to experts, look like ferromanganese, are held to be similar to the latter substance in quality and use, notwithstanding that they produce different results and are not applied at the same stage in the process of making steel, and therefore to be within the purview of the similitude clause in section 7, tariff act of 1897.—United States *v.* Roessler (137 Fed. (*a*) Ferrochrome, which is a product obtained by smelting chromic ore, is dutiable under this paragraph by reason of its similarity in use to ferromanganese and not as a nonenumerated article, both articles being used in the manufacture of steel to produce a tough, hard quality, the former when the iron ore contains an excess of phosphorous and the latter when it shows an excess of sulphur.—Dana *v.* United States (C. C.), (91 Fed. Rep., 522); United States *v.* Dana (C. C. A.), (99 Fed. Rep., 433; T. D. 22161, G. A. 4699.

DECISIONS UNDER PARAGRAPH 123, ACT OF 1897.

(*d*) There is no distinction in meaning between the bar iron provided for in this paragraph and the iron bars provided for in the second proviso to paragraph 124; hence, such merchandise, when made by the charcoal process, is dutiable under the said second proviso to paragraph 124 and not under paragraph 123.—Milne *v.* United States 115 Fed. (*b*) Small pieces of round iron, from 3 to 8 inches in length and about half an inch in diameter, entered as hardware and duty assessed under this paragraph at $37 a ton as rolled bar or bolt iron. The importer claimed that they were dutiable as manufactures of iron not otherwise specified under the act of May 22, 1824, section 1, clause 5, paragraph 1; or as scrap iron dutiable at 62½ cents per hundredweight. The jury found that the duty was properly assessed.—United States *v.* Sarchet (Gilp., 273; 27 Fed. Cas., 958).

124. Round iron, in coils or rods, less than seven-sixteenths of one inch in diameter, and bars or shapes of rolled or hammered iron, not specially provided for in this Act, eight-tenths of one cent per pound: *Provided*, That all iron in slabs, blooms, loops, or other forms less finished
1897 than iron in bars, and more advanced than pig iron, except castings, shall be subject to a duty of five-tenths of one cent per pound: *Provided further*, That all iron bars, blooms, billets, or sizes or shapes of any kind, in the manufacture of which charcoal is used as fuel, shall be subject to a duty of twelve dollars per ton.

111. Round iron, in coils or rods, less than seven-sixteenths of one inch in diameter, and bars or shapes of rolled iron, not specially provided for in this Act, eight-tenths of one cent per pound: *Provided*, That all iron in slabs, blooms, loops, or other forms less finished than iron in bars,
1894 and more advanced than pig iron, except castings, shall be subject to a duty of five-tenths of one cent per pound: *Provided further*, That all iron bars, blooms, billets, or sizes or shapes of any kind, in the manufacture of which charcoal is used as fuel, shall be subject to a duty of twelve dollars per ton.

136. Round iron, in coils or rods, less than seven-sixteenths of one inch in diameter, and bars or shapes of rolled iron, not specially provided for in this act, one and one-tenth cents per pound: *Provided*, That all iron in slabs, blooms, loops, or other forms less finished than iron in bars, and more advanced than pig-iron, except castings, shall be rated as
1890 iron in bars, and be subject to a duty of eight-tenths of one cent per pound; and none of the iron above enumerated in this paragraph shall pay a less rate of duty than thirty-five per centum ad valorem: *Provided further*, That all iron bars, blooms, billets, or sizes or shapes of any kind, in the manufacture of which charcoal is used as fuel, shall be subject to a duty of not less than twenty-two dollars per ton.

150. Round iron, in coils or rods, less than seven-sixteenths of one inch in diameter, and bars or shapes of rolled iron not specially enumerated or provided for in this act, one and two-tenths of one cent per pound.

148. * * * *Provided*, That all iron in slabs, blooms, loops, or other
1883 forms less finished than iron in bars, and more advanced than pig-iron, except castings, shall be rated as iron in bars, and pay a duty accordingly; and none of the above iron shall pay a less rate of duty than thirty-five per centum ad valorem: *Provided further*, That all iron bars, blooms, billets, or sizes or shapes of any kind, in the manufacture of which charcoal is used as fuel, shall be subject to a duty of twenty-two dollars per ton.

DECISIONS UNDER PARAGRAPH 124, ACT OF 1897.

(*c*) The proviso to this paragraph is limited in its operation to the paragraph itself, and does not extend beyond it. Only such classes of iron as those provided for by this paragraph, which may be manufactured by the use of

charcoal as a fuel, are covered thereby, and all classes of iron specially provided for in other paragraphs are not included.—T. D. 22708, G. A. 4834. Note T. D. 23833, G. A. 5166, *post.*

(*a*) There is no distinction in meaning between "bar iron" and "iron bars" as provided for in paragraphs 123 and 124, and such merchandise is not distinguished by any trade term or recognition; hence such merchandise, when made by the charcoal process, is dutiable at the rate of $12 per ton under the last proviso to paragraph 124. The rule laid down in T. D. 22708, G. A. 4834, that the second proviso in paragraph 124 affects only the class of articles enumerated in said paragraph, was not passed on by the court and was not affected by the decision In re Milne.—Milne *v.* United States (115 Fed. 1890 such plates lighter than sixty-three pounds per hundred square feet produced in the United States during either of the six years next preceding June thirtieth, eighteen hundred and ninety-seven, has equaled one-third the amount of such plates imported and entered for consumption during any fiscal year after the passage of this act, and prior to said October first, eighteen hundred and ninety-seven: *Provided*, That the amount of such plates manufactured into articles exported, and upon which a drawback shall be paid, shall not be included in ascertaining the amount of such importations: *And provided further*, That the amount or weight of sheet iron or sheet steel manufactured in the United States and applied or wrought in the manufacture of articles or wares tinned or terne-plated in the United States, with weight allowance as sold to manufacturers or others, shall be considered as tin and terne plates produced in the United States within the meaning of this act.

DECISIONS UNDER PARAGRAPH 135, ACT OF 1897.

(*a*) The provision for steel in forms and shapes not specially provided for includes steel in all forms and shapes in which simply the form and not the character of the metal is changed, unless more specially provided for elsewhere in this act. A form of steel in the shape of threads or shavings, which are produced by means of a toothed knife, by which the shavings are scraped off of steel-wire rods or steel bars, the finer grades known as "steel wool" or "steel fiber" and the coarser ones as "steel shavings," used for cleaning hard-wood floors and as a substitute for sandpaper, are dutiable as steel in forms, etc., and not as manufactures of metal.—T. D. 21837, G. A. 4612.

(*b*) Hollow steel billets are heavy pieces of steel which have been pierced through their entire length and are made for the purpose of drawing out into tubes of a required size. After the billets have been subjected to a process of drawing they are no longer billets, but tubes.—T. D. 22126, G. A. 4689.

(*c*) Tempered and polished steel rods not smaller than No. 6 wire gauge held to be dutiable as steel in forms and shapes, with an additional duty under paragraph 141 of one-fourth of 1 cent per pound.—T. D. 22468, G. A. 4758.

(*d*) Steel plates one-fourth of an inch thick having the shape of a trapezium, found to have been sheared to this form for a special purpose and held to be dutiable as sheared shapes of steel and not as boiler or other plate iron or steel sheared or unsheared.—United States *v.* Vandegrift (142 Fed. Rep., 448; T. D. 26924), affirming 139 id., 790; T. D. 26314.

(*e*) Boiler-plate shearings are dutiable as scrap steel under paragraph 122 and not as steel in forms.—United States *v.* Milne (117 Fed. Rep., 352), affirming T. D. 22673, G. A. 4825, followed; T. D. 23888, G. A. 5182.

(*f*) Pieces of flat steel 1 inch in thickness and of various widths and lengths held to be dutiable as sheared or stamped shapes and not as structural forms or shapes nor as boiler or other plate steel.—T. D. 24602, G. A. 5395.

(*g*) Steel castings which have been finished or machined after the casting process are dutiable as manufactures of steel. The provision for castings covers only such articles which are imported in the form and substantially in the condition as they come from the mold.—T. D. 24604, G. A. 5397.

(*h*) An engraved steel plate, mounted on a table top like a frame and used in the manufacture of plate glass, is dutiable under the provisions for plates and steel in all forms and shapes not specially provided for.—Morris *v.* United States (140 Fed. Rep., 774; T. D. 25183) followed; reversing an unpublished Board decision that followed T. D. 21975, G. A. 4650, followed; T. D. 24626, G. A. 5409.

(*a*) Stamped steel shapes, carefully coated with a preparation of flour and talc, one-sixtieth of an inch thick, so as to insulate the same and prevent contact in electrical machines, are not dutiable as "stamped shapes" under the provisions in this paragraph. By reason of the process of insulating the plates (although adding but 5 or 10 per cent to the cost of the articles), their character has been changed into completed parts of electrical machines, thus making them manufactures of metal, dutiable under paragraph 193.—Saltonstall *v.* Wiebusch (156 U. S., 601; 15 Sup. Ct. Rep., 476), followed; T. D. 24911, G. A. 5541.

(*b*) So-called ball mill plates and kominuter plates of steel with holes drilled through, countersunk and slotted, held to be dutiable as steel plates.—T. D. 25296, G. A. 5682.

(*c*) Steel floor plates made with one side checkered to prevent slipping are not dutiable under paragraph 126 nor under paragraph 125, but are dutiable under this paragraph.—T. D. 25915, G. A. 5886; affirmed in United States *v.* Wood (T. D. 28655).

(*d*) Steel stampings, soft steel in strips or individual pieces, stamped and pressed out of sheets of steel into an openwork raised pattern, and then sheared into the desired widths, used in the manufacture of so-called steel point ornaments for women's dresses and hats, are dutiable under this paragraph as pressed, sheared, or stamped shapes.—T. D. 27131, G. A. 6293.

(*e*) The provision in this paragraph for steel bars is without words of limitation, and such bars produced by the forging process are dutiable thereunder and not as forgings not specially provided for.—T. D. 27443, G. A. 6388.

(*f*) Steel wool is shown by ample testimony not to be known or recognized in trade and commerce as "steel," as that term is employed in this paragraph, but as a manufactured article of steel. Certain authorities which would justify such a ruling cited, but Buehne *v.* United States (140 Fed. Rep., 772; T. D. 26452), holding it dutiable under this paragraph, followed for the reason that it dealt with identical merchandise.—T. D. 27536, G. A. 6406.

(*g*) Steel horseshoe calks manufactured from steel bars, having been advanced from the condition of steel bars, forms, or shapes by a manufacturing process, and having acquired a distinctive name, character, and use that were not possessed by the material from which they were made, are dutiable as manufactured articles of steel under the provisions of paragraph 193.—T. D. 27542, G. A. 6412.

(*h*) Steel plates for engravers' use, with a polished surface and beveled edges, are dutiable as steel plates under this paragraph, with 1 cent per pound additional under paragraph 141.—T. D. 27684, G. A. 6472.

(*i*) Drawplates and wortles, implements used in the process of wiredrawing, found not to be steel plates as that term is used in paragraph 135 and held to be dutiable as manufactured articles of steel.—Newman *v.* United States (159 Fed. Rep., 123; T. D. 28600), affirming 152 id., 488; T. D. 27896, and reversing T. D. 26731, G. A. 6157.

(*j*) Steel wool, so-called, made from wire by cutting or slicing the same into slivers or shavings by means of toothed machine knives, held to be dutiable under the provisions of paragraph 137 according to the gauge and value of the wire from which it is made, notwithstanding the circumstances that the wire as wire is destroyed in the process of manufacture and its gauge can not be determined by inspection of the article as imported.—T. D. 21837, G. A. 4612; T. D. 26061, G. A. 5927; Buehne *v.* United States and United States *v.* Buehne (140 Fed. Rep., 772; T. D. 26452); United States *v.* Buehne (145 Fed.

Rep., 1021; T. D. 27230); T. D. 27536, G. A. 6406; and United States *v.* Buehne and Buehne *v.* United States (154 Fed. Rep., 93; T. D. 28006), modified; Buehne *v.* United States and United States *v.* Buehne (159 Fed. Rep., 107; T. D. 28599).

(*a*) Cold-rolled steel strips varying from half an inch to 6 inches in width and not over 0.025 of an inch in thickness, from 50 to 250 feet in length, and put up in the form of coils, held not to be dutiable as sheet steel in strips, but to fall within the general provisions of paragraph 135 for steel in all forms and shapes not specially provided for. The term sheet steel in strips restricted to strips that have been actually cut from sheet steel.—United States *v.* Boker (158 Fed. Rep., 396; T. D. 28548), affirming 154 id., 174; T. D. 28005, and reversing T. D. 26063, G. A. 5929.

(*b*) So-called iron sand consisting of chilled iron pellets, produced by a method similar to that used in making shot, is dutiable as articles composed of iron and not as steel in all forms and shapes.—Baldwin *v.* United States (139 Fed. Rep., 1005; T. D. 26453).

(*c*) New steel rails whose commercial value has been depreciated by reason of certain defects held not to have lost their identity as rails and to be dutiable as such and not as scrap iron or steel.—Illinois Central Railroad Company *v.* McCall (147 Fed. Rep., 925; T. D. 26639).

(*d*) Circular steel plates of the same size, shape, general finish, and design, the same characteristics and qualities as the plates used for circular saws, are dutiable as steel circular-saw plates, irrespective of the use to which they may be put after importation.—T. D. 28625, G. A. 6694.

(*g*) Hollow steel billets (similar to those described in T. D. 12857, G. A. 1453) held to be dutiable under this paragraph and not under paragraph 111 (1894) as iron billets nor under paragraph 130 as tubes.—T. D. 16840, G. A. 3359.

(*h*) Steel drill rods not smaller than No. 6 wire gauge are dutiable at $4\frac{7}{10}$ cents per pound as steel in all forms not specially provided for and not at 40 per cent under paragraph 124 (1894) as drill rods.—T. D. 16080, G. A. 3044.

(*i*) Sheet steel in strips over 100 feet in length, over $2\frac{1}{2}$ and under 5 inches wide, varying in thickness from 24 wire gauge to 30, valued at more than $2\frac{7}{10}$ cents per pound and not over 3 cents per pound, sometimes known as corset steel, held dutiable at nine-tenths of 1 cent per pound and not under paragraph 124 (1894) at 40 per cent as sheet steel in strips.—T. D. 17340, G. A. 3560.

D. 11372, G. A. 655.

(*h*) Steel billets for bicycle tubes dutiable as billets.—T. D. 12857, G. A. 1453.

(*i*) Wrought-iron propeller (steamer) shaft dutiable under the provision for steamer, crank, and other shafting, and not as wrought iron for ships.—T. D. 14629, G. A. 2387.

(*j*) Corrugated-steel sheets valued at over 3 cents per pound dutiable at 2 cents a pound and not under paragraph 142 (1890) at $1\frac{4}{10}$ cents.—T. D. 14723, G. A. 2445.

(*k*) Certain polished and cut steel rods held dutiable at 7 cents a pound under this paragraph and one-quarter of 1 cent a pound additional under paragraph 152 (1890) and not as a manufacture of steel.—T. D. 14845, G. A. 2528.

(*l*) Bicycle cranks of steel not nickel plated are dutiable at 7 cents a pound. Bicycle cranks nickel plated are not dutiable under this paragraph.—T. D. 15011, G. A. 2588.

(*m*) Steel billets similar to those described in T. D. 12857, G. A. 1453, found to be dutiable under this paragraph.—T. D. 16823, G. A. 3342.

(*n*) Steel in the form of strips, 3 to $3\frac{1}{2}$ inches wide, less than 0.025 of an inch thick, and more than 100 feet long, which were cold rolled to a surface finish, and not cut from wider pieces, is dutiable under this paragraph and not under paragraph 148, clause 2, as sheet steel in strips, for "sheet steel"

as commercially understood is always hot rolled. Such strips, however, are neither bars nor rods, and hence are not subject to the additional duty imposed by paragraph 152 (1890) on steel bars or rods of whatever shape or section which are cold rolled.—In re Wetherell (C. C.), (60 Fed. Rep., 267); reversed, 65 Fed. Rep., 987.

(*a*) Billets of metal produced from iron or its ores, containing 20 per cent of carbon and small percentages, ranging from 0.002 to 0.081, of silicon, manganese, phosphorus, and sulphur which is granular in structure, malleable, and which at any stage of the process of production has been cast by being run into molds, is within the definition of steel as given in paragraph 150 and is properly classified as such. In this case hollow steel billets were assessed at $1\frac{1}{16}$ cents per pound under this paragraph. The importer claimed that the merchandise was dutiable under section 4 at 10 per cent, and if not at 10 per cent at 20 per cent under the same section: (2) that if not dutiable under section 4 it comes under section 5 and claims (*a*) that it resembles unwrought metal mentioned in paragraph 202, and (*b*) that if it does not most resemble unwrought metal mentioned in paragraph 202 then it most resembles, in the respects named and referred to in section 5, the article referred to in the last clause of paragraph 136.—Gary *v.* Cockley (65 Fed. Rep., 497), affirming T. D. 16823, G. A. 3342.

DECISIONS UNDER THE ACT OF 1883.

(*b*) A metal imported from Sweden, being in the form of cakes or slabs from 24 to 30 inches in length by 12 to 14 inches in width, and from an inch to an inch and a half thick, with the upper surface nicked into rectangular or oblique angular caramels, about an inch and a quarter square, invoiced as "remelting steel in cakes," is dutiable under this paragraph as steel in slabs at 45 per cent and not as iron in pigs, nor as iron in slabs, nor as unwrought metal.—Farris *v.* Magone (C. C.), (46 Fed Rep., 845).

(*c*) Strips of steel from 6 to 12 millimeters wide, 0.12 to 0.20 of a millimeter long, cold rolled, tempered, polished, with edges slightly rounded, which are used for the manufacture of steel tape measures, are included in the ordinary meaning of steel strips or strip steel, and a jury having found on conflicting evidence that those terms have no commercial meaning different from the ordinary meaning, such steel is dutiable under this paragraph and not under paragraph 183 (1883) as "flat steel No. 39."—Magone *v.* Vom Cleff (C. C. A.), (70 Fed. Rep., 980).

136. Wire rods: Rivet, screw, fence, and other iron or steel wire rods, whether round, oval, flat, or square, or in any other shape, and nail rods, in coils or otherwise, valued at four cents or less per pound, four-tenths of one cent per pound; valued over four cents per pound, three-fourths
1897 of one cent per pound: *Provided*, That all round iron or steel rods smaller than number six wire gauge shall be classed and dutiable as wire: *Provided further*, That all iron or steel wire rods which have been tempered or treated in any manner or partly manufactured shall pay an additional duty of one-half of one cent per pound.

123. Wire rods: Rivet, screw, fence, and other iron or steel wire rods, whether round, oval, flat, or square, or in any other shape, and nail rods,

1883 and one-half cents or less per pound, six-tenths of one cent per pound. Iron or steel, flat, with longitudinal ribs, for the manufacture of fencing, six-tenths of a cent per pound.

DECISIONS UNDER PARAGRAPH 136, ACT OF 1897.

(*a*) Tempered and polished steel rods less than No. 6 wire gauge held dutiable at 40 per cent and three-fourths of a cent per pound under this and paragraphs 137 and 141 and not dutiable under paragraph 135 as steel in all forms and shapes.—T. D. 22468, G. A. 4758.

(*b*) Nail rods being specifically provided for under this paragraph are dutiable thereunder, notwithstanding that they are made of charcoal iron. Only the articles enumerated and provided for in paragraph 124 are covered by the proviso to that paragraph. The operation of a proviso is limited to the paragraph of which it forms a part unless it is expressly provided for otherwise.—T. D. 23889, G. A. 5183.

(*c*) Iron screw rods which have been hot rolled and then cold drawn in the process of manufacture are dutiable primarily under paragraph 136 and at one-fourth of 1 cent per pound additional under the opening clause of paragraph 141.—United States *v.* Nash (158 Fed. Rep., 401; T. D. 28547), reversing 152 id., 573; T. D. 27875, and affirming T. D. 27288, G. A. 6338, followed; T. D. 28623, G. A. 6692.

(*e*) Wire rods, coils of flat steel measuring from three-fourths of an inch in width by No. 14 wire gauge in thickness, valued at less than 3½ cents per pound, dutiable at six-tenths of 1 cent per pound.—T. D. 13371, G. A. 1751.

(*f*) Iron strips varying from one-sixteenth of an inch to one-fourth of an inch in width and from 25 to 27 wire gauge in thickness, cold rolled from drawn wire, held dutiable as wire and not as flat-rolled iron.—T. D. 10723, G. A. 276.

137. Round iron or steel wire, not smaller than number thirteen wire gauge, one and one-fourth cents per pound; smaller than number thirteen and not smaller than number sixteen wire gauge, one and one-half cents per pound; smaller than number sixteen wire gauge, two cents per pound: *Provided*, That all the foregoing valued at more than four cents per pound shall pay forty per centum ad valorem. Iron or steel or other wire not specially provided for in this Act, including such as is commonly known as hat wire, or bonnet wire, crinoline wire, corset wire, needle wire, piano wire, clock wire, and watch wire, whether flat or otherwise, and corset clasps, corset steels and dress steels, and sheet steel in strips, twenty-five one-thousandths of an inch thick or thinner,
1897 any of the foregoing, whether uncovered or covered with cotton, silk, metal, or other material, valued at more than four cents per pound, forty-five per centum ad valorem: *Provided*, That articles manufactured from iron, steel, brass, or copper wire, shall pay the rate of duty imposed upon the wire used in the manufacture of such articles, and in addition thereto one and one-fourth cents per pound, except that wire rope and wire strand shall pay the maximum rate of duty which would be imposed upon any wire used in the manufacture thereof, and in addition thereto one cent per pound; and on iron or steel wire coated with zinc, tin, or any other metal, two-tenths of one cent per pound in addition to the rate imposed on the wire from which it is made.

124. Wire: Round iron or steel wire, all sizes not smaller than thirteen wire gauge, one and one-fourth cents per pound; smaller than thirteen wire gauge, and not smaller than sixteen wire gauge, one and one-half cents per pound; smaller than sixteen wire gauge, two cents per pound; all other iron or steel wire and wire or strip steel, commonly known as crinoline wire, corset wire, drill rods, needle wire, piano wire, clock and watch wires, and all steel wires, whether polished or unpolished, in coils
1894 or straightened, and cut to lengths, drawn cold through dies, and hat wire, flat steel wire, or sheet steel in strips, uncovered or covered with cotton, silk, or other material, or metal, and all the foregoing manufactures of iron or steel, of whatever shape or form, valued above four cents per pound, shall pay a duty of forty per centum ad valorem: *Provided*, That articles manufactured from iron and steel wire shall pay the maximum rate of duty which would be imposed upon any wire used in the manufacture of such articles and in addition thereto one cent per pound.

148. Wire: Wire made of iron or steel, not smaller than number ten wire gauge, one and one-fourth cents per pound; smaller than number ten, and not smaller than number sixteen wire gauge, one and three-fourths cents per pound; smaller than number sixteen and not smaller than number twenty-six wire gauge, two and one-fourth cents per pound; smaller than number twenty-six wire gauge, three cents per pound: *Provided*, That iron or steel wire covered with cotton, silk, or other material, and wires or strip steel, commonly known as crinoline wire, corset-wire, and hat-wire, shall pay a duty of five cents per pound: *And provided further*, That flat steel wire, or sheet steel in strips, whether drawn through dies or rolls, untempered or tempered, of whatsoever width, twenty-five one-thousandths of an inch thick or thinner (ready for use or otherwise), shall pay a duty of fifty per centum ad valorem: *And provided further*, That no article made from iron or steel wire, or of which iron or steel wire is a component part of chief value, shall pay
1890 a less rate of duty than the iron or steel wire from which it is made either wholly or in part: *And provided further*, That iron or steel wire cloths, and iron or steel wire nettings made in meshes of any form, shall pay a duty equal in amount to that imposed on iron or steel wire used in the manufacture of iron or steel wire cloth, or iron or steel wire nettings, and two cents per pound in addition thereto.

There shall be paid on iron or steel wire coated with zinc or tin, or any other metal (except fence-wire and iron or steel, flat, with longitudinal ribs, for the manufacture of fencing), one-half of one cent per pound in addition to the rate imposed on the wire of which it is made; on iron wire rope and wire strand, one cent per pound in addition to the rate imposed on the wire of which it is made; on steel wire rope and wire strand, two cents per pound in addition to the rate imposed on the wire of which they or either of them are made: *Provided further*, That all iron or steel wire valued at more than four cents per pound shall pay a duty of not less than forty-five per centum ad valorem, except that card-wire for the manufacture of card clothing shall pay a duty of thirty-five per centum ad valorem.

182. Iron or steel wire, smaller than number five and not smaller than number ten wire gauge, one and one-half cents per pound; smaller than number ten and not smaller than number sixteen wire gauge, two cents per pound; smaller than number sixteen and not smaller than number twenty-six wire gauge, two and one-half cents per pound; smaller than number twenty-six wire gauge, three cents per pound: *Provided*, That iron or steel wire covered with cotton, silk, or other material, and wire commonly known as crinoline, corset, and hat-wire, shall pay four cents per pound in addition to the foregoing rates: *And provided further*, That no article made from iron or steel wire, or of which iron or steel
1883 wire is a component part of chief value, shall pay a less rate of duty than the iron or steel wire from which it is made, either wholly or in part: *And provided further*, That iron or steel wire-cloths, and iron or steel wire-nettings, made in meshes of any form, shall pay a duty equal in amount to that imposed on iron or steel wire of the same gauge, and two cents per pound in addition thereto. There shall be paid on galvanized iron or steel wire (except fence wire) one-half of one cent per pound in addition to the rate imposed on the wire of which it is made.

On iron wire-rope and wire-strand, one cent per pound in addition to the rates imposed on the wire of which it is made. On steel wire-rope and wire-strand, two cents per pound in addition to the rates imposed on the wire of which it is made.

DECISIONS UNDER PARAGRAPH 137, ACT OF 1897.

(*a*) The wire proviso of this paragraph imposes a fixed and not a minimum rate. Wire valued at 4 cents per pound is dutiable at 40 per cent. Rope containing wire smaller than 16 wire gauge, valued less than 4 cents, is dutiable at 2 cents per pound with an additional duty of 1 per cent.—T. D. 20171, G. A. 4289.

(*b*) Polished round wire valued at over 4 cents is dutiable at 40 per cent and not at 45 per cent as wire not specially provided for.—T. D. 21474, G. A. 4513.

(*c*) Round wire valued above 4 cents per pound known as "Federdraght" or spring wire, "Ahlendraght" or awl wire, are dutiable at 40 per cent and not at 45 per cent.—T. D. 21586, G. A. 4546.

(*d*) Round wire valued above 4 cents per pound known as "Wicknadeldraght" or needle wire, over 0.025 of an inch thick, is dutiable at 45 per cent and not at 40 per cent. The limitation of thickness held not to apply to round wire.—T. D. 21586, G. A. 4546.

(*e*) Metallic packing made of tin coated brass wire is dutiable as an article manufactured from brass wire and not as a manufacture of metal.—T. D. 21979, G. A. 4654.

(*f*) Wire rope, made of galvanized steel round wire with a hemp core, the wire valued at over 4 cents a pound, is dutiable (1) at 40 per cent for the wire, (2) at two-tenths of 1 cent per pound in addition to the rate imposed on wire not galvanized, and (3) upon the wire rope 1 cent per pound in addition for the weight of the core and the advanced condition of the completed article. The 40 per cent should be assessed upon the value of the galvanized wire and not upon the finished rope. The two-tenths should be upon the weight of the galvanized wire, and the 1 cent upon the weight of the whole rope.—T. D. 20518, G. A. 4329.

(*g*) Wire rope composed of round steel wire having a hemp core, valued at less than 4 cents per pound, held to be dutiable at the maximum rate of duty imposed upon the wire used in its manufacture.—T. D. 22471, G. A. 4761.

(*h*) Wire rope made of round steel wire valued at over 4 cents per pound, with a hemp core, held to be dutiable at 40 per cent upon the value of the completed rope, plus 1 cent per pound on the weight of the finished article, and two-tenths of a cent per pound for galvanizing.—T. D. 22471, G. A. 4761.

(*i*) Telephone-switchboard cables, composed of 64 copper wires, each tin-coated and covered with cotton, the whole grouped together and wrapped successively with paper, metal foil, paper, cotton threads, and water proof material, the wire being chief value, are dutiable as articles manufactured from copper wire, under the proviso to this paragraph, and not as covered wire.—T. D. 22380, G. A. 4733, and 127 Fed. Rep., 890 (T. D. 25044) affirmed; Salt *v.* U. S. (134 Fed. Rep., 1021; T. D. 25901).

(*j*) Wire rope is dutiable either by specific or ad valorem rate according to its value, and it is essential that that value be ascertained in order that the rate may be adjusted. Reappraisement is legal in such a case, and the penalty for undervaluation is properly imposed under section 7 of the administrative act.—T. D. 22504, G. A. 4770.

(*a*) Masks made from wire are dutiable under the proviso to this paragraph, this being a more specific provision for such articles than paragraph 193.—T. D. 24241, G. A. 5280.

(*b*) Flat wire heddles are dutiable at the rate of 45 per cent ad valorem plus 1¼ cents per pound under this paragraph. Heddles made of flat wire are dutiable at the rate provided for articles made from flat wire and not at the rate for articles made from round wire, though the flat wire may have been made from round wire.—T. D. 26179, G. A. 5970.

(*c*) Steel points or pins for gramophones or talking machines are not needles in the tariff sense and are dutiable as articles made from wire.—T. D. 26872, G. A. 6215.

(*d*) Wire made of nickel and iron, produced by forcing an iron or steel wire core into a nickel tube and then drawing the article down to the required size, is dutiable as a wire not specially provided for at the rate of 45 per cent under this paragraph. Wire thus produced is not a coated wire.—T. D. 25892, G. A. 5879, followed; T. D. 27544, G. A. 6414.

(*e*) Iron or steel shafts intended for use in the manufacture of hat or bonnet pins are dutiable under this paragraph.—T. D. 27703, G. A. 6475.

(*f*) Wire rat traps are entireties and must be classified as such for dutiable purposes. If different gauges of wire enter into their composition, they are dutiable at the rate at which the kind of wire that forms the principal and substantial portion of the traps is made dutiable by this paragraph and 1¼ cents per pound in addition, under the second proviso to said paragraph. The claim that different rates of duty should be assessed on the different parts of the article held wholly inadmissible and overruled.—T. D. 27489, G. A. 6399.

(*g*) The correctness of a ruling that rat traps made of round steel wire coated with copper are dutiable under the provisions of this paragraph as articles manufactured from wire, at a rate made up by adding 1¼ cents per pound to the rate prescribed for the coated wire of which the traps are made, conceded, but the direction of the Treasury Department to the collector of customs at Providence under date of September 7, 1900 (T. D. 22474), to apply the additional duty of two-tenths of 1 cent per pound, provided for in the last clause of this paragraph on iron or steel wire coated with metal, only to such wire when imported in the form of wire, and not to articles manufactured from such wire, which direction is said to have been followed up to the date of the importations in question, which is less than five years, held to have effected a repeal of this statutory provision so far as it applies to articles made from coated wire. Authorities on settled practice reviewed.—Burditt *v.* United States (153 Fed Rep., 67; T. D. 28109), reversing 147 id., 892 (T. D. 27639) and G. A. 6357 (T. D. 27325).

(*h*) Spear-point fishhooks made from round steel or iron wire smaller than number 18 Birmingham wire gauge are dutiable at 1½ cents per pound plus 40 per cent ad valorem, under the provisions of this paragraph, as articles made from wire valued at more than 4 cents per pound. Similar hooks made from wire not smaller than number 18 Birmingham gauge held to be dutiable at 1¼ cents per pound plus the specific rate provided in the opening clause of the same paragraph according to the actual gauge of the wire.—Abstract 6908 (T. D. 26449) superseded; T. D. 27764, G. A. 6494.

(*i*) Cold-rolled steel strips varying from half an inch to 6 inches in width and not over 0.025 of an inch in thickness, from 50 to 250 feet in length and put up in the form of coils, held not to be dutiable as sheet steel in strips but

to fall within the general provisions of paragraph 135 for steel in all forms and shapes not specially provided for. The term sheet steel in strips restricted to strips that have been actually cut from sheet steel.—United States *v.* Boker (158 Fed. Rep., 396; T. D. 28548), affirming 154 id., 174 (T. D. 28005), and reversing T. D. 26063, G. A. 5929.

(*a*) Steel wool, so-called, made from wire by cutting or slicing the same into slivers or shavings by means of toothed machine knives, held to be dutiable under the provisions of paragraph 137 according to the gauge and value of the wire from which it is made, notwithstanding the circumstances that the wire as wire is destroyed in the process of manufacture and its gauge can not be determined by inspection of the article as imported.—T. D. 21837, G. A. 4612; T. D. 26061, G. A. 5927; Buehne *v.* United States and United States *v.* Buehne (140 Fed. Rep., 772; T. D. 26452); United States *v.* Buehne (145 Fed. Rep., 1021; T. D. 27230); T. D. 27536, G. A. 6406; and United States *v.* Buehne and Buehne *v.* United States (154 Fed. Rep., 93; T. D. 28006) modified; Buehne *v.* United States and United States *v.* Buehne (159 Fed. Rep., 107), T. D. 28599.

(*b*) Where the rate of duty depends upon conditions not within the cognizance of the customs officers, the collector is justified in assessing the highest of the rates that may be applicable, leaving it to the importer to secure the imposition of the proper rate by presenting satisfactory evidence of the essential facts.—Buehne *v.* United States and United States *v.* Buehne (T. D. 28599).

DECISIONS UNDER THE ACT OF 1894.

(*c*) Round iron wire under No. 16 wire gauge, valued above 4 cents a pound, is dutiable at 40 per cent and not at 2 cents a pound.—T. D. 15693, G. A. 2874.

(*e*) Certain cold-rolled cast steel held dutiable as flat steel wire or sheet steel in strips, and not under paragraph 122, 1894, at 1.9 or 1.3 cents per pound.—T. D. 15986, G. A. 3010.

(*f*) Wire rope composed of steel wire smaller than No. 11 wire gauge, valued at less than 4 cents a pound, with a tarred hemp core held dutiable at 1¼ cents a pound and 1 cent a pound additional upon the total weight of the rope, and not at 1¼ cents a ponnd for the wire in its composition and 1 cent a pound additional on the gross weight.—T. D. 16812, G. A. 3331.

(*g*) Sans Cene and Carmen skirt wire, valued above 4 cents a pound, is dutiable at 40 per cent and not as manufactures of cotton.—T. D. 18150, G. A. 3907.

(*h*) Sheet steel in strips, cold-rolled, a portion tempered and polished and part not tempered nor polished, valued at above 4 cents per pound, invoiced as band saw steel in coils, not tempered nor polished; band saw steel in coils tempered and polished, blued and repolished white; band saw steel in coils, tempered for shutter springs; cold-rolled and bright annealed band steel in coils for dynamo inductor bands, held dutiable as sheet steel in strips, and not as hoop, band, or scroll iron or steel, nor as saw plates.—T. D. 17349, G. A. 3569. See 91 Fed. Rep., 975.

(*i*) Steel wire cloth, mesh 28 by 28, size of wire No. 28 gauge, wire valued at over 4 cents per pound, is dutiable at 40 per cent and 1 cent per pound, and not at 40 per cent on the value of the wire only and in addition thereto 1 cent per pound upon the cloth.—T. D. 17737, G. A. 3723.

(*a*) Wire mattresses made of No. 13 gauge round wire, valued at more than 4 cents per pound, is dutiable at 40 per cent and 1 cent per pound additional, and not at 1¼ cents a pound and 1 cent additional.—T. D. 18540, G. A. 3996.

(*b*) Cold-rolled, untempered steel, from 1¼ to 4½ inches wide, and from 500 to 1,500 feet long, which is largely used for making band saws, but not shown to be unfitted in its composition for other uses, is dutiable as sheet steel in strips, and not under paragraph 116, 1894, as band steel not otherwise provided for, or under paragraph 122 as saw plates. Sustaining in part T. D. 17349, G. A. 3569.—Belcher *v.* United States (C. C.), (91 Fed. Rep., 975).

(*c*) Polished steel rods made by Stubbs, in England, commonly and commercially known as drill rods, or Stubbs steel, which are in fact used for making drill rods, being the standard for making the best drills, are dutiable as drill rods, and not under paragraph 122 (1894), covering steel in all forms and shapes not specially provided for.—United States *v.* Frasse (C. C.), (94 Fed. Rep., 483).

DECISIONS UNDER THE ACT OF 1890.

(*f*) Wire cloth for milling purposes, the wire smaller than No. 26 wire gauge and costing 6 cents per pound, is dutiable at 5 cents per pound and 2 cents per pound additional and not as a manufacture of metal.—T. D. 14400, G. A. 2284.

(*g*) Wire netting for milling purposes, the wire smaller than No. 16 and not smaller than No. 26 wire gauge and costing 3 cents per pound, is dutiable at 4½ cents per pound, and in addition thereto 2 cents per pound, and not as a manufacture of metal.—T. D. 14400, G. A. 2284.

(*h*) A web or band of cotton three-eighths of an inch wide, into which three round cotton-covered metal wires, one in each edge and the other in the middle, are woven or wrought is not hat wire.—T. D. 12944, G. A. 1495; reversed, T. D. 15014, G. A. 2591.

(*i*) Ribbon wire is dutiable as hat wire at 5 cents per pound and not as a manufacture of metal.—T. D. 15014, G. A. 2591; reverses T. D. 12944, G. A. 1495.

(*j*) Pendulum wire, straw-colored steel in strips, one-fourth of one inch wide, thirty-five ten thousandths of an inch thick, and from 2 to 500 feet in length, valued above 16 cents per pound, produced by the process of cold drawing through dies or rolls, into sheets or strips 3 inches wide or more, etc., held dutiable at 50 per cent.—T. Steel, not specially enumerated or provided for in this act, forty-five per centum ad valorem: *Provided*, That all metal produced from iron or its ores, which is cast and malleable, of whatever description or form, without regard to the percentage of carbon contained therein, whether produced by cementation, or converted, cast, or made from iron
1883 or its ores, by the crucible, Bessemer, pneumatic, Thomas-Gilchrist, basic, Siemens-Martin, or open-hearth process, or by the equivalent of either, or by the combination of two or more of the processes, or their equivalents, or by any fusion or other process which produces from iron or its ores a metal either granular or fibrous in structure, which is cast and malleable, excepting what is known as malleable iron castings, shall be classed and denominated as steel.

DECISIONS UNDER THE ACT OF 1883.

(*a*) The crop ends of Bessemer steel rails are dutiable as steel and not as metal unwrought.—Robertson *v.* Perkins (129 U. S., 233).

140. No article not specially provided for in this Act, which is wholly or partly manufactured from tin plate, terne plate, or the sheet, plate, hoop, band, or scroll iron or steel herein provided for, or of which such tin plate, terne plate, sheet, plate, hoop, band, or scroll iron or steel shall
1897 be the material of chief value, shall pay a lower rate of duty than that imposed on the tin plate, terne plate, or sheet, plate, hoop, band, or scroll iron or steel from which it is made, or of which it shall be the component thereof of chief value.

121. * * * No article not specially provided for in this Act, wholly or partly manufactured from tin plate, terne plate, or the sheet, or plate iron or steel herein provided for, or of which such tin plate, terne plate,
1894 sheet, or plate iron or steel shall be the material of chief value, shall pay a lower rate of duty than that imposed on the tin plate, terne plate, or sheet, or plate iron or steel from which it is made, or of which it shall be the component thereof of chief value.

141. On all iron or steel bars or rods of whatever shape or section which are cold rolled, cold drawn, cold hammered, or polished in any way in addition to the ordinary process of hot rolling or hammering, there shall be paid one-fourth of one cent per pound in addition to the rates provided in this Act on bars or rods of whatever section or shape which are hot-rolled; and on all strips, plates, or sheets of iron or steel of whatever shape, other than the polished, planished, or glanced sheet-
1897 iron or sheet-steel hereinbefore provided for, which are cold rolled, cold hammered, blued, brightened, tempered, or polished by any process to such perfected surface finish or polish better than the grade of cold rolled, smoothed only, hereinbefore provided for, there shall be paid one cent per pound in addition to the rates provided in this Act upon plates, strips, or sheets of iron or steel of common or black finish; and on steel circular saw plates there shall be paid one-half of one cent per pound in addition to the rate provided in this Act for steel saw plates.

1890 steel hereinbefore provided for, which are cold rolled, cold hammered, blued, brightened, tempered, or polished by any process to such perfected surface finish, or polish better than the grade of cold rolled, smooth only, hereinbefore provided for, there shall be paid one and one-fourth cents per pound in addition to the rates provided in this act upon plates, strips, or sheets of iron or steel of common or black finish; and on steel circular saw plates there shall be paid one cent per pound in addition to the rate provided in this act for steel saw plates.

177. * * * *Provided*, That on all iron or steel bars, rods, strips, or steel sheets, of whatever shape, and on all iron or steel bars of irregular shape or section, cold-rolled, cold-hammered, or polished in any way in
1883 addition to the ordinary process of hot-rolling or hammering, there shall be paid one-fourth cent per pound, in addition to the rates provided in this act; and on steel circular saw plates there shall be paid one cent per pound, in addition to the rate provided in this act.

DECISIONS UNDER PARAGRAPH 141, ACT OF 1897.

(*a*) The provision herein assessing an additional duty of 1 cent per pound on strips, sheets, or plates that have been brightened, etc., is to be taken distributively, and said duty is to be added to the regular duty assessable according to gauge, value, size, etc., of the particular strips, plates, or sheets.—T. D. 24460, G. A. 5347.

(*b*) Iron screw rods which have been hot-rolled and then cold-drawn in the process of manufacture are dutiable primarily under paragraph 136, and at one-fourth of 1 cent per pound additional under the opening clause of paragraph 141.—United States *v.* Nash (158 Fed. Rep., 401; T. D. 28547), reversing 152 id., 573 (T. D. 27875), and affirming T. D. 27288, G. A. 6338, followed; T. D. 28623, G. A. 6692.

(*c*) Cold-rolled steel strips, the only polish or brightening on the surface of which is that incidentally acquired in the process of cold-rolling, are not subject to the additional duty of 1 cent per ponud provided in this paragraph for such strips when "cold-rolled * * * brightened * * * or polished by any process to such perfected surface finish or polish better than the grade of cold-rolled, smoothed only." The term "cold-rolled, smoothed only" not shown to have any general well-recognized trade meaning.—United States *v.* Crucible Steel Company (154 Fed. Rep., 1005; T. D. 28106), affirming 147 Fed. Rep., 537; T. D. 27446, and T. D. 26870, G. A. 6213), and United States

v. Crucible Steel Company (137 Fed. Rep., 384; T. D. 26157), affirming 132 Fed. Rep., 269; T. D. 25367, which had reversed an unpublished decision based on T. D. 24579, G. A. 5384), followed; T. D. 28232, G. A. 6615.

(*a*) The provision herein imposing an additional duty of one-fourth of 1 cent per pound upon all iron or steel rods of whatever shape or section which are cold drawn, etc., applies to all such rods whether they are specifically enumerated in the metal schedule or fall within any of its general provisions.—United States *v.* Nash (158 Fed. Rep., 401; T. D. 28547), reversing 152 id., 573 (T. D. 27875), and affirming T. D. 27288, G. A. 6338.

(*b*) Circular steel plates of the same size, shape, general finish and design, the same characteristics and qualities as the plates used for circular saws, are dutiable as steel saw plates irrespective of the use to which they may be put after importation.—T. D. 28625, G. A. 6694.

(*c*) It is fair to assume that Congress, in imposing the additional duty of 1 cent per pound provided for in this paragraph, fully understood what dividing grade had been adopted by the customs authorities under the earlier acts, and by the use of the same language intended to provide that the same grade should be the criterion for determining in which group future importations should be classified for duty purposes.—United States *v.* Crucible Steel Company (137 Fed. Rep., 384; T. D. 26157).

DECISIONS UNDER THE ACT OF 1890.

(*d*) The collector classified certain shank steel, used in the manufacture of boots and shoes, under paragraph 146, 1890, and also imposed an additional duty of one-quarter of a cent per pound on the goods, as cold-rolled steel, under this paragraph. The importer protested against the additional duty, and on appeal the Board of Appraisers held that the original classification was wrong, and that the goods should have been entered under paragraph 140 as other steel. etc. They also found that the goods were not subject to the additional duty, but that the protest was insufficient because it failed to point out the proper classification. *Held* that, as the objection was made only to the additional duty, and not to the original classification, the importer was not bound to point out the error in the latter, and the protest was sufficient.—In re Houdlette (C. C.), (48 Fed. Rep., 545).

127. Axles, or parts thereof, axle bars, axle blanks, or forgings for axles, whether of iron or steel, without reference to the stage or state of
1894 manufacture, one and one-half cents per pound: *Provided*, That when iron or steel axles are imported fitted in wheels, or parts of wheels, of iron or steel, they shall be dutiable at the same rate as the wheels in which they are fitted.

154. Axles, or parts thereof, axle-bars, axle-blanks, or forgings for axles, whether of iron or steel, without reference to the stage or state

(*a*) Bicycle axles of steel are dutiable as axles and not as manufactures of metal.—T. D. 14291, G. A. 2220.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*b*) Whether certain pieces of iron formed in a shape and size to be used as car axles in the manufacture of railroad cars were properly classed as axles, instead of hammered iron, is a question of fact to be tried by jury, and if the jury have any doubts as to whether such iron was properly classified and charged for as axles they should give the importer the benefit of the doubt.—Ross *v.* Fuller (17 Fed. Rep., 224).

(*c*) In such a case, as in all other civil cases, the case is to be decided by a preponderance of proof. The burden of proof to show that the articles were dutiable is on the Government; and the Government, by a fair preponderance of proof, must establish what they claim in that regard.—Id.

(*d*) If the articles were in fact axles such as named in the statute, less proof would be required to show that they were understood to be so in commercial transactions; but if they were not in fact axles greater evidence would be required to show that they were understood to be axles in the commerce and trade of the country and so recognized.—Id.

(*e*) The names given to the different articles in the tariff laws are to be understood and construed to mean what they were understood to mean in the commerce and trade of the country, and among those engaged in trade and commerce at the time of the passage of the acts, and as recognized by the customs department at the same time, and not at periods since the passage of the law.—Id.

(*f*) The commercial character of the importation does not depend upon the mere fact that they were or were not finished axles, but whether they were understood and recognized in commerce and trade as axles by those engaged in that trade at the time of the passage of the law.—Id.

1897 **144.** Blacksmiths' hammers and sledges, track tools, wedges, and crowbars, whether of iron or steel, one and one-half cents per pound.

(*f*) A carding machine with the necessary card clothing therefor constitutes an entirety and should be treated as such in the assessment of duty. The complement of card clothing accompanying each machine is a part thereof and is not separately dutiable. The rule that a specific designation shall prevail over the general designation in the classification of goods for duty has no application when the specifically named article has been merged into and forms a part of another article having a different name and use.—T. D. 27760, G. A. 6490.

(*b*) The language of this paragraph does not limit its operation to importations including both hooks and eyes, but includes either if separately imported. The provision must be taken distributively so as to cover all articles within the description. Hooks imported without eyes are dutiable thereunder.—Marvel *v.* Merritt (116 U. S., 11) followed; T. D. 23517, G. A. 5075.

1897 **181.** Lead-bearing ore of all kinds, one and one-half cents per pound on the lead contained therein: *Provided*, That on all importations of lead-bearing ores the duties shall be estimated at the port of entry, and a bond given in double the amount of such estimated duties for the transportation of the ores by common carriers bonded for the transportation of appraised or unappraised merchandise to properly equipped sampling or smelting establishments, whether designated as bonded warehouses or otherwise. On the arrival of the ores at such establishments they shall be sampled according to commercial methods under the supervision of Government officers, who shall be stationed at such establishments, and who shall submit the samples thus obtained to a Government assayer, designated by the Secretary of the Treasury, who shall make a proper assay of the sample, and report the result to the proper customs officers, and the import entries shall be liquidation thereon, except in case of ores that shall be removed to a bonded warehouse to be refined for exportation as provided by law. And the Secretary of the Treasury is authorized to make all necessary regulations to enforce the provisions of this paragraph.

1894 165. Lead ore * * * three-fourths of one cent per pound: *Provided*, That silver ore and all other ores containing lead shall pay a duty of three-fourths of one cent per pound on the lead contained therein, according to sample and assay at the port of entry. The method of sampling and assaying to be that usually adopted for commercial purposes by public sampling works in the United States.

1890 199. Lead ore * * * one and one-half cents per pound: *Provided*, That silver ore and all other ores containing lead shall pay a duty of one and one-half cents per pound on the lead contained therein, according to sample and assay at the port of entry.

1883 188. Lead ore * * * one and one-half cents per pound.

DECISIONS UNDER PARAGRAPH 181, ACT OF 1897.

(*c*) The process of assaying lead-bearing ores should be by what is known as the commercial method, or fire process, and not by the wet process. Reversing T. D. 15333, G. A. 2767; T. D. 21653, G. A. 4570.

(*d*) Lead-bearing ores imported and entered for warehousing at a bonded smelter prior to the passage of this act, but remaining within the custody of

the Government officers at said smelter at the time this act took effect, are dutiable under this act and not under the act of 1894. For goods to be dutiable under the act of 1894 they must have been either imported and entered for cousumption or withdrawn for cousumption and removed from Government custody while said act was in effect.—T. D. 20801, G. A. 4373.

(*a*) Under this paragraph duty can be collected only upon the exact amount of lead contained in ore imported iuto the United States. In determiuing the amount of lead in ore, which contains a large amount of moisture, it is not correct to apply to it the percentage found to be contained in a sample of that ore that was artificially dried, but it is necessary to adopt some process which takes account of the moisture iu the ore.—T. D. 27326, G. A. 6358.

DECISIONS UNDER THE ACT OF 1894.

(*b*) Ore, silver $13.99 and lead $15.87, is dutiable as lead ore at three-fourths of 1 cent per pound.—T. D. 18076, G. A. 3878.

DECISIONS UNDER THE ACT OF 1890.

(*d*) The grab sample method of determining classification held to be a violation of the regulations of the Secretary (T. D. 9492) and an iujustice to importers.—T. D. 11041, G. A. 485.

(*e*) The value of the silver and lead in ores imported at El Paso is determined by deducting 5 per cent from the value of silver at New York on the date of entry and 1 cent a pound from the value of the lead in the same market. *Held*, that the question of whether the ore is a silver or a lead ore is not a matter of foreign market value, but is a fact to be determined, if possible, at the time and place of importation, and that an injustice has been done to importers at El Paso in assuming that the value of the lead in the ore at that point is only 1 cent a pound less than at New York.—T. D. 11042, G. A. 485.

(*f*) Silver lead ore was seized by the collector on the ground that the importer was attempting to defraud the revenues by bringing in ores from several mines so mixed as to give the ore a high content of silver, and a libel of forfeiture was filed. The ore was released on bond being given and duties paid. The collector claimed that the Board had no jurisdiction. *Held*, that the Board had jurisdiction and that there is nothiug in the tariff act to warrant a discrimination against bringing in mixed ores.—T. D. 11049, G. A. 492.

(*g*) The value of lead in certain ore being proved to be 42 cents per unit of 20 pounds, held that the ore is a silver ore containing lead and dutiable at 1½ cents per pound for the lead contained therein.—T. D. 13174, G. A. 1595.

(*h*) The provision in the act of March 2, 1895 (28 Stat., 910, 933), that the Secretary of the Treasury shall prescribe regulations for the sampling and assaying of lead ores imported into the United States, and such regulations shall provide that the method of sampling and assaying such ores shall be the same as that usually adopted for commercial purposes by public sampling works in the United States, was not repealed by implication by this paragraph.—In re Puget Sound Reduction Co. (C. C.) (96 Fed. Rep., 90).

(*a*) The Secretary has no power to adopt any other than the commercial method either of sampling or assaying, and what constitutes the commercial method is a question of fact.—Ibid.

(*b*) What is known as the fire process, which gives the quantity of lead in an ore which can be assayed by smelting, being shown to be exclusively used in making assays for commercial purposes and to be known as the commercial method, instructions issued by the Secretary adopting for customs purposes what is known as the wet process of assaying, which shows the actual quantity of lead in an ore, making no allowance for loss in smelting, requires the payment of a higher duty than is contemplated by this paragraph and is in contravention of the positive requirements of the act of 1895.—Ibid.

182. Lead dross, lead bullion or base bullion, lead in pigs and bars, lead in any form not specially provided for in this Act, old refuse lead
1897 run into blocks and bars, and old scrap lead fit only to be remanufactured; all the foregoing, two and one-eighth cents per pound; lead in sheets, pipe, shot, glaziers' lead and lead wire, two and one-half cents per pound.

165. * * * lead dross, three-fourths of one cent per pound.
166. Lead in pigs and bars, molten and old refuse lead run into blocks and bars, and old scrap lead fit only to be remanufactured, one cent per pound: *Provided*, That in case any foreign country shall impose an export duty upon lead ore or lead dross or silver ores containing lead, exported to the United States from such country, then the duty
1894 upon such ores and lead in pigs and bars, molten and old refuse lead run into blocks and bars, and old scrap lead fit only to be remanufactured, herein provided for, when imported from such country, shall remain the same as fixed by the law in force prior to the passage of this Act.
167. Lead in sheets, pipes, shot, glaziers' lead, and lead wire, one and one-quarter cents per pound.

199. * * * lead dross, one and one-half cents per pound: * * *
200. Lead in pigs and bars, molten and old refuse lead run into blocks
1890 and bars, and old scrap lead fit only to be remanufactured, two cents per pound.
201. Lead in sheets, pipes, shot, glaziers' lead, and lead wire, two and one half cents per pound.

188. * * * lead dross, one and one-half cents per pound.
189. Lead, in pigs and bars, molten and old refuse lead run into blocks
1883 and bars, and old scrap lead, fit only to be remanufactured, two cents per pound.
190. Lead, in sheets, pipes, or shot, three cents per pound.

DECISIONS UNDER PARAGRAPH 182, ACT OF 1897.

(*e*) Base bullion in bars, containing gold, silver, lead, and bismuth, is dutiable under the specific provision herein for lead or base bullion on the basis of the actual weight of the bars and not on the weight of the lead contained therein.—T. D. 28202, G. A. 6604.

DECISIONS UNDER THE ACT OF 1894.

(*f*) Base bullion or lead bullion in pigs or bars, containing 97 per cent of lead and 3 per cent of gold, silver, and copper, the value of pure lead being $2\frac{3}{10}$ cents a pound in bond and the value of the bullion in question 10 cents

a pound, should be assessed for duty upon the weight of the lead produced in pigs and withdrawn for consumption and not upon the gross weight of the bullion.—T. D. 16566, G. A. 3262.

(*a*) Pig and bar lead is dutiable at 1 cent a pound upon the gross weight of the metal imported and not merely upon the net amount of pure lead contained therein as shown by assay.—Collector of Customs *v.* Balbach Smelting and Refining Co. (81 Fed. Rep., 950).

DECISIONS UNDER THE ACT OF 1890.

(*b*) Pig lead is dutiable at 2 cents a pound on the gross weight.—T. D. 13808, G. A. 2002; reversed (81 Fed. Rep., 950).

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*c*) It seems that busts made of lead are free under the act of July 14, 1832 (4 Stat., 583), section 3, exemptiug "all busts of marble, metal or plaster," although they in fact were imported for use as lead and were put up in that form to avoid the duty of 3 cents a pound on "lead in pigs, bars and sheets" under the act of May 19, 1828, section 1, paragraph 8 (4 Stat., 270).—United States *v.* Levitt (1 N. Y. Leg. Obs. 92; 26 Fed. Cas., 919).

183. Metallic mineral substances in a crude state, and metals un-
1897 wrought, not specially provided for in this act, twenty per centum ad valorem; monazite sand and thorite, six cents per pound.

1894 [No corresponding provision.]

202. Metallic mineral substances in a crude state and metals un-
1890 wrought, not specially provided for in this act, twenty per centum ad valorem; * * * .

95. All non-dutiable crude minerals, but which have been advanced in value or condition by refining or grinding, or by other process of manufacture, not specially enumerated or provided for in this act, ten per
1883 centum ad valorem.

215. Mineral substances in a crude state and metals unwrought, not specially enumerated or provided for in this act, twenty per centum ad valorem.

DECISIONS UNDER PARAGRAPH 183, ACT OF 1897.

(*d*) Ferrochrome is dutiable as a metal unwrought and not under section 6 as a nonenumerated manufactured article, nor under paragraph 122 and section 7 (by similitude) at $4 per ton; nor is it free under paragraph 520 as chromate of iron.—T. D. 20885, G. A. 4389; overruled in effect by T. D. 26788, G. A. 6173.

(*i*) The ores of zinc known as carbonate of zinc and silicate of zinc are free of duty as calamine.—T. D. 26355, G. A. 6036.

(*j*) The term "unwrought metal" implies a metal which is capable of being wrought and not a substance which is fit only to be thrown into the crucible to be melted up with other ingredients to produce an entirely different and dis-

tinct product. By an "unwrought" material is meant one which has not been worked into shape.—United States *v.* Roessler (137 Fed. Rep., 770; T. D. 26127).

(*a*) Ferrochrome, ferrotungsten, ferromolybdenum, and ferrovanadium are dutiable by similitude to ferromanganese and not as unwrought metals under this paragraph. These ferros, which, even to experts, look like ferromanganese, are held to be similar to the latter substance in quality and use, notwithstanding that they produce different results and are not applied at the same stage in the process of making steel, and therefore to be within the purview of the similitude clause in section 7, tariff act of 1897.—United States *v.* Roessler (137 Fed. Rep., 770; T. D. 26127), affirming 131 Fed. Rep., 576; T. D. 25392, and an unpublished G. A. decision following T. D. 23909, G. A. 5188, and in effect overruling T. D. 23617, G. A. 5104, followed; T. A duty of 45 per cent ad valorem was assessed, under paragraph 135, as "articles of glass, cut." The importer claimed that they were dutiable at 25 per cent ad valorem, under paragraph 494, as "parts of watches," or at 30 per cent under paragraph 414 as parts of clocks. On suit to recover the court instructed the jury that the burden was on the plaintiff to establish that the articles were parts of clocks; that in determining that question it would not be necessary for the jury to say that they were exclusively used for that purpose; that the fact that an article chiefly used for one purpose had been used by some for a purpose for which it was not originally intended would not change its tariff nomenclature; that if the jury should find that the articles were chiefly used as parts of clocks, that that would determine their tariff classification, but on the other hand they must be chiefly and principally used for that purpose; that if they are articles with no distinguishing characteristic, just as applicable for use in fancy boxes or in coach lamps as they are for clocks, then it would be entirely proper to say that they had no distinguishing characteristics as parts of clocks; that they might be used for one purpose just as well as another; and if the jury should find as to those articles, or any of them, that they have several uses to which they are perfectly applicable, then as to those articles the verdict should be for the defendant. *Held*, That the instructions were manifestly correct, and that in giving the rule of chief use, the principles by which it was to be ascertained were exactly in accordance with the law announced in Magone *v.* Heller (150 U. S., 70). Judgment for the importer that the articles were parts of clocks.—Magone *v.* Wiederer (159 U. S., 555).

(*a*) Shooks were classed with casks, barrels, and packing boxes. Such a classification indicates that shooks were regarded as a finished or manufactured material.—Tidewater Oil Co. *v.* United States (31 C. Cls. R., 90).

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*b*) Staves for pipes, hogsheads, and other casks the growth and produce of Canada imported in November, 1863, were not free under the reciprocity treaty of 1854 between the United States and Great Britain by which "timber and lumber of all kinds, round, hewed, and sawed, manufactured in whole or in part," were to be admitted free. They were dutiable at 10 per cent.—United States *v.* Hathaway (4 Wallace, 404.)

216. * * * ; and in addition thereto a duty of thirty per centum ad valorem upon the boxes or barrels containing such oranges, lemons, or limes: *Provided*, That the thin wood, so called, comprising the sides,
1894 tops and bottoms of orange and lemon boxes of the growth and manufacture of the United States, exported as orange and lemon box shooks, may be reimported in completed form, filled with oranges and lemons, by the payment of duty at one-half the rate imposed on similar boxes of entirely foreign growth and manufacture.

301. * * * and in addition thereto a duty of thirty per centum
1890 ad valorem upon the boxes or barrels containing such oranges, lemons, or limes.

1883 [No corresponding provision.]

DECISIONS UNDER PARAGRAPH 205, ACT OF 1897.

(*c*) On the reimportation of shooks of American origin, in the form of boxes for oranges and lemons, their identity may be proved before the Board of Classification according to the ordinary rules of evidence, where, as in the case of this paragraph, Congress has not provided that proof shall be made under such regulations as the Secretary of the Treasury may prescribe.—United States *v.* Goodsell (91 Fed. Rep., 519), affirming 84 Fed. Rep., 155, and T. D. 18078, G. A. 3880, followed; T. D. 24458, G. A. 5345.

(*d*) Oranges and lemons cut in two and immersed in brine, being free of duty as fruits in brine, the barrels containing them are not dutiable under this paragraph, but are free as usual coverings of free goods.—T. D. 24567, G. A. 5379.

(*e*) Orange and lemon boxes coming from the Mediterranean ports of Messina, Palermo, Sorrento, Carini, and Catania, found to have their sides, tops, and bottoms composed of thin wood of American origin and manufacture, and hence held to be entitled to entry at the half rate provided for in paragraph 205. These facts may be proved by satisfactory oral evidence.—T. D. 24859, G. A. 5519.

(*f*) In reimportations of American shooks in the form of orange or lemon boxes, where the boxes of American manufacture are intermingled with those of foreign origin, the half-rate duty provided in this paragraph is allowable on such proportion of the boxes as may be satisfactorily determined to be of

domestic manufacture. Contra, where it is not practicable to so estimate the proportion, in which case all of the boxes would be dutiable at the full rate provided in said paragraph. To entitle such shooks to the half-rate duty, not only the tops and bottoms of the boxes must be of American manufacture, but also the sides. If either the tops, bottoms, or sides of such orange or lemon boxes are of foreign origin, the articles are excluded from assessment at the half rate and are dutiable at the full rate of 30 per cent.—T. D. 27052, G. A. 6270.

(*a*) Evidence offered by importers to show American origin of the boxes containing oranges and lemons from Mediterranean ports held insufficient to show what certain proportion of such boxes had their sides, tops, and bottoms of thin wood of American growth and manufacture. The quantity of each importation entitled to such classification must be distinctly shown.—Westervelt *v.* United States (150 Fed. Rep., 378; T. D. 27511), affirming T. D. 26066, G. A. 5932.

(*b*) Where free and dutiable goods are indiscriminately intermingled, it is the duty of the importer to show by affirmative proof what portion of his goods are free or subject to reduced rates of duty. If he fails to do this, the action of a collector in treating the whole mass as dutiable will be affirmed.—United States *v.* Ranlett (172 U. S., 133) followed; T. D. 26066, G. A. 5932.

DECISIONS UNDER THE ACT OF 1894.

(*c*) Boxes containing oranges, lemons, and limes, the sides, tops, and bottoms of which are of thin wood of American growth and manufacture, exported as shooks, are subject to only half-rate duties under this paragraph, although the specific proofs required by the Treasury regulations were not produced to prove the fact of American manufacture. This duty is fixed expressly by the statute as to all such shooks without any reference to regulations. This statute could not be changed so as to apply to these shooks, which are particularly provided for, without infringing upon the very statute itself. See Circular 155, T. D. 16473.—United States *v.* Goodsell (C. C.) (84 Fed. Rep., 155); Same *v.* Same (C. C. A.), (91 Fed. Rep., 519).

(*g*) On the reimportation of shooks of American origin in the form of boxes for oranges and lemons their identity may be proved before the Board according to the ordinary rules of evidence and without regard to the regulations of the Secretary where, as in the case of this paragraph, there is no provision that the proof shall be made under such regulations as the Secretary may prescribe. See article 337 (1892), Dept. Circular No. 155 (T. D. 16473).—T. D. 20990, G. A. 4408.

(*o*) An antique carved-wood picture frame imported in connection with a single painting is a manufacture of wood and not free as part of a collection of antiquities.—United States *v.* Gunther (C. C. A.), (71 Fed. Rep., 499).

(*p*) Rattan sticks for whip handles, painted, polished, and nearly completed, are dutiable as manufactures of wood and not as reeds or as nonenumerated articles. Sustaining T. D. 12948, G. A. 1499.—Foppes *v.* United States (C. C.), (72 Fed. Rep., 45).

DECISIONS UNDER THE ACT OF 1883.

(*a*) Spindles, casters, tubes, middles, etc., parts of unfinished bedsteads, are not dutiable as furniture.—T. D. 12520, G. A. 1204.

(*b*) The house or cabinet furniture dutiable under this paragraph is house or cabinet furniture not only "in piece or rough" but also "not finished."—Richard *v.* Hedden (C. C.), (42 Fed. Rep., 672).

(*c*) Cabinet ware and house furniture, whether in pieces fitted so that they can be put together and made ready for use or actually put together and made ready for use as such furniture "finished," is dutiable under this paragraph and not under paragraph 229.—Richard *v.* Hedden (C. C.), (42 Fed. Rep., 672).

(*d*) The term "finished" as applied to house or cabinet furniture at and prior to the time of the passage of this act was used to designate not only house or cabinet furniture that was in pieces so that they could be put together and made ready for use as such furniture, but also house or cabinet furniture that was actually put together and made ready for use as such furniture when shellacked or varnished or painted, or painted and varnished.—Richard *v.* Hedden (C. C.), (42 Fed. Rep., 672).

(*e*) Vienna bent-wood chairs, settees, etc., were imported in separate parts or pieces, but varnished or polished and requiring nothing but to be screwed together and to have the ends of the screws or bolts touched up with paint or varnish to form articles of furniture fit for use. The collector assessed duty as "furniture finished." The importer claimed that the furniture was in piece and not finished and was dutiable as "house or cabinet furniture in piece or rough and unfinished." In a suit to recover the excess of duties the collector was entitled to show that in the furniture trade the word "finished" had a particular trade meaning, and to have it submitted to the jury whether the imported goods came within them.—Hedden *v.* Richard (149 U. S., 346).

(*f*) Violin keys held to be manufactures of wood.—T. D. 11593, G. A. 768.

(*g*) Gun blocks which are not "rough hewn or sawed only," but are planed on two sides, are dutiable as manufactures of wood and not as timber hewn or sawed.—United States *v.* Windmuller (C. C.), (42 Fed. Rep., 292).

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*h*) A gothic chair made of wood, the back, seat, legs, and arms being covered with worsted plush, is dutiable as house furniture and not as a manufacture of worsted.—T. D. 3117.

(*i*) Although this act does not enumerate shingles sawed, rived, or shaved, this section provides that a duty of 30 per cent shall be collected on manufactures of wood or of which wood is the chief component part, not otherwise provided for; and the act of July 14, 1862 (12 Stat., 557), provides for 5 per cent additional. *Held*, that shingles were within these provisions and were exempted by the reciprocity treaty with Canada, whence the importations were made.—Stockwell *v.* United States (3 Cliff., 284; 12 Int. Rev. Rec., 88; 23 Fed. Cas., 116).

(*j*) Fancy boxes made of common wood and veneered with rosewood or ebony, invoiced as rosewood boxes and ebony boxes and known in the trade by those names and also as fancy boxes and furnished boxes, are dutiable under schedule B at 40 per cent as manufactures of rosewood, ebony, etc., and not as paper boxes and all other fancy boxes.—Sill *v.* Lawrence (1 Blatchf., 605; 22 Fed. Cas., 115).

SCHEDULE E.—SUGAR, MOLASSES, AND MANUFACTURES OF.

209. Sugars not above number sixteen Dutch standard in color, tank bottoms, sirups of cane juice, melada, concentrated melada, concrete and concentrated molasses, testing by the polariscope not above seventy-five degrees, ninety-five one-hundredths of one cent per pound, and for every additional degree shown by the polariscopic test, thirty-five one-thousandths of one cent per pound additional, and fractions of a degree in proportion; and on sugar above number sixteen Dutch standard in color, and on all sugar which has gone through a process of refining, one cent and ninety-five one-hundredths of one cent per pound; molasses
1897 testing above forty degrees and not above fifty-six degrees, three cents per gallon; testing fifty-six degrees and above, six cents per gallon; sugar drainings and sugar sweepings shall be subject to duty as molasses or sugar, as the case may be, according to polariscopic test: *Provided*, That nothing herein contained shall be so construed as to abrogate or in any manner impair or affect the provisions of the treaty of commercial reciprocity concluded between the United States and the King of the Hawaiian Islands on the thirtieth day of January, eighteen hundred and seventy-five, or the provisions of any Act of Congress heretofore passed for the execution of the same.

182. That so much of the Act entitled "An Act to reduce revenue, equalize duties, and for other purposes," approved October first, eighteen hundred and ninety, as provides for and authorizes the issue of licenses to produce sugar, and for the payment of a bounty to the producers of sugar from beets, sorghum, or sugar cane, grown in the United States, or from maple sap produced within the United States, be, and the same is hereby repealed, and hereafter it shall be unlawful to issue any license to produce sugar or to pay any bounty for the production of sugar of any kind under the said Act.

182½. There shall be levied, collected, and paid on all sugars and on all tank bottoms, sirups of cane juice or of beet juice, melada, concentrated melada, concrete and concentrated molasses, a duty of forty per centum ad valorem, and upon all sugars above number sixteen Dutch standard in color and upon all sugars which have been discolored there shall be levied, collected, and paid a duty of one-eighth of one cent per pound in additiou to the said duty of forty per centum ad valorem; and all sugars, tank bottoms, sirups of cane juice or of beet juice, melada, concentrated melada, concrete or concentrated molasses, which are imported from or are the product of any country which at the time the same are exported therefrom pays, directly or indirectly, a bounty on
1894 the export thereof, shall pay a duty of one-tenth of one cent per pound in addition to the foregoing rates: *Provided*, That the importer of sugar produced in a foreign country, the Government of which grants such direct or indirect bounties, may be relieved from this additional duty under such regulations as the Secretary of the Treasury may prescribe, in case said importer produces a certificate of said Government that no indirect bounty has been received upon said sugar in excess of the tax collected upon the beet or cane from which it was produced, and that no direct bounty has been or shall be paid: *Provided further*, That nothing herein contained shall be so construed as to abrogate or in any manner impair or affect the provisions of the treaty of commercial reciprocity concluded between the United States and the King of the Hawaiian Islands on the thirtieth day of January, eighteen hundred and seventy-five, or the provisions of any Act of Congress heretofore passed for the execution of the same. That there shall be levied, collected, and paid on molasses testing above forty degrees and not above fifty-six degrees polariscope, a duty of two cents per gallon; if testing above fifty-six degrees polariscope, a duty of four cents per gallon.

557½. Molasses testing not above forty degrees polariscope test, and containing twenty per centum or less of moisture.

231. That on and after July first, eighteen hundred and ninety-one, and until July first, nineteen hundred and five, there shall be paid, from any moneys in the Treasury not otherwise appropriated, under the provisions of section three thousand six hundred and eighty-nine of the

Revised Statutes, to the producer of sugar testing not less than ninety degrees by the polariscope, from beets, sorghum, or sugar-cane grown within the United States, or from maple sap produced within the United States, a bounty of two cents per pound; and upon such sugar testing less than ninety degrees by the polariscope, and not less than eighty degrees, a bounty of one and three-fourths cents per pound, under such rules and regulations as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall prescribe.

232. The producer of said sugar to be entitled to said bounty shall have first filed prior to July first of each year with the Commissioner of Internal Revenue a notice of the place of production, with a general description of the machinery and methods to be employed by him, with an estimate of the amount of sugar proposed to be produced in the current or next ensuing year, including the number of maple trees to be tapped, and an application for a license to so produce, to be accompanied by a bond in a penalty, and with sureties to be approved by the Commissioner of Internal Revenue, conditioned that he will faithfully observe all rules and regulations that shall be prescribed for such manufacture and production of sugar.

233. The Commissioner of Internal Revenue, upon receiving the application and bond hereinbefore provided for, shall issue to the applicant a license to produce sugar from sorghum, beets, or sugar-cane grown within the United States, or from maple sap produced within the United States at the place and with the machinery and by the methods described in the application; but said license shall not extend beyond one year from the date thereof.

234. No bounty shall be paid to any person engaged in refining sugars which have been imported into the United States, or produced in the United States upon which the bounty herein provided for has already been paid or applied for, nor to any person unless he shall have first been licensed as herein provided, and only upon sugar produced by such person from sorghum, beets, or sugar-cane grown within the United States, or from maple sap produced within the United States. The Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, shall from time to time make all needful rules and regulations for the manufacture of sugar from sorghum, beets, or sugar-cane grown within the United States, or from maple sap produced within the United States, and shall, under the direction of the Secretary of the Treasury, exercise supervision and inspection of the manufacture thereof.

235. And for the payment of these bounties the Secretary of the Treasury is authorized to draw warrants on the Treasurer of the United
1890 States for such sums as shall be necessary, which sums shall be certified to him by the Commissioner of Internal Revenue, by whom the bounties shall be disbursed, and no bounty shall be allowed or paid to any person licensed as aforesaid in any one year upon any quantity of sugar less than five hundred pounds.

236. That any person who shall knowingly refine or aid in the refining of sugar imported into the United States or upon which the bounty herein provided for has already been paid or applied for, at the place described in the license issued by the Commissioner of Internal Revenue, and any person not entitled to the bounty herein provided for, who shall apply for or receive the same, shall be guilty of a misdemeanor, and, upon conviction thereof, shall pay a fine not exceeding five thousand dollars, or be imprisoned for a period not exceeding five years, or both, in the discretion of the court.

237. All sugars above number sixteen Dutch standard in color shall pay a duty of five-tenths of one cent per pound: *Provided*, That all such sugars above number sixteen Dutch standard in color shall pay one-tenth of one cent per pound in addition to the rate herein provided for, when exported from, or the product of any country when and so long as such country pays or shall hereafter pay, directly or indirectly, a bounty on the exportation of any sugar that may be included in this grade which is greater than is paid on raw sugars of a lower saccharine strength; and the Secretary of the Treasury shall prescribe suitable rules and regulations to carry this provision into effect: *And provided further*, That all machinery purchased abroad and erected in a beet-sugar factory

and used in the production of raw sugar in the United States from beets produced therein shall be admitted duty free until the first day of July, eighteen hundred and ninety-two: *Provided*, That any duty collected on any of the above-described machinery purchased abroad and imported into the United States for the uses above indicated since January first, eighteen hundred and ninety, shall be refunded.

241. That the provisions of this act providing terms for the admission of imported sugars and molasses and for the payment of a bounty on sugars of domestic production shall take effect on the first day of April, eighteen hundred and ninety-one: *Provided*, That on and after the first day of March, eighteen hundred and ninety-one, and prior to the first day of April, eighteen hundred and ninety-one, sugars not exceeding number sixteen Dutch standard in color may be refined in bond without payment of duty, and such refined sugars may be transported in bond and stored in bonded warehouse at such points of destination as are provided in existing laws relating to the immediate transportation of dutiable goods in bond, under such rules and regulations as shall be prescribed by the Secretary of the Treasury.

726. Sugars, all not above number sixteen Dutch standard in color, all tank bottoms, all sugar drainings and sugar sweepings, sirups of cane juice, melada, concentrated melada, and concrete and concentrated molasses, and molasses. (Free.)

235. All sugars not above No. 13 Dutch standard in color shall pay duty on their polariscopic test as follows, viz:

236. All sugars not above No. 13 Dutch standard in color, all tank bottoms, sirups of cane-juice or of beet-juice, melada, concentrated melada, concrete and concentrated molasses, testing by the polariscope not above seventy-five degrees, shall pay a duty of one and forty-hundredths cent per pound, and for every additional degree or fraction of a degree shown by the polariscopic test, they shall pay four-hundredths of a cent per pound additional: [*a. Provided*, That concentrated melada, or concrete, shall hereafter be classed as sugar * * * and melada shall be known and defined as an article made in the process of sugar-making being the cane-juice boiled down to the sugar point and containing all the sugar and molasses resulting from the boiling process and without any process of purging or clarification, and any and all products of the sugar-cane imported in bags, mats, baskets or other than tight packages
1883 shall be considered sugar and dutiable as such. *And provided further*, That of the drawback on refined sugars exported allowed by section three thousand and nineteen of the Revised Statutes of the United States, only one per centum of the amount so allowed shall be retained by the United States. Act of March 3, 1875, sec. 3.]

237. All sugars above No. 13 Dutch standard in color shall be classified by the Dutch standard of color, and pay duty as follows, namely:

238. All sugar above No. 13 and not above No. 16 Dutch standard, two and seventy-five hundredths cents per pound.

239. All sugar above No. 16 and not above No. 20 Dutch standard, three cents per pound.

240. All sugars above No. 20 Dutch standard, three and fifty-hundredths cents per pound.

241. Molasses testing not above fifty-six degrees by the polariscope, shall pay a duty of four cents per gallon; molasses testing above fifty-six degrees, shall pay a duty of eight cents per gallon.

DECISIONS UNDER PARAGRAPH 209, ACT OF 1897.

(*a*) Sugar drainings are dutiable as molasses and not as a nonenumerated article.—T. D. 20613, G. A. 4339.

(*b*) Countervailing duty assessed on sugar from China in the absence of the certificate naming the country of origin. (See sec. 5 of this act and regulations, T. D. 18373 and 19108).—T. D. 21526, G. A. 4530.

(*c*) Sugar sweepings obtained from cargoes of refined sugar are not dutiable as refined sugar, but are dutiable according to polariscopic test at the rates prescribed in this paragraph. In assessing duty on sugar sweepings their

previous character and condition must be disregarded and neither their refinement nor their color considered.—T. D. 23854, G. A. 5173.

(*a*) Molasses was imported in hogsheads and tierces, none of which were marked, the tierces containing the better grade of molasses. *Held*, that the appraiser was justified in averaging the tests of samples taken from the tierces separately from those out of the hogsheads for the purpose of making his return of classification under this paragraph. It would seem that article 1375 of the Customs Regulations of 1899 should not be so construed as to require the averaging of samples of different grades of molasses imported under the same mark.—T. D. 24563, G. A. 5375.

(*b*) The phrases "testing by the polariscope" and "degrees shown by the polariscope" as used in this paragraph have no peculiar trade meaning, but are used descriptively, in their ordinary signification, as indicating a true polariscopic test. The regulations of the Secretary of the Treasury prescribing that a particular polariscopic test, made by special apparatus, shall determine the classification of imported sugars, in place of the former "commercial test," so called, are not unreasonable or violative of any provision of law.—United States *v.* Bartram et al. (131 Fed. Rep., 833; T. D. 25395), reversing Bartram et al. *v.* United States (123 Fed. Rep., 327) and affirming In re Bartram et al. (T. D. 20850, G. A. 4386); T. D. 25911, G. A. 5882.

(*c*) A brown-colored sugar under 16 Dutch standard, polarizing at about 81.60 degrees, which is shown to be the refuse or residue left over from a process of refining sugar, the refined sugar itself being separated from the mass, is dutiable under this paragraph according to the polariscopic test and not as "sugar which has gone through a process of refining," at the rate of 1.95 cents per pound.—T. D. 26511, G. A. 6079.

(*d*) Where sugars were imported and entered prior to the promulgation of the customs regulations of May 10, 1899, but such sugars were tested subsequent to said date, while the latter regulations were in force, such tests should be governed by these latter regulations and not by the prior ones which were superseded. While, as a general rule, laws have no retroactive force, the rule is different in reference to remedial statutes or those dealing with procedure only. The regulations of the Treasury Department would seem to be governed by a like principle. As absorption of sea water reduces the polariscopic test of sugar, no allowance should be made on account of the increased weight of sugar importations due to unusual absorption of sea water or moisture while on the voyage of importation. Retests of such sugars may be granted where the claim made by the importer, filed in due time, appears to be well founded and where the error claimed is shown to be as much as four-tenths of 1 degree by the polariscopic test.—T. D. 26809, G. A. 6181.

(*e*) The polariscopic test prescribed by the regulations of the Secretary of the Treasury to determine the classification of imported sugars (T. D. 18508 and T. D. 20707) having been held to be reasonable and not violative of any provision of law, such regulations must be complied with by customs officers (United States *v.* Bartram Brothers et al., 131 Fed. Rep., 833; T. D. 25393). Where the failure of the customs officers to comply with the customs regulations in the sampling and testing of imported sugar results in an illegal and inaccurate test, the Board of General Appraisers may determine the correct test from satisfactory evidence. Where Government samplers, under the supervision of the local appraiser, drawn insufficient samples from importations of sugar, put them in unsuitable cans, and allow them to remain exposed to the sun, so that they dry out, resulting in an increased polariscopic test prejudicial

to the rights of the importer, such tests are illegal and inaccurate.—T. D. 26628, G. A. 6118.

(*a*) In the matter of sugar and other merchandise dutiable by weight. Where imported merchandise is dutiable by weight the action of Government weighers is not subject to review by the Board so long as they act strictly within their statutory authority and proceed on no wrong principle in performing the duty imposed on them by law. This principle, however, does not apply where such irregularities occur in the weighing of goods as probably would lead to erroneous results, and in such case the Board will undertake to correct the weights returned by the Government weigher in accordance with the facts as shown by the evidence. The onus is on the importer, however, to furnish the Board with evidence satisfactorily showing the weight of imported merchandise when landed at the port of entry.—T. D. 28249, G. A. 6620.

(*b*) In respect to polariscopic tests of sugar drainings, if the regulations prescribed by the Secretary of the Treasury have been substantially followed the determinations made at the Government laboratory are conclusive, and it was held that where the average of such tests was fouud to be 56.025 the drainings should be classified as testing 56 degrees and above. The theory of de minimis non curat lex does not require that the fraction in excess of 56 degrees shall be disregarded. Sugar test regulations reviewed.—United States *v.* Lueder (154 Fed. Rep., 1; T. D. 27918), reversing 146 id., 149; T. D. 27186.

(*c*) The provision in this paragraph for sugar above No. 16 Dutch standard in color is not limited to cane sugar, but refers as well to beet sugar.—Franklin Sugar Refining Company *v.* United States (153 Fed. Rep., 653; T .D. 28056).

DECISIONS UNDER THE ACT OF 1894.

(*d*) Limitation of allowances for decrease of test in sugar under T. D. 16414, G. A. 3203.—T. D. 17481, G. A. 3620.

(*e*) As to values and tests of sugar.—T. D. 17572, G. A. 3663.

(*f*) Protests against reappraised values. Polariscope test of saccharine strength.—T. D. 17663, G. A. 3711.

(*g*) German refined sugar of a high grade tinctured with vanilla crystals is dutiable at 40 per cent and one-eighth and one-tenth cent per pound and not under paragraph 183 as tinctured sugar.—T. D. 17957, G. A. 3832.

(*h*) Sugar assessed at 40 per cent as sirup of cane juice. Claimed to be free as molasses testing not above 40 degrees, or dutiable at 2 cents or 4 cents or as a nonenumerated article. *Held*, that old samples are uureliable, and the first test accepted.—T. D. 17923, G. A. 3798.

(*i*) Matanzas centrifugal sugar testing not above No. 16 Dutch standard in color imported. It was found to test 93.43 degrees and was appraised at 1.998 cents per pound. The net weight was in excess of the invoice. Assessed at the value declared on the entry for sugar testing 95. *Held*, that it is and has been for years the well-known trade practice to purchase such sugars on a basis of 96 degrees, and that it is the established practice to allow one-sixteenth of a cent per pound for each degree such sugar tests less than 96 degrees and not less than 94 degrees and three thirty-seconds of 1 cent per pound for each degree less than 94 degrees. The collector should have deducted from the entered value one-sixteenth of a cent per pound and three thirty-seconds of 1 cent per pound for fifty-seven one-hundredths of a degree, leaving the entered value of the sugar testing 93.43 degrees 2.03223 cents per pound. No deduction can be made for nondutiable charges, the importer having certified that the charges entered in the invoice were included in the market value of the goods.—T. D. 17063, G. A. 3444.

(*a*) The invoice, though not so expressed, made in Spanish pounds. Three different classes embraced in the protest. (1) Embraces all sugars where the return of the appraiser shows the unit of weight was the pound of the invoice. (2) The return made contemporaneously with the appraisement shows that the unit was the American avoirdupois. (3) The return of the appraiser shows that he appraised the pound of the invoice, and a supplementary return made after the lapse of the two days allowed the importer, under section 13, act of June 10, 1890, within which to appeal. *Held*, that the protests are well taken in cases Nos. 1 and 3 and not well taken in No. 2.—T. D. 16647, G. A. 3292.

(*b*) The importer claimed the sugar to be dutiable on the weight when withdrawn from the warehouse, not upon the weight when entered. *Held*, (1) that section 50 of the act of October 1, 1890, is not repealed by the act of 1894; (2) that the phrase "duties based upon the weight of merchandise" does not describe goods which pay an ad valorem duty based upon the value of the goods in a foreign country and not upon the weight in the United States.—T. D. 16110, G. A. 3074.

(*c*) Molasses diluted by salt water during voyage should pay duty according to the decreased polariscope test and the increased quantity.—T. D. 18633, G. A. 4031.

(*d*) Molasses reported as testing above 56 degrees. A test made by direction of the Board shows 53.8 degrees, and the molasses held dutiable at 2 cents per gallon.—T. D. 16575, G. A. 3271.

(*e*) Additional duty on sugar.—T. D. 16414, G. A. 3203.

(*f*) Sugar from Germany is subject to the additional duty of one-tenth of a cent a pound.—T. D. 16641, G. A. 3286.

(*g*) Russian sugar imported from Germany is liable to the additional duty, in the absence of a certificate from the German Government that this sugar was not in receipt of a bounty.—T. D.. 18168, G. A. 3925.

(*h*) Sugar from Buenos Ayres is subject to the additional duty.—T. D. 18631, G. A. 4029.

(*i*) Sugar exported from France prior to April 7, 1897, is not subject to additional duty.—T. D. 18631, G. A. 4029.

(*j*) Holland does not pay directly or indirectly a bounty on sugar (Jan. 16, 1895).—T. D. 15673, G. A. 2854.

(*k*) Sugar from Holland and Belgium is not liable to the additional duty.—T. D. 18631, G. A. 4029.

(*l*) Moist or green sugars imported from Brazil, which are well known to lose from 14 to 16 per cent in weight on the voyage by drainage and evaporation, without any loss of value, whereby the market value per pound is correspondingly increased, may properly be increased in value by this percentage by the Appraisers under section 10, act of June 10, 1890.—American Sugar Refining Co. *v.* United States (C. C.), (91 Fed. Rep., 646).

(*m*) In the appraisal of duty on Brazilian sugar bought and shipped when green, and which necessarily loses weight and increases in value per pound by drainage during the voyage, such increase in value may properly be taken into account. The provision of section 19 of the act of June 10, 1890, is not intended to limit the Appraiser to a condition which existed at the time of the purchase, but was immediately to become altered until a new condition and value were reached, but is intended to apply to the condition of preparedness for shipment of the merchandise when bought. Affirming 91 Fed. Rep., 646.—American Sugar Refining Co. *v.* United States (C. C. A.), (99 Fed. Rep., 716).

(*a*) Sugars were shipped "green," that is, contained moisture, a certain portion of which drained on the voyage, whereby they decreased in weight and became more valuable. Duties were levied and collected upon the increased valuation. *Held*, that the appraisement was legal. Sustaining the Circuit Court of Appeals.—American Sugar Refining Co. *v.* United States (181 U. S., 610).

(*b*) Molasses tested by the United States examiner of drugs and polariscope test found to be 37.4 per cent moisture (19.4 per cent). Collector secured test by an outside chemist, which showed 21.7 per cent moisture, when duty was assessed at 20 per cent. Held to be exempt from duty.—T. D. 18415, G. A. 3972.

(*c*) Brazilian sugar bought and shipped when raw, which has lost weight and increased in value per pound by drainage during the voyage of importation, is dutiable upon the increased value per pound upon arrival in this country and not upon its value when shipped.—American Sugar Refining Company *v.* United States (181 U. S., 610), affirming 99 Fed. Rep., 716, and 91 Fed. Rep., 646, followed; T. D. 27085, G. A. 6282.

DECISIONS UNDER THE ACT OF 1890.

(*d*) The court does not decide whether the provision in this act respecting bounties on sugar is or is not unconstitutional, because it is plain from the act that these bounties do not constitute a part of the system of customs duties imposed by the act, and it is clear that the parts of the act imposing duties would remain in force even if these bounties were held to be unconstitutionally imposed.—Field *v.* Clark (143 U. S., 649, 694).

(*e*) Saccharine crystals of various sizes, known as English crystals, is pure sugar above No. 16 Dutch standard.—T. D. 13333, G. A. 1713.

(*f*) Chinese sugar cane held to be dutiable according to color and polariscope test under the provisions of the act of 1883, still in force.—T. D. 10907, G. A. 402.

(*g*) Peru does not pay an export bounty on cane sugar.—T. D. 12930, G. A. 1481.

(*h*) Sugar of a high grade refined in England is not subject to an additional duty. Where the identity of raw sugar is destroyed in the process of refining the resulting product is the product of the country in which the refining is done and not of the country in which the raw sugar was obtained.—T. D. 13612, G. A. 1884.

(*i*) Refined sugar produced and refined in France is not subject to additional duty.—T. D. 13612, G. A. 1884.

(*j*) Refined sugar produced in Austria and exported from Germany is subject to the additional duty.—T. D. 13612, G. A. 1884.

(*k*) Machinery made of wood, used for the purpose of planting beet-sugar seeds, is not free as machinery erected into a beet-sugar factory.—T. D. 12100, G. A. 962.

(*l*) Sugar molasses imported prior to April 1, 1891, is dutiable under the act of 1883.—T. D. 10515, G. A. 165.

(*m*) Maple sugar found to be not above No. 16 Dutch standard and to be free.—T. D. 11837, G. A. 828.

(*n*) Maple sirup is not free.—T. D. 11837, G. A. 828.

DECISIONS UNDER THE ACT OF 1883.

(*a*) Certain maple sugar held dutiable at 1.68 cents per pound.—T. D. 11710, G. A. 815.

(*b*) The treaty with the King of the Hawaiian Islands and the act giving it effect (19 Stat., 200), by which sugar from those islands was admitted into the United States free, did not operate under the previous treaty with the Dominican Republic so as to establish a like exemption as to sugar imported from that country.—Netherclift *v.* Robertson (27 Fed. Rep., 737).

(*c*) Sugar drainings or pumpings, polariscope test 46.79, held to be dutiable as molasses.—T. D. 10514, G. A. 164.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*d*) Sugars imported in 1879 to which an artificial color was not given after they had been manufactured. *Held*, that under this section the sole test of their dutiable quality was their actual color, as graded by the Dutch standard, and that they were subject to the duty prescribed by schedule G, with 25 per cent added thereto under section 3, act of March 3, 1875 (18 Stat., 339).—Merritt *v.* Welsh (104 U. S., 694).

(*e*) Under section 58 of the act of 1799 both draft and tare are allowable on sugar imported in bags and subject to duty by weight.—Napier *v.* Barney (5 Blatchf., 191; 17 Fed. Cas., 1149).

(*f*) Under this act duty is to be assessed not upon the weight of sugar in the invoice but the weight when landed, although no express direction is contained in any law to make an allowance for loss of weight of sugar by drainage, and although the aggregate value is thus reduced below the aggregate cost named in the invoice.—Marriott *v.* Brune (9 How., 619, 632).

(*g*) The words "loaf sugar" must be understood according to their general meaning in trade and commerce and buying and selling. And if, upon the evidence it appeared that loaf sugar meant sugar in loaves, then crushed loaf sugar was not loaf sugar within the act.—United States *v.* Breed (1 Summ., 159; 24 Fed. Cas., 1222).

(*h*) Under this act duties did not accrue on refined sugar while it remained in the manufactory unsold, and consequently when this act was repealed by the act of April 6, 1802 (2 Stat., 148), the saving of duties which had accrued did not apply to such sugars.—Pennington *v.* Coxe (2 Cranch, 33).

(*i*) Though among sugar refiners sugars which have not undergone the process of claying may be spoken of as refined sugar, yet, if this term among the buyers and sellers of the country generally is applied only to lump and loaf sugar, the term in the acts of Congress must be construed to include only those articles.—Barlow *v.* United States (7 Pet., 404).

The weight and the value of the immediate coverings, other than the outer packing case or other covering, shall be included in the dutiable weight and the value of the merchandise.

SCHEDULE F.—TOBACCO AND MANUFACTURES OF.

213. Wrapper tobacco, and filler tobacco when mixed or packed with more than fifteen per centum of wrapper tobacco, and all leaf tobacco the product of two or more countries or dependencies when mixed or packed together, if unstemmed, one dollar and eighty-five cents per pound; if stemmed, two dollars and fifty cents per pound; filler tobacco not specially provided for in this Act, if unstemmed, thirty-five cents per pound; if stemmed, fifty cents per pound.

214. The term wrapper tobacco as used in this act means that quality of leaf tobacco which is suitable for cigar wrappers, and the term filler tobacco means all other leaf tobacco. Collectors of customs shall not permit entry to be made, except under regulations to be prescribed by the Secretary of the Treasury, of any leaf tobacco, unless the invoices of the same shall specify in detail the character of such tobacco, whether wrapper or filler, its origin and quality. In the examination for classification of any imported leaf tobacco, at least one bale, box, or package in every ten, and at least one in every invoice, shall be examined by the appraiser or person authorized by law to make such examination, and at least ten hands shall be examined in each examined bale, box, or package.

1897

184. Wrapper tobacco, unstemmed, imported in any bale, box, package, or in bulk, one dollar and fifty cents per pound; if stemmed, two dollars and twenty-five cents per pound.

185. Filler tobacco, unstemmed, imported in any bale, box, package, or in bulk, thirty-five cents per pound; if stemmed, fifty cents per pound: *Provided*, That the term wrapper tobacco, whenever used in this Act shall be taken to mean that quality of leaf tobacco known commercially as wrapper tobacco: *Provided further*, That the term filler tobacco, whenever used in this Act, shall be taken to mean all leaf tobacco unmanufactured, not commercially known as wrapper tobacco: *Provided further*, That if any leaf tobacco imported in any bale, box, package, or in bulk shall be the growth of different countries, or shall differ in quality and value, save as provided in the succeeding provision, then the entire contents of such bale, box, package, or in bulk shall be subject to the same duty as wrapper tobacco: *Provided further*, That if any bale, box, package, or bulk of leaf tobacco of uniform quality contains exceeding fifteen per centum thereof of leaves suitable in color, fineness of texture, and size for wrappers for cigars, then the entire contents of such bale, box, package, or bulk shall be subject to the same duty as wrapper tobacco: *Provided further*, That collectors shall not permit entry to be made, except under regulations to be prescribed by the Secretary of the Treasury, of any leaf tobacco imported in any bale, box, package, or in bulk, unless the invoices covering the same shall specify in detail the character of the leaf tobacco in such bale, box, package, or in bulk, whether wrapper or filler tobacco, Quebrado or self-working bales, as the case may be: *And provided further*, That in the examination for classification of any invoice of imported leaf tobacco at least one bale if less than ten bales, and one bale in every ten bales and more, if deemed necessary by the appraising officer, shall be examined by the appraiser or person authorized by law to make such examination, and for the purpose of fixing the classification and amount of duty chargeable on such invoice of leaf tobacco the examination of ten hands out of each examined bale thereof shall be taken to be a legal examination.

1894

242. Leaf tobacco suitable for cigar-wrappers, if not stemmed, two dollars per pound; if stemmed, two dollars and seventy-five cents per pound: *Provided*, That if any portion of any tobacco imported in any bale, box, or package, or in bulk shall be suitable for cigar-wrappers, the entire quantity of tobacco contained in such bale, box, or package, or bulk shall be dutiable; if not stemmed, at two dollars per pound; if stemmed, at two dollars and seventy-five cents per pound.

247. All other tobacco in leaf, unmanufactured and not stemmed, thirty-five cents per pound.

1883

DECISIONS UNDER PARAGRAPHS 213 AND 214, ACT OF 1897.

(*a*) The commercial bale of leaf tobacco is the unit for dutiable purposes under this and paragraph 214.—Following United States *v.* Blumlein (55 Fed. Rep. (C. C. A.), 383), and United States *v.* Rosenwald (C. C. A.), (67 Fed. Rep., 323); T. D. 18734, G. A. 4047.

(*b*) The usual coverings for imported tobacco on and prior to July 24, 1897, were burlaps and matting. Boxes are unusual coverings and therefore dutiable as manufactures of wood under paragraph 208 and are not free under section 19, act of June 10, 1890.—T. D. 21057, G. A. 4422.

(*c*) A bale of tobacco containing more than 15 per cent of wrapper, held dutiable as wrapper tobacco, and subject to duty under this act by virtue of

section 33 of this act, the goods having been imported in 1895, liquidated in 1895, reliquidated in 1898, and remaining in warehouse at the time of final liquidation.—T. D. 20955, G. A. 4401.

(*a*) All wrapper tobacco, wherever found in a bale and in whatever amount, is dutiable at $1.85 per pound. Where a bale contains over 15 per cent of wrapper, the entire contents become dutiable at $1.85 per pound. Where there is less than 15 per cent of wrapper the filler is dutiable at 35 cents per pound, and the wrapper at $1.85 per pound.—T. D. 18734, G. A. 4047, reversed; 87 Fed. Rep., 798 and 179 U. S. 463, followed; T. D. 22784, G. A. 4861.

(*b*) It is the meaning of this act to subject to different rates of duty the leaves of tobacco suitable for cigar wrappers and those not suitable when mixed in the same commercial bale or package. It is the meaning of this act to subject to the duty of $1.85 per pound the leaves of tobacco suitable for cigar wrappers, intermingled an the bales or packages of tobacco (unstemmed) of the description which, in their entirety at the date of the enactment, were commercially known in this country as "filler tobacco" and bought and sold by that name, notwithstanding such leaves constitute less than 15 per cent. This case was decided on a certificate of division from the Circuit Court of Appeals.—Rothschild *v.* United States (179 U. S., 463).

(*c*) Moisture absorbed by tobacco on an ocean voyage can not be said to be an impurity within the meaning of Seeberger *v.* Wright (157 U. S., 183), nor can it be considered as an independent nontaxable substance, though its amount can be estimated. The statutes contemplate and apply to merchandise which may be changed in weight.—United States *v.* Falk (204 U. S., 143; T. D. 27832).

(*d*) Latakia tobacco, imported in the leaf and unstemmed and assembled on strings inserted at one end of each, is not tobacco manufactured, and although not used or fit for cigar fillers is nevertheless dutiable as filler tobacco at the rate of 35 cents per pound under paragraph 213, by virtue of the definition of "filler tobacco" contained in paragraph 214.—T. D. 24333, G. A. 5316.

DECISIONS UNDER THE ACT OF 1894.

(*e*) Certain tobacco found to be dutiable as wrapper tobacco.—T. D. 15586, G. A. 2846.

(*f*) Certain Habana leaf tobacco held to be dutiable as wrapper.—T. D. 16735, G. A. 3323.

(*g*) Certain leaf tobacco unstemmed found to be wrapper.—T. D. 16825, G. A. 3344.

(*h*) Certain Mexican leaf tobacco found to be wrapper.—T. D. 17665, G. A. 3713.

(*i*) What is leaf tobacco stemmed.—T. D. 16535, G. A. 3253.

(*j*) Certain Mexican leaf tobacco, unstemmed, held not to be wrapper.—T. D. 17071, G. A. 3452.

(*k*) The bale is the unit for the estimate of percentages of grades and qualities.—T. D. 15692, G. A. 2873.

(*l*) Leaf tobacco mixed, Habana and Sumatra, in one package.—T. D. 18221, G. A. 3931.

DECISIONS UNDER THE ACT OF 1890.

(*m*) As to classification of Sumatra unstemmed leaf tobacco.—T. D. 12329, G. A. 1101.

(*n*) Sumatra tobacco in small bundles held to be dutiable at $2.75 per pound.—T. D. 13356, G. A. 1736.

(*a*) Certain Havana leaf tobacco held dutiable at $2 per pound and other of the same at 35 cents per pound.—T. D. 13434, G. A. 1771.

(*b*) Classification of certain tobacco.—T. D. 15311, G. A. 2745.

(*c*) As to tare on leaf tobacco.—T. D. 13511, G. A. 1813.

(*d*) The Board has never sustained a protest against the decision of the collector upon leaf tobacco in the absence of the merchandise or without an examination of the bales upon which protest was lodged, where the same could be had without great inconvenience or expense, or without adequate official samples, where such inconvenience or expense would be incurred.—T. D. 14376, G. A. 2260.

(*e*) Remedios tobacco held not to be wrapper.—T. D. 11203, G. A. 562.

(*f*) Certain Cuban leaf tobacco held not to be wrapper.—T. D. 11217, G. A. 576.

(*g*) Certain Havana leaf tobacco found not to contain wrapper tobacco.—T. D. 11231, G. A. 590; T. D. 12526, G. A. 1210.

(*h*) Certain Mexican leaf tobacco held dutiable at 35 per cent.—T. D. 14221, G. A. 2185.

(*i*) The portions of leaf tobacco which break off in handling the tobacco before it is stemmed, or in the process of shipping, and are swept up, and are and can be used only for cigarettes and the fillers of the cheaper grades of cigars, and are not covered by any paragraph may fairly be classified under the provision for all other leaf tobacco, unmanufactured.—Schroeder *v.* United States (C. C.), (87 Fed. Rep., 201). Same *v.* Same (C. C. A.), (93 Fed. Rep., 448).

(*j*) On a question whether unstemmed Sumatra tobacco was suitable for cigar wrappers and therefore dutiable at $2 per pound, there was an irreconcilable conflict between the witnesses for the importer and those for the Government, the former claiming that the tobacco was too brittle for wrappers; but it appeared that a large part of the tobacco had already been sold for wrappers at $2.65 per pound, while its value for fillers could not exceed $1 or $1.25 per pound, and that it had been made into cigars, and sold to the trade. Pending the cause, cigars were made from samples and were apparently of good quality, and had not deteriorated by drying during the course of five months. *Held*, that the tobacco was dutiable at $2 per pound.—In re Phelps (C. C.), (53 Fed. Rep., 238).

(*k*) If a bale of tobacco contained any portion suitable for cigar wrappers the whole bale was dutiable as "suitable for cigar wrappers" and the court has no discretion to determine whether there was an appreciable percentage of such tobacco in the bale.—Stachelberg *v.* United States (C. C.), (72 Fed. Rep., 50).

DECISIONS UNDER THE ACT OF 1883.

(*l*) Assessment of duty on tobacco sustained.—T. D. 10233, G. A. 11.

(*m*) One bale in ten of plantation lots is a fair and lawful examination under R. S. 2901.—T. D. 14248, G. A. 2212.

(*n*) The bale is the unit and a bale of leaf tobacco of which 85 per cent is of the requisite fineness, size, and weight is dutiable at 75 cents.—T. D. 14248, G. A. 2212.

(*o*) The unit upon which the percentage is to be calculated is the bale as packed at the plantation if such bale is imported without any change other than such as is occasioned by sampling, or for the purpose of transportation, and reaches the hands of the consumer in that condition, through the ordinary

channels of commerce; and duties can not be assessed according to the proportions of the different qualities found in an entire lot, consisting of several bales, as ascertained by an examination of sample bales.—49 Fed. Rep., 228 affirmed. In re Blumlein (C. C. A.), (55 Fed. Rep., 383); Hubbard *v.* Soby (C. C. A.), (55 Fed. Rep., 388).

(*a*) The 85 per cent clause does not refer merely to size and fineness, but to size, fineness, and weight.—Id.

(*b*) Bales of leaf tobacco were imported, distinct parts of each of which were composed of tobacco unstemmed, more than 85 per cent of which was of size and texture suitable for wrappers, and of which more than one hundred leaves would be required to weigh a pound, and the remaining parts of each were composed of tobacco of inferior quality, sufficient in quantity to reduce each below the requisite 85 per cent with strips of paper of cloth between to mark the extent of the different qualities which were separated after importation. *Held*, that the part which was of this superior quality was dutiable at 75 cents per pound.—Falk *v.* Robertson (25 Fed. Rep., 897).

(*c*) Tobacco was imported in bales each of which contained a quantity of leaf tobacco answering the description in the statute of that answering 85 cents per pound, except that it formed only about 83 per cent of the contents of the bale. The rest of the bale consisting of inferior leaf tobacco called "fillers" which was separated from the 75 cent tobacco by strips of cloth or paper, making the one kind readily separable from the other on the opening of the bale. More than 85 per cent of the 75 cent tobacco answered the description of tobacco dutiable at that rate. *Held*, that the whole of the 75 cent tobacco was dutiable at that rate and the contents of the bale as a whole were not dutiable at 35 cents per pound. The unit upon which the 85 per cent was to be calculated was not the entire bale.—The case of Merritt *v.* Welsh (104 U. S., 694), distinguished; Falk *v.* Robertson (137 U. S., 225).

(*d*) In determining the classification of leaf tobacco the unit to which the percentage test is to be applied is the commercial bale.—United States *v.* Rosenwald (C. C. A.), (67 Fed. Rep., 323).

(*e*) The burden is not upon the Government to show that the collector's classification is correct, but the presumption is in favor of its correctness and the burden is upon the importer to show that it is not correct; and this burden is not sustained by the fact that the collector's examination was only of ten hands of tobacco, drawn from representative bales, nor by showing that a method was pursued which was wholly inadequate to ascertain what percentage in any bale consisted of a higher grade, and that the method was erroneous because it sought to determine the percentage, not by aggregating the leaves in the whole number of hands examined, but aggregating the hands containing the higher grades.—59 Fed. Rep., 765, reversed; United States *v.* Rosenwald (C. C. A.), (67 Fed. Rep., 323).

(*f*) The provision imposing a duty upon leaf tobacco evidently requires that 85 per cent of half leaves are to be of the requisite size and necessary fineness of texture for wrappers, or, in other words, that each of the 85 half leaves out of 100 half leaves must contain a portion sufficiently fine in texture of the requisite size to make at least one wrapper.—Erhardt *v.* Schroeder (155 U. S., 124).

(*g*) The further provision "of which more than 100 leaves are required to weigh a pound," refers to whole leaves in their natural state.—Id.

(*h*) Unstemmed Sumatra leaf tobacco consisting of 37 bales composed, as to marks and numbers, of three lots, the tobacco being packed in the usual

manner; weighed by the United States weigher upon arrival; one bale in ten being sent to the appraisers stores for examination and being there examined by opening each of the sample bales in the usual manner employed in making such examinations, and ten hands being withdrawn from each sample bale duly examined and found to consist entirely of leaves suitable in size and fineness of texture for cigar wrappers; and the hands being thereupon weighed and the leaves counted, and the proportion of hands containing leaves requiring more than 100 to weigh a pound, and those containing leaves less than 100 to the pound, being ascertained and separated; and the same proportions being calculated upon the sample bale and upon the lot represented by such sample bale; such proportion consisting, in the case of the first lot, of 20 per cent of the tobacco found to be of leaves requiring more than 100 to weigh a pound, and 80 per cent of leaves running less than 100 to the pound; in the second lot of 18 bales all of the hands being found to contain leaves requiring less than 100 to the pound; in the third lot of 9 bales 60 per cent being found to contain leaves requiring more than 100 to the pound, and 40 per cent containing leaves of less than 100 to the pound; and the duty being thereupon assessed upon the tobacco at the rate of 75 cents per pound upon the proportion containing leaves requiring more than 100 to the pound, and 35 cents per pound upon the proportion consisting of leaves running less than 100 to the pound. *Held*, that the proceedings of the collector in ascertaining the character, size, fineness, and weight of the tobacco were regular and proper, but that the result of his examination showing that in no distinguishable mass of the tobacco was there 85 per cent of the requisite size and of the necessary fineness of texture, and of which more than 100 leaves were required to weigh a pound, the whole 37 bales were dutiable under this paragraph and not at 75 cents per pound under paragraph 246.—Reversing the Board. In re Blumlein (C. C.), (49 Fed. Rep., 228).

(*a*) But one rate of duty is payable upon the whole unit of quantity, whatever that may be; and whether that rate is 75 or 35 per cent depends upon whether the percentage of wrappers in the unit is greater or less than 85 per cent.—Soby *v.* Hubbard (C. C.), (49 Fed. Rep., 234).

(*b*) The unit of quantity under the statute is the separated quantity of leaf tobacco, unstemmed, of a uniform grade; and where the entry consists of many bales of the same brand, honestly and fairly packed, the rate of duty is determined by ascertaining whether the percentage of wrappers in the whole lot is greater or less than 85 per cent.—Id.

(*c*) Certain Sumatra leaf tobacco, unstemmed, imported from Bremen consisting of 54 bales, packed in the usual way and divided into seven plantation lots, of which merchandise 9 bales, being one in six of the whole importation, and in two instances 2 bales of each plantation lot, were examined by the examiner and appraiser by opening each of the 9 representative bales and drawing from different parts of each bale ten hands of tobacco, carefully examining such hands as to fineness of texture and the quality of the tobacco, weighing each of such hands to ascertain where the leaves of the tobacco ran more than 100 to the pound or less, the classification of the collector and the liquidation being based upon the percentages of tobacco showing more or less than 100 leaves to the pound as applied to the sample bale and also to the entire plantation lot represented by such bales, all the percentages of tobacco thus shown to be of leaves requiring more than 100 to weigh a pound were assessed at 75 cents per pound, and all the percentages showing leaves running less than 100 to the pound was assessed at 35 cents per pound. *Held*, that the examination was not sufficient to show any bale to be dutiable at 75 cents, and the whole

should be subject to duty at 35 cents.—In re Rosenwald (C. C.), (59 Fed. Rep., 765); reversed by the Circuit Court of Appeals (67 Fed. Rep., 323).

1897 **215.** All other tobacco, manufactured or unmanufactured, not specially provided for in this Act, fifty-five cents per pound.

1894 186. Tobacco, manufactured or unmanufactured, of all descriptions, not specially enumerated or provided for in this Act, forty cents per pound.

1890 244. Tobacco, manufactured, of all descriptions, not specially enumerated or provided for in this act, forty cents per pound.

1883 249. Tobacco, manufactured, of all descriptions, and stemmed tobacco, not specially enumerated or provided for in this act, forty cents per pound.

251. Tobacco, unmanufactured, not specially enumerated or provided for in this act, thirty per centum ad valorem.

DECISIONS UNDER PARAGRAPH 215, ACT OF 1897.

D. 28247, G. A. 6618.

(*i*) The provision for "evergreen seedlings" in this paragraph is not restricted to such evergreen plants as the conifers and box, but applies to seedlings of all plants which are "evergreen"—that is, which retain their greenness or verdure throughout the year—as distinguished from those which are deciduous, or which lose their foliage every year; and it is sufficient if a plant fall within the general class of evergreens, irrespective of the question whether it is hardy in a particular locality or under given climatic conditions. Seedlings of the plants known as Aucuba japonica, or Japanese laurel, Rhododendron ponticum, a species of rhododendron, and Kalmia latifolia, or American laurel, all of which are shown to be evergreens, though perhaps not all hardy in every part of the United States, are dutiable as "evergreen seedlings" under this paragraph and not as nursery stock.—United States *v.* Ouwerkerk (153 Fed. Rep., 916; T. D. 28183), affirming without opinion T. D. 26772, G. A. 6169.

(*j*) Rose cuttings which have been put in sand in preparation for shipment, but have never in fact been in soil, are not dutiable as rose plants, but as cuttings of plants, commonly known as nursery or greenhouse stock.—United States *v.* American Express Company (T. D. 28206).

(*l*) Seed of the date palm are dutiable as seed not otherwise provided for and not free under paragraph 622 as palm nuts.—T. D. 21544, G. A. 4534.

(*m*) The seed of the sand or winter vetch is an agricultural seed dutiable as seeds not specially provided for and not free under paragraph 656 as grass seed.—T. D. 21762, G. A. 4602.

(*a*) Linseed containing clay, sand, and gravel and other like impurities should be assessed for 56 pounds of clean seed or seed freed from any accidental impurities.—T. D. 16350, G. A. 3179.

(*b*) R. S. 2898, prohibiting the allowance of draught in assessing duties, does not forbid deductions for impurities, and a deduction should be made for dirt and similar impurities contained in linseed or flaxseed.—Wright and Lawther Lead Co. *v.* Seeberger (C. C.), (44 Fed. Rep., 258).

(*c*) Invoices of flaxseed showed the gross weight and a tare of 5 pounds per bag and a deduction of 4 per cent for impurities, composed of clay, sand, and gravel. The collector deducted the tare, which was the weight of the bags, but refused to allow for impurities, assessing a duty of 20 cents a bushel of 56 pounds upon the gross weight, less the tare. The case turned upon the meaning of the word draught, in R. S. 2898, the Government claiming that it is a misspelling of the word "draft." The court sees no good reason for this view. The word refers to arbitrary deductions and not to impurities, and the importer is entitled to an allowance for impurities.—Seeberger *v.* Wright & Lawther Co. (157 U. S., 183).

(*d*) Sesame seed, although removed from its shell, is dutiable as an oil seed and not as a nonenumerated article.—T. D. 22435, G. A. 4748.

(*m*) Canary seed, though botanically a grass seed, is not commercially known as such, but is used principally as a bird food, and is not free of duty as grass seed. The presence of the term "canary" seed in the free list of the tariff act of 1894 and its omission from the corresponding provision of the act of 1897 must be taken as indicative of the intention of Congress to subject it to duty. It is dutiable under the provision for "seeds of all kinds not specially enumerated."—Nordlinger *v.* United States (127 Fed. Rep., 683; T. D. 24976), reversing 119 Fed. Rep., 478, and T. DECISIONS UNDER PARAGRAPH 261, ACT OF 1897:

(*a*) Fish skinned or boned are dutiable at 1½ cents per pound and not at 1 cent per pound under paragraph 259 as fresh-water fish.—T. D. 18607, G. A. 4005; Lake Ontario Fish Co. *v.* United States (C. C.), (99 Fed. Rep., 551).

(*b*) Although paragraph 259 covers fresh-water fish not specially provided for, yet where such fish are skinned they fall within the purview of this paragraph.—T. D. 23196, G. A. 4972.

(*c*) The eastern brook trout, brook trout, or speckled trout (Salvelinus fontinalis), claimed to be fresh-water fish, is dutiable under this paragraph unless the importer produces affirmative evidence that it is of the nonmigratory variety and is caught in fresh water.—T. D. 23722, G. A. 5138.

(*d*) Halibut boned and salted is dutiable as halibut salted and not as fish boned, the provision for halibut salted, by name, being the narrower and more specific.—T. D. 24688, G. A. 5430.

(*e*) Fresh frozen fish in packages containing less than one-half barrel are dutiable either under this provision or under paragraph 258, according to which of the two rates is the higher.—T. D. 24848, G. A. 5514.

(*f*) The weight of the brine in which salt or pickled fish in barrels is immersed is not part of the dutiable weight of the fish. Said dutiable weight is the actual weight of the fish including whatever brine may cling to it or may have been absorbed by it.—T. D. 25409, G. A. 5717.

(*g*) The provision herein for mackerel, halibut, and salmon, eo nomine, covers such fish only when fresh, pickled, or salted. If in any other condition they are dutiable either at three-fourths of 1 cent per pound under the first clause of this paragraph or at 30 per cent under paragraph 258, according to which is the higher rate.—T. D. 25430, G. A. 5727.

(*h*) Herring caught in Newfoundland waters in cold weather and naturally frozen are not dutiable as frozen fish under this paragraph, but as fresh herring under paragraph 260.—T. D. 26217, G. A. 5992.

(*i*) So-called cream of codfish, being the flesh of codfish shredded, the skin and bones entirely removed, packed in wooden boxes, is dutiable as fish skinned and boned and not as fish in packages containing less than one-half barrel.—Teed *v.* United States (126 Fed Rep., 447; T. D. 25137), reversing T. D. 23697, G. A. 5130, followed; T. D. 24916, G. A. 5546.

(*j*) Mackerel, salmon, and halibut preserved by being frozen or by being packed in ice are not dutiable under the eo nomine provision for these fish when fresh, pickled, or salted, but fall within the first subdivision of this paragraph. T. D. 26646, G. A. 6127, overruled.—T. D. 26856, G. A. 6208.

(*k*) The provision for "fish in packages containing less than one-half barrel and not specially provided for" is more specific than the provision for "fish, fresh, * * * frozen, packed in ice, or otherwise prepared for preservation, not specially provided for."—Loggie *v.* United States (137 Fed Rep., 813; T. D. 26340).

DECISIONS UNDER THE ACT OF 1894.

(*d*) Under the rule of construction requiring each part of a law to be made effective if possible, paragraph 481, act of 1894, is generic and this paragraph exceptional and specific; consequently salt-water fish, fresh and packed in ice, is dutiable under this paragraph and not free under paragraph 481. Affirming T. D. 15698, G. A. 2879 and 70 Fed. Rep., 775.—De Long *v.* United States (C. C. A.), (76 Fed. Rep., 453).

DECISIONS UNDER THE ACT OF 1890.

Rep., 686).

(*l*) Dry salted codfish never pickled, imported in 1888 in dry flour or sugar barrels incapable of containing liquids, were dutiable as fish not specially enumerated and not as foreign caught fish. But as the protest was not sufficient to notify the collector of the claim the judgment below is reversed and a judgment ordered for the defendant.—Presson *v.* Russell (152 U. S., 577).

(*m*) Anchovy paste and bloater paste, made of anchovies or bloaters ground up fine and spiced, used as food or as an appetizer, in sandwiches or with a cracker, and not used as a condiment nor known in trade and commerce as sauces, may be found by a jury to come within the description of "fish, prepared or preserved," and subject to a duty as such, and not within the description of "sauces of all kinds."—Bogle *v.* Magone (152 U. (*c*) Chinese longans, nuts in every respect similar to but smaller than the Chinese lichi and consisting of a smooth round seed surrounded by a pulpy edible substance, which in turn is surrounded by a thin warty shell, when dried in the condition as they come from the tree are dutiable under paragraph 272 as "nuts unshelled, not specially provided for." When this pulpy edible substance is taken from the nut, so that the latter loses its identity as such, dried, and pressed into cakes of about one-half pound or other weight, this merchandise is dutiable as edible fruit dried.—United States *v.* Wing Wo Chong (98 Fed Rep., 602), reversing 91 Fed. D. 26510, G. A. 6078.

(*h*) Cranberries which after being placed in barrels for shipment are reduced to a pulpy condition by having boiling water poured over them are dutiable as cranberries and not as fruits preserved in their own juice.—T. D. 26932, G. A. 6238.

(*i*) Foxberries imported in barrels filled with water, dutiable under the provisions of this paragraph at 1 cent per quart, are to be measured upon the basis of the quart dry measure and not the quart liquid measure. The water in which the berries are immersed serves only as a packing to protect the berries against injury and should be disregarded in the assessment of duties, which should be taken only on the actual quantity of the berries.—United States *v.* Boak (146 Fed. Rep., 104; T. D. 27364), affirming G. A. 6080; T. D. 26512, followed; T. D. 27474, G. A. 6395.

(*f*) Foxberries imported in barrels containiug water are dutiable as "berries, edible, in their natural condition," the water being merely a cushion to protect them from injury and not a preservative.—Boak *v.* United States (125 Fed. Rep., 599; T. D. 24887), affirming T. D. 23731, G. A. 5142.

(*c*) Pears in a whole state as picked from the tree, with skin and stems intact, packed in a barrel in water containing ninety-six ten thousandths of 1 per cent of salt, are dutiable under the provision for pears, green or ripe, and are not free of duty as fruits in brine. Water with this slight percentage of salt is not brine.—T. D. 26029, G. A. 5917.

(*d*) Cherries in casks in water containing four-tenths of 1 per cent or less of salt, the pits having been removed from the cherries and the fruit exposed to sulphur fumes for the purpose of bleaching and preserving it, are not dutiable as fruits preserved in their own juices, but fall within the provision for edible fruits prepared in any manner.—Causse *v.* United States (151 Fed. DECISIONS UNDER PARAGRAPH 263, ACT OF 1897.

(*g*) The words "fruits preserved in spirits" had no technical or commercial meaning different from their ordinary or popular meaning on and prior to July 24, 1897, but meant simply fruits placed in spirits for the purpose of preservation or resisting fermentation.—T. D. 20212, G. A. 4296; T. D. 21428, G. A. 4503; T. D. 22039, G. A. 4663.

(*a*) The rule of noscitur a sociis is not applicable to this paragraph so as to confine the expression "fruits preserved in spirits" to such as are strictly edible.—T. D. 20212, G. A. 4296; affirmed, Voight *v.* Mihalovitch (125 Fed. Rep., 78; T. D. 25092).

(*b*) On an importation of wild red cherries from Germany in casks, surrounded by a supernatant fluid containing from about 15 to 22 per cent in volume of alcohol or spirits. *Held*, that the merchandise was not the cherry juice of commerce, but an article from which the commercial cherry juice is taken by a special process of manufacture. *Held, also*, that the alcohol was for the purpose of resisting fermentation or decay, and that the goods should not be classified as cherry juice, by similitude, under paragraph 299, because specially enumerated in this paragraph as "fruits preserved in spirits * * * containing over 10 per cent of alcohol."—T. D. 20212, G. A. 4296; T. D. 22039, G. A. 4663.

(*c*) The provision for $2.50 per proof gallon on the alcohol "contained therein in excess of ten per cent" makes dutiable all such excess, whether found in the preserving liquid or in the fruit.—T. D. 20761, G. A. 4368.

(*d*) The President's proclamation of May 30, 1898, concerning reciprocity with France can not be construed to include alcohol in which cherries are preserved.—T. D. 20761, G. A. 4368; reversed in effect by La Manna *v.* U. S. (144 Fed. Rep., 683; T. D. 27069).

(*e*) Orange pulp made from oranges peeled and crushed and otherwise reduced to a pulp and packed in tin cans, without sugar or saccharine, is dutiable as fruit in its own juice. T. D. 19096, G. A. 4095; reversed.—T. D. 22436, G. A. 4749.

(*f*) Blueberries in cans and preserved in their own juices are dutiable as fruits preserved in their own juices and not under paragraph 262 as edible fruits, including berries, etc.—T. D. 22545, G. A. 4782.

(*g*) Plum sauce, a Chinese preparation consisting of fruits preserved in their own juices, with leaves, spices, organic acids, common salt, etc., are dutiable as fruits preserved in their own juices and not under paragraph 241 as vegetables prepared or preserved.—T. D. 23075, G. A. 4931.

(*h*) Figs preserved in sugar, molasses, spirits, or in their own juices, known as "figues au jus," "figues vert au jus," and as "figues au marasquin," but not containing over 10 per cent of alcohol, are dutiable at 1 cent per pound and 35 per cent and not under paragraph 264 as figs. T. D. 23130, G. A. 4946, affirmed; 126 Fed. Rep., 578; T. D. 25049, reversed.—U. S. *v.* Reiss (136 Fed. Rep., 741; T. D. 25946).

(*i*) Figs preserved in spirits, described as "figues vertes a l'eau de vie," and containing over 10 per cent of alcohol are dutiable at 35 per cent and $2.50 per proof gallon on the alcohol in excess of 10 per cent and not under paragraph 264 as figs.—Ibid.

(*j*) Chutneys, consisting of fruits preserved in their own juices, with spices, etc., are dutiable as fruits preserved in their own juices and not under paragraph 241 as vegetables prepared or preserved. See Bogle *v.* Magone (152 U. S., 623); in re Johnson (56 Fed. Rep., 822).—T. D. 23233, G. A. 4979.

(*k*) An importation of six barrels of cherries and six barrels of cherry sirup, consisting of cherry juice with sugar added and subjected to a process of heating, was classified as an entirety under paragraph 299 as cherry juice. *Held*, that the classification was in error and that the cherries and sirup were separately dutiable, the sirup as a nonenumerated manufactured article at 20 per cent ad valorem under section 6 and the cherries as fruits preserved in sugar.—T. D. 23404, G. A. 5041

(*a*) Chinese cucumbers imported in a prepared or preserved state are not sweetmeats.—T. D. 23728, G. A. 5139.

(*b*) The so-called "confitures de bar-le-duc," known commonly as bar-le-duc jelly, consisting of currants from which the seeds have been extracted, and which has been boiled down to a sticky mass, in which, however, the fruit retains to a considerable degree its original shape, is dutiable under the provision in this paragraph for "jellies of all kinds," at the rate of 35 per cent ad valorem and not as "comfits, sweetmeats, and fruits preserved in sugar, * * * not specially provided for," at the rate of 1 cent per pound and 35 per cent ad valorem.—United States *v.* Godillot (C. C., S. D., N. Y., May 13, 1902; no opinion; not reported), affirming T. D. 20045, G. A. 4267, followed; T. D. 23848, G. A. 5167.

(*c*) Preserved pineapples containing only about 7 per cent of invert sugar and less than 1 per cent of cane sugar are not dutiable as fruits preserved in sugar, but as pineapples preserved in their own juice.—T. D. 23964, G. A. 5199.

(*d*) Raspberry pulp consisting of crushed raspberries containing no preservative other than their own juice is dutiable as fruit preserved in its own juice and not as fruit juice under paragraph 299, nor as edible fruits when dried, desiccated, evaporated, or prepared in any manner, under paragraph 262. A commodity may be designated as fruit preserved or prepared notwithstanding it has lost its original form. The juice of the fruit is nothing but the sap obtained by expression. The provision in paragraph 262 for "edible fruits, including berries, when dried, desiccated, evaporated or prepared in any manner," is restricted by the doctrine of ejusdem generis to fruits which have been prepared by similar processes to those enumerated.—United States *v.* Rosenstein (90 Fed. Rep., 801); Smith *v.* Rheinstrom (65 Fed. Rep., 984); T. D. 22436, G. A. 4749; T. D. 22545, G. A. 4782, followed; T. D. 23987, G. A. 5205.

(*e*) An importation of pineapples was made in five lots, covered by one invoice, some of which were described as sliced pineapples, others as grated, all being stated to be pineapples preserved in their own juice and all being invoiced at the average price of 6 shillings per case. The various lots were appraised at different values, and the collector applied section 2910 of the Revised Statutes and assessed duty on the whole importation at the rate to which the highest valued goods on the invoice were subject. *Held*, that section 2910 was not applicable.—T. D. 24781, G. A. 5473.

(*f*) Date paste or dough, consisting of the pulp of the date prepared by removing the stones and putting the fruit through a chopper, is dutiable under the provision for comfits, sweetmeats, and fruits preserved in their own juice.—T. D. 24806, G. A. 5490.

(*g*) Prunes boiled in water and pressed through a sieve, without the addition of sugar or any other material, are dutiable as fruits preserved in their own juices.—United States *v.* Rosenstein (90 Fed. Rep., 801) affirming T. D. 3661, followed; T. D. 25174, G. A. 5635.

(*h*) Jams and marmalades prepared from various fruits are dutiable as fruits preserved in their own juices and not under the eo nomine provisions for the fruits from which they are made mentioned in paragraphs 262, 264, and 266.—T. D. 26069, G. A. 5935.

(*i*) Figs preserved in spirits are dutiable as fruits preserved in spirits and not under the provision for figs in paragraph 264, which expression is construed to apply to dry figs only. A provision for a class of goods which includes an article may be more specific than an eo nomine provision for such article.—United States *v.* Reiss (136 Fed. Rep., 741; T. D. 25946), reversing 126 id., 578;

T. D. 25049, and affirming T. D. 23130, G. A. 4946, followed; T. D. 26092, G. A. 5945.

(*c*) The duty imposed herein on all alcohol in excess of 10 per cent is to be assessed on all such excess, whether the alcohol is absorbed by the fruit or is surrounding it.—Rheinstrom *v.* United States (118 Fed. Rep., 303), affirming T. D. 20761, G. A. 4368, followed; T. D. 24653, G. A. 5414.

(*d*) Broken marrons or chestnuts in sirup held to be dutiable by similitude as nuts and not as comfits or sweetmeats.—T. D. 25084, G. A. 5603.

(*e*) In ascertaining the dutiable weight of fruits preserved in their own juices no allowance can be made for the liquid in which the fruits are preserved.—T. D. 27058, G. A. 6276.

(*f*) The excess of alcohol over 10 per cent contained in fruits preserved in spirits is entitled to the benefit of the reduced rate of duty provided for in the reciprocity agreement with France.—La Manna *v.* United States (144 Fed. Rep., 683; T. D. 27069), reversing La Manna *v.* United States (T. D. 25920), followed; T. D. 27256, G. A. 6331.

(*g*) Cherries in maraschino containing a substantial quantity of brandy or other spirits are dutiable as fruits preserved in spirits. This phrase is not a commercial or technical phrase, but is to be taken in its ordinary signification.—Delapenha *v.* United States (suit 2984, T. D. 27397), affirming by consent T. D. 21428, G. A. 4503, followed; T. D. 27585, G. A. 6430.

(*h*) Cherries contained in a solution of sugar and water flavored with the pits of maraschino cherries are dutiable as fruits preserved in sugar. The word "sugar" in this paragraph has the same signification as the word "syrup" in the corresponding paragraphs of the tariff acts of 1890 and 1894. Where the amount of alcohol contained in the maraschino is less than 1 per cent, the goods are simply regarded as cherries preserved in sugar; but where there is a substantial amount of alcohol contained in the solution the merchandise would be more properly classified as fruits preserved in spirits under the same paragraph.—T. D. 27690, G. A. 6473.

(*i*) The term "green olives" herein relates only to unripe olives. Olives immersed in brine for purposes of temporary preservation, but without further treatment, are not prepared within the meaning of this paragraph, and black or ripe olives imported in barrels in brine are not dutiable hereunder, but are free as fruits in brine under paragraph 559.—T. D. 27793, G. A. 6505.

(*j*) The provision in this paragraph for "comfits, sweetmeats, and fruits preserved in sugar, molasses, spirits, or in their own juices" is intended to apply to fruits treated so as to become a preserve or comfit and which are commercially known and dealt in as preserved fruits. Blueberries partially cooked in water without sugar, and which are not a preserve or comfit in their imported condition, are not dutiable hereunder, but as edible fruits, including berries prepared in any manner under paragraph 262.—T. D. 27795, G. A. 6507.

(*k*) Pineapples preserved in cans in their own juice, containing total sugar ranging in quantity from 7½ per cent to 18 per cent, are dutiable as pineapples preserved in their own juice and not as fruits preserved in sugar. The sugar

contained in such pineapples seems to be used for flavoring the fruit rather than for its preservation.—United States *v.* Johuson (152 Fed. Rep., 164; T. D. 27830), affirming 143 Fed. Rep., 915; T. D. 26941, which had reversed T. D. 24494, G. A. 5352; Dudley *v.* United States (153 Fed. Rep., 881; T. D. 28052), reversing 148 Fed. Rep., 333; T. D. 27516, which had affirmed T. D. 25577, G. A. 5787, and United States *v.* Boden (133 Fed. Rep., 839; T. D. 25945) followed; T. D. 28245, G. A. 6616.

(*a*) Marrons in sirup, consisting of chestnuts boiled and immersed in a sirup consisting of water, sugar, and vanilla flavoring, are no longer nuts for tariff purposes and are dutiable under the provision for comfits.—Schall *v.* United States (154 Fed. Rep., 1005; T. D. 27985), affirming 147 id., 760; T. D. 27447, reversing T. D. 26007, G. A. 5908, and in effect overruling T. D. 25084, G. A. 5603.

(*b*) Cherries in casks in water containing four-tenths of 1 per cent or less of salt, the pits having been removed from the cherries and the fruit exposed to sulphur fumes for the purpose of bleaching and preserving it, are not dutiable as fruits preserved in their own juices, but fall within the provision for edible fruits prepared in any manner.—Causse *v.* United States (151 Fed. Rep., 4; T. D. 27751), modifying 143 id., 690; T. D. 26971, and T. D. 26029, G. A. 5917.

(*c*) The provision in this paragraph relative to comfits, sweetmeats, and fruits preserved in sugar, molasses, spirits, or in their own juices is intended to apply to fruits which have been "preserved," that is, treated so as to become a preserve or comfit, and not to such as merely remain temporarily in their natural juices.—Ibid.

(*d*) It is essential to the admission of testimony as to trade meaning that such meaning should differ from the ordinary dictionary meaning.—United States *v.* Nordlinger (121 Fed. Rep., 690).

(*e*) Where the evidence as to a particular term having a trade meaning, and as to such meaning, and whether it differed from the ordinary meaning, is conflicting, there is a failure to show a "definite, uniform and general" trade understanding, and the term will be interpreted according to its ordinary meaning.—Ibid.

(*f*) Marmalade, a product made from the bitter orange, including the juice, ground skin, and pulp of the orange, with sugar added, and so-called berry jams, are dutiable under the provision for comfits, sweetmeats, and fruits preserved in sugar and not as jellies.—T. D. 28428, G. A. 6668.

(*g*) The phrase "fruits preserved in sugar," used in this paragraph, was intended by Congress to apply to fruits which have been "preserved," that is, treated so as to become a preserve or comfit, and not to such as merely remain temporarily in their own juice, which may contain sugar. Pineapples containing variously from 20.83 to 33.33 per cent of sugar, an indeterminate portion of which was added for the purpose of flavoring the fruit and not to make a preserve or comfit, are dutiable under this paragraph as "pineapples preserved in their own juice" and not as fruits preserved in sugar. Authorities reviewed.—T. D. 28574, G. A. 6684.

DECISIONS UNDER THE ACT OF 1894.

(*h*) Candied apples are dutiable as fruits preserved in sugar and not as apples dried, desiccated, evaporated, etc.—T. D. 15811, G. A. 2911.

(*i*) Bigareaux au Suc de Marasquin, cherries in bottles preserved in a syrup composed of sugar and fruit juice, is dutiable as fruits preserved in

syrup and not by similitude as fruits preserved in their own juices nor as a nonenumerated article.—T. D. 16964, G. A. 3392.

(*a*) Ginger root preserved in a sweet, spiced fluid is dutiable as sweetmeats and not as a drug, nor as a medicinal preparation, nor as ground spices, nor free as a root.—T. D. 17434, G. A. 3608.

(*b*) Prunes boiled in water, pressed through a colander, without the addition of sugar or any other material, which article is not a "jelly" in the common meaning of that term nor commercially known as jelly, are dutiable as fruits preserved in their own juices and not as jelly.—T. D. 17570, G. A. 3661; United States *v.* Rosenstein (C. C.), (90 Fed. Rep., 801).

(*c*) Prune butter, known also as prune marmalade, crushed prunes, or "pflaumenmus," and sometimes as prune jelly, prepared by boiling prunes in water, pressing them through a sieve, concentrating by evaporation, nothing but water being added during the process, is dutiable as "fruits preserved in their own juices" and not as jellies.—T. D. 20701, G. A. 4357.

(*d*) Dried citron preserved in sugar held to be dutiable as fruits preserved in sugar and not free as dried fruit. Fruits preserved in sugar is a narrower term than dried fruit.—United States *v.* Nordlinger (121 Fed. Rep., 690) followed; T. D. 24965, G. A. 5562.

(*e*) Cherries in maraschino, having been omitted from the articles enumerated in this paragraph, were relegated to the provision for unenumerated manufactured articles.—United States *v.* Reiss (142 Fed. Rep., 1039; T. D. 27119), affirming 135 id., 248; T. D. 25789, and in effect overruling T. D. 16964, G. A. 3392.

(*f*) There is no provision in this paragraph for fruits in spirits, and such goods are consequently dutiable as unenumerated manufactured articles.—T. D. 27276, G. A. 6334.

DECISIONS UNDER THE ACT OF 1890.

(*g*) Stuffed dates are sweetmeats.—T. D. 12547, G. A. 1231.

(*h*) Candied dates are sweetmeats.—T. D. 12668, G. A. 1317.

(*i*) Candied citron is fruit preserved in sugar.—T. D. 10874, G. A. 369.

(*j*) Brandy peaches in bottles should be assessed for duty on the value of the bottles added to the value of the contents, and under paragraph 104 (1890) the duty on the bottles must not be less than 40 per cent.—T. D. 10909, G. A. 404.

(*k*) Lemon creams, vanilla creams, and orange creams held dutiable by similitude as jellies.—T. D. 13233, G. A. 1654.

(*l*) Watermelons prepared or preserved in soy or sirup are preserved fruit.—T. D. 13207, G. A. 1628.

(*m*) Pineapples peeled, sliced, and placed in cans filled with cold water and hermetically sealed, their juices permeating the water, are "fruits preserved in their own juices" and are free as fruits green, ripe, or dried.—T. D. 12725, G. A. 1374; T. D. 12820, G. A. 1416; T. D. 13767, G. A. 1961; T. D. 16852, G. A. 3371; Johnson *v.* United States (C. C.), (66 Fed. Rep., 725).

(*n*) Dried citron preserved in sugar held to be dutiable as fruits preserved in sugar and not free as dried fruit. Fruits preserved in sugar is a narrower term than dried fruit.—United States *v.* Nordlinger (121 Fed. Rep., 690) followed; T. D. 24965, G. A. 5562.

DECISIONS UNDER THE ACT OF 1883.

(*a*) Candied citron, lemon, and lemon peel are dutiable as fruits preserved in sugar.—T. D. 10401, G. A. 92.

(*b*) Proof that foreign fruits preserved in sugar, sirup, and molasses, which come in as articles of importation and which plaintiff has dealt in, come generally in air-tight packages and that certain dealers in dried fruits do not handle fruits preserved in sugar in air-tight packages is not sufficient to establish the trade meaning of the term "fruits preserved in sugar."—Levy *v.* Robertson (C. C.), (38 Fed. Rep., 714).

(*c*) Candied citron, i. e., citron boiled in sugar and dried, is dutiable as fruits preserved in sugar and not free as fruit green, ripe, or dried. Levy *v.* Robertson (C. C.), (38 Fed. Rep., 714); Hills *v.* Erhardt (C. C.), (59 Fed. Rep. 768).

(*d*) Dried citron preserved in sugar held to be dutiable as fruits preserved in sugar and not free as dried fruit. Fruits preserved in sugar is a narrower term than dried fruit.—United States *v.* Nordlinger (121 Fed. Rep., 690) followed; T. D. 24965, G. A. 5562.

DECISIONS UNDER PARAGRAPH 264, ACT OF 1897.

(*e*) Olives. No restriction as to size of jars.—T. D. 19625, G. A. 4207.

(*f*) Large prunes with pits removed, stuffed with small prunes, are dutiable as prunes, and not as sweetmeats.—T. D. 21594, G. A. 4554.

(*g*) Currants in an uncleaned condition are dutiable according to their weight as imported, without deduction for impurities contained therein.—T. D. 22005, G. A. 4655.

(*h*) Currants as imported and dealt in at and prior to the passage of this act, contained dirt and other impurities, the amount thereof varying greatly according to the proximity of the vines to the roadsides, the amount of rainfall during the season, and the care with which the currants were prepared for the market. The term "currants" as used in commerce at and prior to the passage of this act, signified currants in an uncleaned condition, and there was no custom of trade making an allowance for impurities. Ibid.

(*a*) At the present time about 90 per cent of all the currants imported are in the uncleaned condition, the impurities therein contained are not plainly discoverable or readily eliminated, and there is no practicable method of approximating the amount thereof without subjecting the currants to a complicated process of cleaning, and no practicable way by which the amount of such impurities can be ascertained.—Ibid.

(*b*) Olives in tin cans holding from 5 to 15 gallons are dutiable as olives in casks or otherwise than in bottles, jars, or smaller packages. Such tin cans held not to be "similar packages" to bottles or jars.—T. D. 24733, G. A. 5448.

(*c*) Date paste or dough consisting of the pulp of the date prepared by removing the stones and putting the fruit through a chopper is not dutiable as dates.—T. D. 24806, G. A. 5490.

(*d*) Jams and marmalades prepared from the fruits mentioned herein are not dutiable under this paragraph, but as fruits preserved in sugar, etc., under paragraph 263.—T. D. 26069, G. A. 5935.

(*e*) The provision for figs herein applies only to dry figs, and figs preserved in spirits are dutiable under paragraph 263.—United States *v.* Reiss (136 Fed. Rep., 741; T. D. 25946), reversing 126 id., 578; T. D. 25049, and affirming T. D. 23130, G. A. 4946, followed; T. D. 26092, G. A. 5945.

(*f*) Stuffed olives are dutiable under the provision for olives green or prepared.—T. D. 26921, G. A. 6235.

(*g*) Currants are dutiable on the gross weight thereof and no allowance is to be made for dirt or other impurities said to be contained therein.—United States *v.* Reid (120 Fed. Rep., 242), reversing the Circuit Court and affirming a Board decision that followed T. D. 22005, G. A. 4655, followed; T. D. 24645, G. A. 5413.

(*h*) In measuring dried olives for the purpose of assessing duty per gallon the merchandise should be gauged upon the basis of the wine gallon of 231 cubic inches capacity and not the dry gallon of 268¾ cubic inches capacity.—Lee Tai Lung *v.* United States (146 Fed Rep., 380; T. D. 27264), affirming T. D. 27001 and T. D. 26888, G. A. 6221.

(*i*) In measuring olives in brine for the purpose of assessing duty per gallon the merchandise should be gauged upon the basis of the wine gallon of 231 cubic inches capacity and not the dry gallon of 268¾ cubic inches capacity.—Ceballos *v.* United States (146 Fed. Rep., 380; T. D. 27264), affirming 139 Fed. Rep., 705; T. D. 25879, and T. D. 25359, G. A. 5701.

(*j*) Olives in brine contained in small kegs of less than 1 gallon each are dutiable under the provision for olives in bottles, jars, or similar packages and not under that for olives in casks or otherwise than in bottles, jars, or similar packages. The distinction between the containers seems to have reference to the size rather than to the nature of the packages. That is to say, the provision for olives "in bottles, jars, or similar packages" embraces goods in small packages for retail consumption, while that for olives "in casks or otherwise than in bottles, jars, or similar packages" relates to goods in bulk which require repacking before being sold for the retail trade. The meaning of cask and keg discussed.—Lomba et al. *v.* United States (T. D. 27707), affirming T. D. 26476, G. A. 6068.

DECISIONS UNDER THE ACT OF 1894.

(*k*) Zante currants as used in this paragraph applies to the small seedless raisins grown on the mainland of Greece, in the Archipelago, and other

places in the Levant, and is not confined to those raised only in the island of Zante. The use by Congress of the capital letter "Z" in the word Zante is of no significance in the construction, since grammatical propriety alone requires it.—In re Wise (C. C.), (73 Fed. Rep., 183).

(*a*) Dried currants, so called, from the Levautine, which are known to the trade by some thirty different names, indicating the islands or localities where grown, and which, although in fact raisins made from a small grape, constitute the only currants known commercially or imported, are, except those grown on the island of Zante, free, under paragraph 489 (1894), as dried fruit, and not dutiable under this paragraph as raisins.—Hills Bros. Co. *v.* United States (C. C. A.), (99 Fed. Rep., 264).

DECISIONS UNDER THE ACT OF 1890.

(*b*) Denia raisins found to exceed 28 pounds to the box, and though it is the trade custom to accept such raisins as weighing 28 pounds, duty must be assessed at the actual weight.—T. D. 14624, G. A. 2382.

1897 **265.** Grapes in barrels or other packages, twenty cents per cubic foot of capacity of barrels or packages.

1894 214. Grapes, twenty per centum ad valorem.

1890 299. Grapes, sixty cents per barrel of three cubic feet capacity or fractional part thereof; plums, and prunes, two cents per pound.

1883 299. * * * grapes, twenty per centum ad valorem.

DECISIONS UNDER PARAGRAPH 265, ACT OF 1897.

(*c*) Where grapes have been imported in barrels, and the protest alleges that the collector has assessed duty upon an erroneous and excessive ascertainment or estimate of the capacity of the barrels, the question raised is one relating to the amount of duty on imported merchandise, and so within the jurisdiction of the Board. This is particularly true where it appears that the ascertainment of capacity was not made by the surveyor or other officer authorized by law to measure packages.—T. D. 22767, G. A. 4857.

(*d*) The capacity of certain barrels containing Almeria grapes, and known as "25 kilo" barrels, found not to exceed 2 cubic feet.—Id.

(*e*) So-called "25-kilo" barrels containing Almeria grapes found to be of an average capacity of 2 cubic feet each.—United States *v.* Bonanno (U. S. C. C., S. D., N. Y., suit 3168, not reported) followed; T. D. 23602, G. A. 5101.

DECISIONS UNDER THE ACT OF 1890.

(*f*) Grapes in half barrels are dutiable at 60 cents per barrel on the number of barrels of 3 feet cubic capacity and the fractional part remaining and not at 60 cents per half barrel.—T. D. 10741, G. A. 294.

(*g*) Duty assessed on grapes imported in barrels without any allowance for the cork dust and sawdust, which constituted nearly one-half of the cubic contents of the barrel. The grapes are always sold in this market by the barrel, in the condition as imported, and the weight on the trade catalogue includes barrel, cork dust, and grapes. Tare must be allowed for packing material beyond that which occupies the interstices between the grapes or bunches. The collector is not authorized to take duty upon the cork dust and sawdust. Sustaining T. D. 14852, G. A. 2535.—United States *v.* Mayer (C. C.), (66 Fed. Rep., 719); reversed by the Circuit Court of Appeals (71 Fed. Rep., 501).

(*a*) Grapes in boxes are dutiable and not free as fruit not specially provided for. The term "barrel" refers to the standard of measurement and not to the form of the package.—T. D. 13989, G. A. 2094.

1897 **266.** Oranges, lemons, limes, grape fruit, shaddocks or pomelos, one cent per pound.

1894 216. Oranges, lemons, and limes, in packages, at the rate of eight cents per cubic foot of capacity; in bulk, one dollar and fifty cents per one thousand; * * *

1890 301. Oranges, lemons, and limes, in packages of capacity of one and one-fourth cubic feet or less, thirteen cents per package; in packages of capacity exceeding one and one-fourth cubic feet and not exceeding two and one-half cubic feet, twenty-five cents per package; in packages of capacity exceeding two and one-half cubic feet and not exceeding five cubic feet, fifty cents per package; in packages of capacity exceeding five cubic feet, for every additional cubic foot or fractional part thereof, ten cents; in bulk, one dollar and fifty cents per one thousand; * * *

1883 296. Oranges, in boxes of capacity not exceeding two and one-half cubic feet, twenty-five cents per box; in one-half boxes, capacity not exceeding one and one-fourth cubic feet, thirteen cents per half box; in bulk, one dollar and sixty cents per thousand; in barrels, capacity not exceeding that of the one hundred and ninety-six pound flour-barrel, fifty-five cents per barrel.

297. Lemons, in boxes of capacity not exceeding two and one-half cubic feet, thirty cents per box; in one-half boxes, capacity not exceeding one and one-fourth cubic feet, sixteen cents per half box; in bulk, two dollars per thousand.

298. Lemons and oranges, in packages, not specially enumerated or provided for in this act, twenty per centum ad valorem.

DECISIONS UNDER PARAGRAPH 266, ACT OF 1897.

(*b*) Bitter oranges peeled and sliced and put up in tins in their own juice dutiable as oranges.—T. D. 19096, G. A. 4095; reversed, T. D. 22436, G. A. 4749.

(*c*) Limes in brine are not dutiable under this paragraph, but are free as fruits in brine under paragraph 559.—Brennan *v.* United States (136 Fed. Rep., 743; T. D. 26317), reversing 129 id., 837; T. D. 25274 and T. D. 24320, G. A. 5307, and in effect overruling Roche *v.* United States (116 Fed. Rep., 911).

(*d*) Wherever in the history of customs laws it is found that a certain expression has received in effect a statutory construction or a long and uniform use by Congress or by the Departments that construction is controlling unless some other is necessary.—Ibid.

(*e*) It may be that an article is properly dutiable under a designation of a class, although literally it is included in within an eo nomine designation in some other paragraph. The relations of the article to such class may have the effect of making the class designation the more specific.—Ibid.

(*f*) Oranges and lemons cut in two and immersed in brine and which arrived with the pulp in an inedible state and more or less separated from the peel are not dutiable as oranges and lemons, but are free as fruits in brine.—Hills *v.* United States (123 Fed. Rep., 477), reversing 113 Fed Rep., 857; and T. D. 21919, G. A. 4632, followed; T. D. 24567, G. A. 5379.

(*g*) The citrus fruit known as chinois, which seems to be a small lime imported in brine, is dutiable under this paragraph.—T. D. 24918, G. A. 5548.

(*h*) Jams and marmalades prepared from the fruits mentioned herein are not dutiable under this paragraph, but as fruits preserved in sugar, etc., under paragraph 263.—T. D. 26069, G. A. 5935.

DECISIONS UNDER THE ACT OF 1894.

(*a*) For many years oranges and lemons have been imported in three different ways: (*a*) In boxes, (*b*) in barrels, (*c*) loosely in vessels or cars without any coverings or packages, the last mentioned being described as in bulk and the first two as in packages.—T. D. 15987, G. A. 3011.

(*b*) Oranges and lemons in boxes, some wrapped separately in paper and some not wrapped but loose in boxes, held dutiable at 8 cents per cubic foot and 30 per cent and not at $1.50 per thousand.—T. D. 15987, G. A. 3011.

(*c*) Fruit known as "tangerines" is but a variety or species of oranges, is properly classified as such, and is not free as fruit not specially provided for.—T. D. 18161, G. A. 3918.

(*d*) Oranges imported from Jamaica in barrels and boxes. Barrels returned by appraiser as containing 5 cubic feet and boxes as 2 cubic feet. Capacity of barrels found to be only 4⅛ cubic feet and reliquidation ordered.—T. D. 17564, G. A. 3655.

(*e*) The Board has made it a practice not to review returns made according to law by the United States weighers, gaugers, or measurers so long as they act strictly within their authority and proceed upon no wrong principle. In this case the calculations were based on estimates of capacity made by the examiners rather than upon ascertainment of capacity based upon accurate measurement of a sufficiently large number of packages. Collector reversed and reliquidation ordered.—T. D. 17564, G. A. 3655.

DECISIONS UNDER THE ACT OF 1890.

(*f*) No allowance for decayed oranges in measurement.—T. D. 11997, G. A. 910.

(*g*) The assessment should be on each package according to its cubic contents, in the proportion of 50 cents for each package of 5 cubic feet and 10 cents for each fractional cubic foot additional.—T. D. 12462, G. A. 1200; T. D. 16306, G. A. 3135.

(*h*) Bitter oranges in barrels dutiable at 50 cents per barrel and the barrels at 30 per cent.—T. D. 13688, G. A. 1926.

(*i*) Lemons imported and the value separately stated, but the cost of boxes, paper, packing, cartage, and shipping specified under the head of charges. The appraiser reported packages as valued at 1 peseta each, but the collector assessed duty on the invoiced price, which included paper, etc. *Held*, that duty should have been assessed on the appraised value of the boxes and not on the cost of the paper, etc.—T. D. 15017, G. A. 2594.

(*j*) The merchandise having gone into consumption, the decision of the collector as to the capacity of lemon boxes is conclusive.—T. D. 11044, G. A. 487.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*k*) The terms "quantity," and "whole quantity," relating to duties on imported fruit, and making an allowance for loss or decay which exceeds 25 per cent of the "quantity," relate to the whole importation of fruit and not to the quantity in each particular package damaged.—Scattergood *v.* Tutton (2 Fed. Rep., 28).

1897 **267.** Orange peel or lemon peel, preserved, candied, or dried, and cocoanut meat or copra desiccated, shredded, cut, or similarly prepared, two cents per pound; citron or citron peel, preserved, candied, or dried, four cents per pound.

1894 220. Orange peel and lemon peel, preserved or candied, thirty per centum ad valorem.
218. * * * prepared or desiccated cocoanut or copra, thirty per centum ad valorem.

1890 305. Orange-peel and lemon-peel, preserved or candied, two cents per pound.

1883 [Not enumerated. Dutiable under paragraph 302, page 33.]

(*a*) Orange peel preserved in brine in casks is dutiable and is not free under paragraph 627.—T. D. 21156, G. A. 4439; in effect reversed in Causse *v.* United States (150 Fed. Rep., 419; T. D. 27513).

(*b*) Oranges and lemons cut in two and immersed in brine and which arrived with the pulp in an inedible state and more or less separated from the peel are not dutiable as orange peel or lemon peel preserved, but are free as fruits in brine.—Hills *v.* United States (123 Fed. Rep., 477), reversing 113 Fed. Rep., 857, and T. D. 21919, G. A. 4632 followed; T. D. 24567, G. A. 5379.

(*c*) Orange and lemon peel immersed in brine for the purpose only of arresting decay during transportation is not dutiable as orange and lemon peel preserved. D. 26384, G. A. 6049, and decision of the Circuit Court of Appeals in the case of Louisville Public Warehouse Company *v.* Surveyor (49 Fed. Rep., 561; 1 C. C. A., 371) followed; T. D. 28178, G. A. 6597.

(*b*) Any such abatement of duty is prohibited by section 2983, Revised Statutes, which was not repealed by section 20, act of June 10, 1890, as amended by the act of December 15, 1902 (32 Stat. L., pt. 1, p. 753).—Ibid.

DECISIONS UNDER THE ACT OF 1894.

(*c*) Three cases of whisky imported, each containing two bottles, each bottle holding 1 gallon. Duty assessed at $1.80 per gallon on 36 gallons under this paragraph and the proviso to paragraph 244. Protest that duty should have been assessed on the actual quantity of liquor or on a quantity not in excess of 2⅝ gallons a case, that being the usual trade quantity. Protest overruled and collector sustained.—T. D. 17487, G. A. 3626.

(*d*) Casks containing about 23 gallons of brandy and the same quantity of cherries imported. The cherries appraised at 36.50 francs and assessed at 30 per cent under paragraph 218. The brandy appraised at 203.20 francs and assessed at $1.80 per gallon. Claimed to be dutiable under paragraph 218 (1894) as an entirety. Protest overruled, but see T. D. 15683, G. A. 2864 and section 3 of this act.—T. D. 17642, G. A. 3690.

DECISIONS UNDER THE ACT OF 1890.

(*e*) Brandies, wines, and other liquors imported and placed in warehouse. Under section 20, act of June 10, 1890, as amended by section 54 of this act, no allowance can be made for evaporation while in bonded warehouse.—T. D. 15400, G. A. 2794.

(*f*) Certain so-called coloring for brandy, containing 37.47 per cent of absolute alcohol, 36.10 per cent of water, 26.39 per cent of organic matter, and 4 per cent of inorganic matter, held dutiable as spirituous beverage and not as coloring for brandy.—T. D. 12723, G. A. 1372.

290. Each and every gauge or wine gallon of measurement shall be counted as at least one proof gallon; and the standard for determining the proof of brandy and other spirits or liquors of any kind imported shall be the same as that which is defined in the laws relating to internal revenue: *Provided*, That it shall be lawful for the Secretary of the Treasury, in his discretion, to authorize the ascertainment of the proof of wines, cordials, or other liquors, by distillation or otherwise, in cases where it is impracticable to ascertain such proof by the means pre-
1897 scribed by existing law or regulations; *And provided further*, That any brandy or other spirituous or distilled liquors imported in any sized cask, bottle, jug, or other package, of or from any country, dependency, or province under whose laws similar sized casks, bottles, jugs, or other packages of distilled spirits, wine, or other beverage put up or filled in the United States are denied entrance into such country, dependency, or province, shall be forfeited to the United States; and any brandy or other spirituous or distilled liquor imported in a cask of less capacity than ten gallons from any country shall be forfeited to the United States.

238. Each and every gauge or wine gallon of measurement shall be counted as at least one proof gallon; and the standard for determining the proof of braudy and other spirits or liquors of any kind imported shall be the same as that which is defined in the laws relating to internal revenue; but any brandy or other spirituous liquors, imported in casks
1894 of less capacity than fourteen gallons, shall be forfeited to the United States: *Provided*, That it shall be lawful for the Secretary of the Treasury, in his discretiou, to authorize the ascertainment of the proof of wines, cordials, or other liquors by distillation or otherwise, in cases where it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.

330. Each and every gauge or wine gallon of measurement shall be counted as at least one proof gallon; and the standard for determining the proof of brandy and other spirits or liquors of any kind imported shall be the same as that which is defined in the laws relating to internal revenue; but any brandy or other spirituous liquors, imported in casks
1890 of less capacity than fourteen gallons, shall be forfeited to the United States: *Provided*, That it shall be lawful for the Secretary of the Treasury, in his discretion, to authorize the ascertainment of the proof of wines, cordials, or other liquors, by distillation or otherwise, in case where it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.

311. * * * each and every gauge or wine gallon of measurement shall be counted as at least one proof gallon; and the standard for determining the proof of brandy and other spirits or liquors of any kind
1883 imported shall be the same as that which is defined in the laws relating to internal revenue; but any brandy or other spirituous liquors imported in casks of less capacity than fourteen gallons shall be forfeited to the United States.

DECISIONS UNDER PARAGRAPH 290, ACT OF 1897.

(*a*) Imported spirituous liquors should be assessed for duty on the basis of their condition at the standard temperature of 60° F., prescribed in the internal-revenue laws (secs. 3249–3250, Rev. Stat.), and adopted by the tariff act of 1897 (this paragraph); and correction of volume is rightly made according to the extent of the difference between this standard temperature and the natural temperature of the liquors.—T. D. 24017, G. A. 5214.

291. On all compounds or preparations of which distilled spirits are
1897 a component part of chief value, there shall be levied a duty not less than that imposed upon distilled spirits.

239. On all compounds or preparations (except as specified in the preceding paragraph of the chemical schedule relating to medicinal preparations, of which alcohol is a component part), of which distilled spirits are
1894 a component part of chief value, not specially provided for in this Act, there shall be levied a duty not less than that imposed upon distilled spirits.

331. On all compounds or preparations of which distilled spirits are a
1890 component part of chief value, not specially provided for in this act, there shall be levied a duty not less than that imposed upon distilled spirits.

312. On all compounds or preparations of which distilled spirits are a
1883 component part of chief value, not specially enumerated or provided for in this act, there shall be levied a duty not less than that imposed upon distilled spirits.

292. Cordials, liqueurs, arrack, absinthe, kirschwasser, ratafia, and
1897 other spirituous beverages or bitters of all kinds containing spirits, and not specially provided for in this Act, two dollars and twenty-five cents per proof gallon.

240. Cordials, liquors, arrack, absinthe, kirshwasser, ratafia, and other
1894 spirituous beverages or bitters of all kinds containing spirits, and not specially provided for in this Act, one dollar and eighty cents per proof gallon.

332. Cordials, liquors, arrack, absinthe, kirshwasser, ratafia, and other
1890 spirituous beverages or bitters of all kinds containing spirits, and not specially provided for in this act, two dollars and fifty cents per proof gallon.

313. Cordials, liquors, arrack, absinthe, kirshwasser, ratafia, and other
1883 similar spirituous beverages or bitters, containing spirits, and not specially enumerated or provided for in this act, two dollars per proof gallon.

DECISIONS UNDER PARAGRAPH 292, ACT OF 1897.

(*a*) Absinthe and kirshwasser, known in France and in this country as liqueurs, when produced in Switzerland and imported therefrom since March 24, 1900, are not entitled to the benefit of the reduced rates provided by the reciprocal commercial agreement between France and the United States (30 Stat. 1774), the so-called "most favored nation" clause of the treaty between Switzerland and the United States of November 25, 1850, having been abrogated March 24, 1900, and ceasing thereafter to have any operation and effect.—T. D. 22494, G. A. 4765.

(*b*) Merchandise known in France and this country as liqueurs, and bought and sold under that name, which includes, besides various cordials, absinthe and kirschwasser, is entitled to the benefit of the reduced rate of $1.75 per gallon, provided in the reciprocal commercial agreement between France and the United States. G. A. 4311, reversed.—T. D. 22401, G. A. 4736.

(*c*) Merchandise known in France and this country as liqueurs, including absinthe and kirschwasser (G. A. 4736), when products of Switzerland and imported from that country, are entitled to the benefits of the reduced rates provided by the reciprocity treaty with France (T. D. 19405), by virtue of the "most favored nation" clause of the treaty of November 25, 1850, between Switzerland and the United States.—T. D. 22449, G. A. 4753.

(*d*) The provisions of the reciprocal commercial agreement with Germany (T. D. 22353) relating to "brandies and other spirits manufactured or distilled from grain or other materials," held to be limited to the articles covered by a similar provision in paragraph 289, for "brandy and other spirits manufactured, or distilled from grain or other materials." Accordingly Boonekamp Bitters being dutiable as bitters are not embraced in said provision of the agreement.—T. D. 23192, G. A. 4968.

(*e*) The standard for determining the proof of the beverages provided for in this paragraph is that indicated in paragraph 290. The conventional gauge of various brands of spirituous liquors as promulgated by the Secretary of the Treasury is not to be followed arbitrarily in all cases, and actual gauge may be followed when found to vary from the conventional gauge. But the latter gauge, being based on repeated measurements of well-known and frequently imported brands of liquors, may usually be taken as approximately correct; and a casual variation therefrom indicated by the gauge of but a single bottle out of 10 cases is held not to be sufficient evidence to warrant a departure from the conventional gauge.—T. D. 24017, G. A. 5214.

(*f*) Chinese wines, so called, consisting of spirituous beverages distilled from and a casual variation therefrom indicated by the gauge of but a single bottle out of 10 cases is held not to be sufficient evidence to warrant a departure from the conventional gauge.—T. D. 24017, G. A. 5214.

(*g*) The flavoring extract exported from Germany and known as "maitrank essenz," which contains over 13 per cent of alcohol in volume, is dutiable under paragraph 2, as an alcoholic compound, and not under this paragraph as a cordial, bitters, or other spirituous beverage therein described.—T. D. 27110, G. A. 6287.

DECISIONS UNDER THE ACT OF 1890.

(*a*) Cordials containing less than 50 per cent of alcohol are dutiable upon each wine gallon at the rate provided for each proof gallon.—T. D. 11214, G. A. 573.

(*b*) Creme de cassis, a beverage made of the juice of the currant combined with a heavy sirup and alcohol is a cordial containing spirits.—T. D. 11705, G. A. 810.

(*c*) Marasquino, curaçoa, and other spirituous cordials not proof, held to be dutiable at $2.50 per gallon actual gauge, and not entitled to an allowance for the difference between the actual strength and the strength of first proof.—T. D. 11838, G. A. 829.

(*d*) Fernet bitters is a bitters containing spirits.—T. D. 12033, G. A. 946.

(*e*) Ferro-China Bisleri, dutiable as bitters and not as a medicinal proprietary preparation.—T. D. 14245, G. A. 2209.

(*f*) Chinese wine a liquor distilled from rice containing by volume absolute alcohol 45.20 per cent is dutiable as a spirituous beverage and the bottles under paragraph 336 (1890) at 3 cents each and not as medicinal preparation and the bottles under paragraph 104 (1890) nor as a fruit juice nor as an alcoholic compound.—T. D. 14047, G. A. 2098; T. D. 14411, G. A. 2295; T. D. 10262, G. A. 40.

DECISIONS UNDER THE ACT OF 1883.

(*g*) Chinese wine dutiable as a spirituous beverage.—T. D. 10262, G. A. 40.

(*h*) Anchor bitters dutiable as a spirituous beverage at $2 per gallon and the bottles at 3 cents each and not as a proprietary preparation and the bottles under paragraph 133 (1883) as filled.—T. D. 10509, G. A. 159.

(*i*) Strassburger bitters made of wine and brandy flavored with herbs and roots is dutiable as a spirituous beverage and not as a proprietary preparation.—T. D. 10734, G. A. 287.

(*j*) Liquor benedictine is dutiable as a spirituous beverage and the bottles at 3 cents each and the benedictine is not dutiable as a proprietary preparation and the bottles as filled.—T. D. 10660, G. A. 244.

(*k*) The preparation known as "Amer Picon" which is prepared by Picon & Co. according to a private formula, which contains from 30 to 40 per cent of alcohol, and which is advertised as a specific against malaria and also as a tonic, is dutiable as "bitters containing spirits" and not as a proprietary preparation.—Curiel *v.* Beard (C. C.), (44 Fed. Rep., 551).

(*l*) The glass bottles containing "Amer Picon" are dutiable as bottles containing spirituous liquors.—Id.

(*m*) Chinese wine produced by distillation from grain is dutiable as spirituous liquors and the bottles at 3 cents each.—T. D. 10338, G. A. 59.

(*n*) Certain Chinese wine which is neither a juice expressed from fruit nor a natural fruit juice but a spirituous liquor produced by a process of distillation, held dutiable at $2 per gallon and 3 cents per bottle and not at $2 per gallon on the alcohol and 25 per cent nor at $1.60 for 12 quart or 24 pint bottles.—T. D. 10462, G. A. 112.

(*o*) The liqueur cordial known as "Benedictine" prepared in France after a secret formula derived from Benedictine monks of the Abbey of Fecamp and put up in bottles with labels signed and trademarked by the proprietors and accompanied, in the case of each bottle, by a circular claiming for the liquor certain therapeutic qualities; but the fact appearing in evidence that it was a pleasant

after-dinner drink, taken in small liqueur glasses, and that the greater part of it was sold to grocers, liquor dealers, and private families, and used as a beverage, is dutiable as a spirituous beverage and not as a proprietary preparation.—In re Gourd (49 Fed. Rep., 728), affirming T. D. 10660, G. A. 244.

(*a*) The word "liquors" is frequently if not generally used to define spirits or distilled beverages in contradistinction to those that are fermented. It is so in the act of 1883, schedule H.—Hollender *v.* Magone (149 U. S., 586).

(*b*) The word "liquors" as used is obviously the result of misspelling the word "liqueurs."—Id., reversing 38 Fed. Rep., 912.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*c*) Angostura bitters is dutiable as spirituous liquors not otherwise provided for and not as a medicinal preparation.—Dallet *v.* Smythe (6 Blatchf., 419; 6 Fed. Cas., 1120).

(*d*) The duty on brandy and other liquors is to be assessed only on the quantity imported and not that shown by the invoices; but as this act lays upon it an ad valorem duty, the allowance for leakage of 2 per centum of the quantity gauged can not be made under section 59 of the collection act of 1799 (1 Stat., 672) because that law applied only to liquors subject to duty by the gallon.—Schuchardt *v.* Lawrence (3 Blatchf., 397; 21 Fed. Cas., 747); Lawrence *v.* Caswell (13 How., 488).

293. No lower rate or amount of duty shall be levied, collected, and paid on brandy, spirits, and other spirituous beverages, than that fixed by law for the description of first proof; but it shall be increased in proportion for any greater strength than the strength of first proof, and all
1897 imitations of brandy or spirits or wines imported by any names whatever shall be subject to the highest rate of duty provided for the genuine articles respectively intended to be represented, and in no case less than one dollar and fifty cents per gallon.

241. No lower rate or amount of duty shall be levied, collected, and paid on brandy, spirits, and other spirituous beverages than that fixed by law for the description of first proof; but it shall be increased in proportion for any greater strength than the strength of first proof, and all
1894 imitations of brandy or spirits or wines imported by any names whatever shall be subject to the highest rate of duty provided for the genuine articles respectively intended to be represented, and in no case less than one dollar per gallon.

333. No lower rate or amount of duty shall be levied, collected, and paid on brandy, spirits, and other spirituous beverages than that fixed by law for the description of first proof; but it shall be increased in proportion for any greater strength than the strength of first proof, and all imita-
1890 tions of brandy or spirits or wines imported by any names whatever shall be subject to the highest rate of duty provided for the genuine articles respectively intended to be represented, and in no case less than one dollar and fifty cents per gallon.

314. No lower rate or amount of duty shall be levied, collected, and paid on brandy, spirits, and other spirituous beverages than that fixed by law for the description of first proof; but it shall be increased in proportion for any greater strength than the strength of first proof, and all imi-
1883 tations of brandy or spirits or wines imported by any names whatever shall be subject to the highest rate of duty provided for the genuine articles respectively intended to be represented, and in no case less than one dollar per gallon.

294. Bay rum or bay water, whether distilled or compounded, of first
1897 proof, and in proportion for any greater strength than first proof, one dollar and fifty cents per gallon.

242. Bay rum or bay water, whether distilled or compounded, of first
1894 proof, and in proportion for any greater strength than first proof, one dollar per gallon.

1890 334. Bay-rum or bay-water, whether distilled or compounded, of first proof, and in proportion for any greater strength than first proof, one dollar and fifty cents per gallon.

1883 315. Bay-rum or bay-water, whether distilled or compounded, one dollar per gallon of first proof, and in proportion for any greater strength than first proof.

DECISIONS UNDER THE ACT OF 1894.

(*a*) Bay rum is not a spirituous liquor and is not subject to the second proviso to paragraph 244 (1894).—T. D. 17840, G. A. 3774.

1897 **295.** Champagne and all other sparkling wines, in bottles containing each not more than one quart and more than one pint, eight dollars per dozen; containing not more than one pint each and more than one-half pint, four dollars per dozen; containing one-half pint each or less, two dollars per dozen; in bottles or other vessels containing more than one quart each, in addition to eight dollars per dozen bottles, on the quantity in excess of one quart, at the rate of two dollars and fifty cents per gallon; but no separate or additional duty shall be levied on the bottles.

1894 243. Champagne and all other sparkling wines, in bottles containing each not more than one quart and more than one pint, eight dollars per dozen; containing not more than one pint each and more than one-half pint, four dollars per dozen; containing one-half pint each or less, two dollars per dozen; in bottles or other vessels containing more than one quart each, in addition to eight dollars per dozen bottles, on the quantity in excess of one quart, at the rate of two dollars and fifty cents per gallon.

1890 335. Champagne and all other sparkling wines, in bottles containing each not more than one quart and more than one pint, eight dollars per dozen; containing not more than one pint each and more than one-half pint, four dollars per dozen; containing one-half pint each or less, two dollars per dozen; in bottles or other vessels containing more than one quart each, in addition to eight dollars per dozen bottles, on the quantity in excess of one quart, at the rate of two dollars and fifty cents per gallon.

1883 307. Champagne, and all other sparkling wines, in bottles containing each not more than one quart and more than one pint, seven dollars per dozen bottles; containing not more than one pint each and more than one-half pint, three dollars and fifty cents per dozen bottles; containing one-half pint each, or less, one dollar and seventy-five cents per dozen bottles; in bottles containing more than one quart each, in addition to seven dollars per dozen bottles, at the rate of two dollars and twenty-five cents per gallon on the quantity in excess of one quart bottle.

DECISIONS UNDER PARAGRAPH 295, ACT OF 1897.

(*b*) The "pint" referred to in this paragraph is the American "pint," and champagne in so-called imperial pint bottles, which hold more than an American pint, is assessable accordingly. The specification of measures in the tariff act is presumed to have reference to American standards and not to those of the country of exportation.—T. D. 25535, G. A. 5773.

DECISIONS UNDER THE ACT OF 1894.

(*c*) Destruction of champagne in bottles by breakage and leakage not allowed for as a deficiency or shortage under R. S. 2921.—T. D. 17644, G. A. 3692.

(*d*) Champagne bottles containing champagne dutiable under this paragraph are not separately dutiable under paragraph 88 (1894), but are free. Laying a duty on champagne in bottles by the dozen would seem to preclude the application of any general duty on the champagne bottles, and a dropping of the specific provision for a duty on bottles (as contained in the acts of 1883 and

1890) seems to imply that thereafter no duty on champagne bottles was to be assessed. Reversing Board.—De Luze *v.* United States (C. C.), (84 Fed. Rep., 156).

DECISIONS UNDER THE ACT OF 1890.

(*a*) Protest as to duty on champagne in bottles overruled.—T. D. 13552, G. A. 1824.

(*b*) Rhine-wine mousseux assessed as sparkling wine. Claimed to be dutiable as still wine.—T. D. 18163, G. A. 3920.

(*c*) Vino nebiolo is a sparkling wine.—T. D. 11211, G. A. 570.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*d*) Under the act of June 30, 1864, section 2 (13 Stat., 202), which lays a specific duty per gallon upon wines and an ad valorem duty also, with a proviso that no champagne in bottles shall pay a less duty than $6 per dozen quart or 2 dozen pint bottles, the effect is that if the specific duty upon the gallon and the ad valorem duty exceed the sum of $6 per dozen quart or 2 dozen pint the rate thus estimated will be imposed. It is only when the rate falls under the sum of $6 that no less sum is chargeable.—Bollinger's Champagne (3 Wall., 560).

(*e*) Section 21, act of July 14, 1870 (16 Stat., 262), imposed on champagne wine a duty of $6 per dozen bottles (quart) and $3 per dozen pint bottles, and on each bottle containing it a duty of 3 cents.—De Barry *v.* Arthur (93 U. S., 420).

296. Still wines, including ginger wine or ginger cordial and vermuth, in casks or packages other than bottles or jugs, if containing fourteen per centum or less of absolute alcohol, forty cents per gallon; if containing more than fourteen per centum of absolute alcohol, fifty cents per gallon. In bottles or jugs, per case of one dozen bottles or jugs, containing each not more than one quart and more than one pint, or twenty-four bottles or jugs containing each not more than one pint, one dollar and sixty cents per case; and any excess beyond these quantities found in such bottles or jugs shall be subject to a duty of five cents per pint or fractional part thereof, but no separate or additional duty shall be assessed on the bottles or jugs: *Provided*, That any wines, ginger cordial,
1897 or vermuth imported containing more than twenty-four per centum of alcohol shall be classed as spirits and pay duty accordingly: *And provided further*, That there shall be no constructive or other allowance for breakage, leakage, or damage on wines, liquors, cordials, or distilled spirits. Wines, cordials, brandy, and other spirituous liquors, including bitters of all kinds, and bay rum or bay water, imported in bottles or jugs, shall be packed in packages containing not less than one dozen bottles or jugs in each package, or duty shall be paid as if such package contained at least one dozen bottles or jugs, and in addition thereto, duty shall be collected on the bottles or jugs at the rates which would be chargeable thereon if imported empty. The percentage of alcohol in wines and fruit juices shall be determined in such manner as the Secretary of the Treasury shall by regulation prescribe.

244. Still wines, including ginger wine or ginger cordial and vermuth, in casks or packages other than bottles or jugs, if containing fourteen per centum or less of absolute alcohol, thirty cents per gallon; if containing more than fourteen per centum of absolute alcohol, fifty cents per gallon. In bottles or jugs, per case of one dozen bottles or jugs, containing each not more than one quart and more than one pint, or twenty-four bottles or jugs containing each not more than one pint, one dollar and sixty cents per case; and any excess beyond these quantities found in such bottles or jugs shall be subject to a duty of five cents per pint or fractional part thereof, but no separate or additional duty shall be assessed
1894 on the bottles or jugs: *Provided*, That any wines, ginger cordial, or vermuth imported containing more than twenty-four per centum of alcohol

shall be classed as spirits and pay duty accordingly: *And provided further*, That there shall be no constructive or other allowance for breakage, leakage, or damage on wines, liquors, cordials, or distilled spirits. Wines, cordials, brandy, and other spirituous liquors imported in bottles or jugs shall be packed in packages containing not less than one dozen bottles or jugs in each package, or duty shall be paid as if such package contained at least one dozen bottles or jugs. The percentage of alcohol in wines and fruit juices shall be determined in such manner as the Secretary of the Treasury shall by regulation prescribe.

336. Still wines, including ginger wine or ginger cordial and vermuth, in casks, fifty cents per gallon; in bottles or jugs, per case of one dozen bottles or jugs, containing each not more than one quart and more than one pint, or twenty-four bottles or jugs containing each not more than one pint, one dollar and sixty cents per case; and any excess beyond these quantities found in such bottles or jugs shall be subject to a duty of five cents per pint or fractional part thereof, but no separate or additional duty shall be assessed on the bottles or jugs: *Provided*, That any wines, ginger cordial, or vermuth imported containing more than twenty-four per centum of alcohol shall be forfeited to the United States: *And provided further*, That there shall be no constructive or other allowance for breakage, leakage, or damage on wines, liquors, cordials, or distilled spirits. Wines, cordials, brandy, and other spirituous liquors imported in bottles or jugs shall be packed in packages containing not less than one dozen bottles or jugs in each package; and all such bottles or jugs shall pay an additional duty of three cents for each bottle or jug unless specially provided for in this act.

1890

308. Still wines, in casks, fifty cents per gallon; in bottles, one dollar and sixty cents per case of one dozen bottles containing each not more than one quart and more than one pint, or twenty-four bottles containing each not more than one pint; and any excess beyond these quantities found in such bottles shall be subject to a duty of five cents per pint or fractional part thereof; but no separate or additional duty shall be collected on the bottles: *Provided*, That any wines imported containing more than twenty-four per centum of alcohol shall be forfeited to the United States: *Provided further*, That there shall be no allowance for breakage, leakage, or damage on wines, liquors, cordials, or distilled spirits.

1883

309. Vermuth, the same duty as on still wines.

310. Wines, brandy, and other spirituous liquors imported in bottles, shall be packed in packages containing not less than one dozen bottles in each package; and all such bottles, except as specially enumerated or provided for in this act, shall pay an additional duty of three cents for each bottle.

DECISIONS UNDER PARAGRAPH 296, ACT OF 1897.

(*a*) Earthenware jugs containing spirits packed in packages containing at least 1 dozen jugs are exempt as coverings containing goods subject to a specific duty.—T. D. 19905, G. A. 4235.

(*b*) Bottles containing over 1 pint, packed 24 to the case, are dutiable at $1.60 per dozen bottles and not at $1.60 per case of 2 dozeu bottles, with an additional duty of 5 cents per pint on excess over 24 pints per case.—T. D. 20843, G. A. 4379.

(*c*) An earthenware vessel of a capacity of more than 8 gallons, about 21 inches high and 18 inches at its largest diameter, weighing about 33 pounds when empty, is not a "jug" within the second proviso to this paragraph, which requires spirituous liquors imported in bottles or jugs to be packed "in packages containing not less than one dozen bottles or jugs" or duty to be paid "as if such packages contained at least one dozen bottles or jugs."—T. D. 23556, G. A. 5088.

(*d*) The article imported from France known as byrrh wine, and the product of that country, is not dutiable as a medicinal preparation under paragraph

67, but is a still wine and is dutiable accordingly under this paragraph and the reciprocal commercial agreement with France.—T. D. 24052, G. A. 5227.

(*a*) The direction in the second proviso to this paragraph that "the duty shall be collected on the bottles or jugs at the rates which would be chargeable thereon if imported empty" applies only to such bottles or jugs when imported in packages containing less than 1 dozen bottles or jugs. If imported in proper packages containing not less than 1 dozen bottles or jugs, such bottles or jugs are free of duty as the ordinary coverings of the whisky. T. D. 25106, G. A. 5611, modified.—T. D. 25534, G. A. 5772.

(*b*) The second proviso to this paragraph prohibiting allowance for breakage, leakage, or damage on "wines, liquors, cordials, or distilled spirits" does not refer to beer, as to importations of which the usual rule applies that duty is to be collected only on the quantity actually arriving in the United States.—T. D. 26008, G. A. 5909.

(*c*) Bottles of still wine containing less than a pint are dutiable as if they contained 1 pint, irrespective of the actual quantity of wine in them. The fact that such bottles of wine are intended as samples is immaterial and does not relieve them from the payment of duty.—T. D. 26113, G. A. 5958.

(*d*) The beverage known as "vino chinato" is dutiable as a still wine and not as spirits.—T. D. 26237, G. A. 5998.

(*e*) The proviso herein prohibiting any allowance for breakage, leakage, or damage is mandatory and there can be no allowance as long as any portion of the case arrives intact.—T. D. 26648, G. A. 6129.

(*f*) By virtue of the proviso in this paragraph permitting no allowance for leakage, no deduction may be made where the amount found wanting in the cask is due to leakage, and this proviso is not affected in any way by reciprocity agreements made under section 3 of the tariff act of 1897.—Shaw *v.* United States, (158 Fed. Rep., 648; T. D. 28517).

(*g*) The prohibition of an allowance for breakage, leakage, or damage on liquors does not apply to a shortage caused by theft. The collector should make allowance in the duties for liquor stolen from the hogshead prior to importation while the liquor was in transit to this country.—T. D. 26813, G. A. 6185.

(*h*) Duty is assessable on the quantity of liquor shipped from abroad as shown by the entry, invoice, or otherwise, less only the usual outage as established by the custom of trade. The constitutionality of the proviso to this paragraph providing that there should be no constructive or other allowance for breakage, leakage, or damage on wines, liquors, cordials, or distilled spirits affirmed. (United States *v.* Shaw (144 Fed. Rep., 329; T. D. 27226), reversing 141 id., 469; T. D. 26488, and affirming T. D. 26086, G. A. 5939). The uniformity referred to in Article I, section 8, of the United States Constitution, providing that duties, imposts, and excises shall be uniform throughout the United States, is not an intrinsic uniformity relating to the inherent character of the tax as respects its operations on individuals, but is merely a geographical uniformity requiring the same plan and the same method to be operative throughout the United States.—T. D. 27254, G. A. 6329.

(*i*) Where the entire contents of a cask of liquor leaks out in transit before arrival in the United States the case is one of nonimportation and no duty is assessable. Where, however, any portion of the invoiced amount arrives no allowance shall be made for the loss caused by leakage.—T. D. 27330, G. A. 6362.

(*j*) Wooden cases equipped with iron hinges, hasps, and staples, and prepared so as to admit of being locked, are unusual coverings for bottled wine and are

subject to the same rate of duty as that with which they would be charged if separately imported.—T. D. 27797, G. A. 6509.

(*a*) Four cases of French brandy, each containing 6 quart bottles, all tied together in one package by a strap, making 24 quart bottles inclosed in one strap constitute a package of bottles within the meaning of this paragraph and are properly packed so as to evade any punitive or additional duties under said paragraph. Such merchandise is dutiable according to the number of gallons contained in the package.—T. D. 27871, G. A. 6531.

(*b*) The proviso in this paragraph does not apply to Japanese sake. An allowance must accordingly be made for sake which never reached the port of importation, having been lost in transit through leakage or other cause.—T. D. 25332, G. A. 5690, affirmed in United States *v.* Gonsalves et al. (T. D. 26737).

(*c*) The Japanese beverage known as sake being a nonenumerated manufactured article, not subject to classification under this paragraph, allowance should be made by the collector by way of deduction from duties where any portion of such beverage may have leaked out or disappeared prior to its being imported into this country and duty should be assessed only upon the quantity returned by the United States gauger.—United States *v.* Nishimiya (137 Fed. Rep., 396; T. D. 26155), followed; T. D. 26215, G. A. 5990.

(*d*) The Japanese beverage known as sake, found to be similar to beer in material and use and similar to still wines in quality and taste, held to be dutiable as an unenumerated manufactured article under section 6.—United States *v.* Nishimiya (137 Fed. Rep., 396; T. D. 26155), affirming 131 Fed. Rep., 650; T. D. 25386, and overruling in effect T. D. 24410, G. A. 5334.

(*e*) The Japanese beverage known as sake is dutiable as an unenumerated manufactured article and not by virtue of the similitude clause at the rates applicable to still wines or to beer.—United States *v.* Nishimiya (137 Fed. Rep., 396; T. D. 26155), followed; T. D. 26810, G. A. 6182, affirmed; Stratton *v.* Komada (148 Fed. Rep., 125; T. D. 27514).

(*f*) On an importation of wine in cases, each containing 24 so-called pint bottles, which averaged, however, slightly over a pint, it was held that duty should be assessed at the rate of $1.60 per case and in addition at the rate of 5 cents per pint or fractional part thereof on the excess.—United States *v.* Cerecedo (T. D. 27706).

(*g*) Where it is shown by satisfactory evidence that a certain quantity of wine contained in a cask has been abstracted by theft or otherwise while in transit and before arrival in this country, such shortage constitutes a nonimportation and does not come within the limitations of paragraph 296, which provides that "there shall be no constructive or other allowance for breakage, leakage, or damage on wines, liquors, cordials, or distilled spirits," and in the liquidation of the duty allowance should be made by the collector by way of deduction for the quantity so abstracted.—T. D. 28650, G. A. 6699.

DECISIONS UNDER THE ACT OF 1894.

(*h*) Sherry wine invoiced as containing 28 per cent and 32 per cent (Sykes test, used in Canada). Found to contain 21.5 and 21.8 per cent of alcoholic test. Dutiable at 50 per cent and not under paragraph 237 (1894) at $1.80.—T. D. 17833, G. A. 3767.

(*i*) Vermuth assessed at 50 cents per gallon as wine containing more than 14 per cent of alcohol. Vermuth not analyzed prior to appraiser's return. After delivery analyzed and found to contain 13.24 per cent of alcohol. Protest that

the merchandise should be assessed as containing less than 14 per cent of absolute alcohol sustained. The rights of the importer are not to be put in jeopardy by the neglect of the local appraiser to make due examination of merchandise while in his possession.—T. D. 18071, G. A. 3873.

(*a*) On each bottle which contains a fractional part of 1 pint in excess of 1 quart a duty of 5 cents should be assessed in addition to the duty of $1.60 per case of 1 dozen bottles, and not a duty of 5 cents per pint on the aggregate excess.—T. D. 18539, G. A. 3995.

(*b*) Bay rum is not a spirituous liquor and is not subject to the second proviso of this paragraph.—T. D. 17840, G. A. 3774.

DECISIONS UNDER THE ACT OF 1890.

(*c*) So-called vinegar containing 10 per cent of absolute alcohol and 1.20 per cent of free acid assessed as wine in casks at 50 cents per gallon and claimed to be dutiable as vinegar. *Held*, that the alcohol is in greater quantity than is found in the vinegar of commerce and the acid is not sufficient in quantity to constitute the vinegar of commerce.—T. D. 14820, G. A. 2503.

(*d*) Small excess of Tokay wine alleged to have been found in some of the bottles held to be due to expansion from heat and not dutiable.—T. D. 12006, G. A. 919.

(*e*) Still wine in half-pint bottles packed in cases containing 48 bottles each is dutiable at $1.60 for each 24 bottles.—T. D. 14461, G. A. 2307.

(*f*) One case containing 1 bottle of wine imported as a sample and assessed for duty as 1 dozen bottles. Claimed to be free or dutiable as one-twelfth of a dozen bottles. *Held*, that the importation of wine in packages of less than a dozen bottles is prohibited and that a protest based upon a violation of a statute is invalid.—T. D. 15212, G. A. 2705.

(*g*) Johann Hoff's malt extract in bottles holding not more than 1 pint and not less than one-quarter of a pint is dutiable at 40 cents per gallon and 1½ cents per pound on the bottles and not as a medicinal preparation.—T. D. 14718, G. A. 2440.

(*h*) Bovril wine, composed of port wine, extract of malt, and extract of meat, is a mild cordial similar in material and use to the articles enumerated in this paragraph and is not dutiable as a medicinal preparation. T. D. 14936, G. A. 2565, reversed.—T. D. 21717, G. A. 4588; 84 Fed. Rep., 146.

(*i*) Japanese sake is dutiable as still wine and not as spirits nor as a liquor.—T. D. 15392, G. A. 2786.

(*j*) Duty paid at $8 per dozen bottles and 3 cents a bottle on a case of 12 quart bottles of wine, 7 bottles of which were broken and contents lost. *Held*, that no allowance can be made for broken bottles.—T. D. 12527, G. A. 1211.

(*k*) Thirteen bottles of whisky lost on voyage. *Held*, that this does not come within the proviso as to allowance for breakage.—T. D. 14384, G. A. 2268.

(*l*) Bottles containing champagne are dutiable at 3 cents each.—T. D. 10858, G. A. 353.

(*m*) Decanters are not dutiable under this paragraph as bottles.—T. D. 14620, G. A. 2378.

DECISIONS UNDER THE ACT OF 1883.

(*n*) This paragraph repeals all former provisions for allowance for breakage (act of Feb. 8, 1875).—T. D. 10399, G. A. 90; T. D. 10943, G. A. 438.

(*a*) Claim for allowance for shortage overruled because not made as provided for in article 609.—T. D. 10399, G. A. 90.

(*b*) The term liquors includes fermented as well as distilled liquors and covers lager beer.—Hollender *v.* Magone (C. C.), (38 Fed. Rep., 912); reversed, 149 U. S., 586.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*c*) A demijohn is not a bottle within the meaning of the law so as to require them to be packed in packages of 1 dozen bottles each.—United States *v.* Ninety Demijohns of Rum (8 Fed. Rep., 485).

(*d*) There is no provision of law prohibiting the importation of liquor in demijohns, and so imported they are subject to a duty of $2 per gallon as "not otherwise provided for."—United States *v.* Ninety Demijohns of Rum (8 Fed. Rep., 485).

(*e*) B imported 444 bottles of wine containing 83¼ commercial gallons. Under this act the wine, being imported in bottles, was not liable to the 25 per cent ad valorem duty, but only to the duty per gallon; as each bottle contained more than 1 pint and not more than 1 quart, each bottle must be held to contain 1 quart and the 444 bottles must be held to contain 111 gallons for the purpose of arriving at its value per gallon, to ascertain the proper rate of duty per gallon, as well as for the purpose of fixing the number of dutiable gallons; that the value thereof was over 40 cents and not over $1 per gallon, and the proper rate of duty per gallon was 60 cents on 111 gallons; and the bottles were each subject to 3 cents duty.—Bensusan *v.* Murphy (10 Blatchf., 530; 3 Fed. Cas., 239).

(*f*) Where wine was imported in bottles, each bottle containing more than a pint and less than a quart, the rate of duty was controlled by the actual cost estimated on the supposition that each bottle contained an entire quart.—Cavarac *v.* Collector (1 Wood, 172; 5 Fed. Cas., 319).

(*g*) The violation of the requirement that "wines, brandy, and other spirituous liquors imported in bottles shall be packed in packages containing not less than 1 dozen bottles" does not subject liquors not so packed to forfeiture, for there is no statute declaring such forfeiture and a constructive forfeiture is not justified except in cases of the most urgent necessity.—United States *v.* Ninety Demijohns Aquadiente (27 Fed. Cas., 167).

297. Ale, porter, and beer, in bottles or jugs, forty cents per gallon,
1897 but no separate or additional duty shall be assessed on the bottles or jugs; otherwise than in bottles or jugs, twenty cents per gallon.

245. Ale, porter, and beer, in bottles or jugs, thirty cents per gallon,
1894 but no separate or additional duty shall be assessed on the bottles or jugs; otherwise than in bottles or jugs, fifteen cents per gallon.

1890 no separate or additional duty shall be assessed on the bottles or jugs; otherwise than in bottles or jugs, twenty cents per gallon.

1883 ware, thirty-five cents per gallon; otherwise than in bottles or jugs of glass, stone, or earthenware, twenty cents per gallon.

DECISIONS UNDER PARAGRAPH 297, ACT OF 1897.

(*h*) A nonpotable liquid invoiced as bok ale—being an unfinished product or base to which are added carbonic-acid gas, water, and flavoring matter to make a nonalcoholic beverage—derived by processes and from materials similar to those used in the manufacture of beer, is dutiable at the rate of 20 cents

per gallon when imported in casks under the provision in this paragraph for beer, by virtue of the similitude clause in section 7 of said act, and not at 20 per cent ad valorem under section 6 as a nonenumerated manufactured article.—T. D. 25172, G. A. 5633.

(*a*) So-called beacon ale, an unfermented nonalcoholic beverage made from an infusion of hops diluted with water and sweetened, is dutiable as an unenumerated manufactured article under section 6 and not as beer or ale under this paragraph or at the same rate as beer or ale by virtue of the similitude clause in section 7.—T. D. 25748, G. A. 5840.

(*b*) The Japanese beverage known as sake, found to be similar to beer in material and use and similar to still wines in quality and taste, held to be dutiable as an unenumerated manufactured article under section 6.—United States *v.* Nishimiya (137 Fed. Rep., 396; T. D. 26155), affirming 131 Fed. Rep. 650; T. D. 25386, and overruling in effect T. D. 24410, G. A. 5334.

DECISIONS UNDER THE ACT OF 1883.

(*d*) Generally speaking, a "sound price" implies a "sound" article. It appearing that the cost of the beer at the place of export was equivalent to 17.71 cents per gallon, and that upon being examined much of it was thrown into the streets as worthless, that but little of it was sold, and that for 3 cents a gallon, it may be assumed that it was a sound article when shipped at the place of export.—Hollender *v.* Magone (149 U. S., 586).

(*e*) Beer imported upon which a duty of 20 cents a gallon was exacted. The importer claimed that the beer had become sour and worthless on the voyage, and he applied for a rebate under R. S. 2927. Refused on the ground that such allowance was prohibited by the proviso that there shall be no allowance for breakage, leakage, or damage on wines, liquors, cordials, or distilled spirits. *Held*, that this proviso does not include beer.—Hollender *v.* Magone (149 U. S., 586).

1894 247. Cherry juice and prune juice or prune wine, and other fruit juice not specially provided for in this Act, containing eighteen per centum or less of alcohol, fifty cents per gallon; if containing more than eighteen per centum of alcohol, one dollar and eighty cents per proof gallon.

Reversing T. D. 15696, G. A. 2877.—Dickson *v.* United States (C. C.), (68 Fed. Rep., 534); United States *v.* Dickson (C. C. A.), (73 Fed. Rep., 195).

(*d*) The cost of corking and wiring is not to be deducted in ascertaining the dutiable value, on the theory that this is a part of the cost of the bottles and that the bottles are free; but as ginger ale is always sold in bottles corked and wired the duty should be assessed on the whole value of the goods as thus bought and sold in the place from which they were imported.—T. D. 17742, G. A. 3728; United States *v.* Keane (C. C.), (84 Fed. Rep., 330).

DECISIONS UNDER THE ACT OF 1883.

(*j*) The Secretary, with a view to facilitate the work of collector, may not make such regulations as would seem to negative existing law. The importation of natural mineral waters is permitted free of duty. Under these circumstances an importer is not restricted to a certificate of the owner of the spring in showing the character of the water.—Pascal *v.* Sullivan (21 Fed. Rep., 496).

DECISIONS UNDER PARAGRAPHS 304 TO 309, ACT OF 1897.

(*a*) In counting the warp and filling threads to ascertain their number in a woven fabric each separate and distinct thread must be counted and no regard will be had for the number of picks which went to make the weaving. The number of picks is immaterial and will not be considered.—T. D. 21455, G. A. 4507.

(*b*) Packing charges and cases when used as cases and not specifically exempted should be added to the price per yard in ascertaining the dutiable value of woven cloth per yard. Both items constitute the purchase and market value of the merchandise and form the basis of ad valorem assessment of duty.—T. D. 22469, G. A. 4759.

(*c*) Mercerized cotton cloth of sateens, so called, consisting of cotton cloth the weft threads of which have undergone a process known as mercerizing, whereby the natural color of the fiber has been changed and a silky appearance imparted to the fabric, are not known in trade as unbleached or gray cotton cloth and are not dutiable as such, but are dutiable as cotton cloth

dyed, colored, stained, painted, or printed, according to count of threads, weight, and value.—T. D. 19423, G. A. 4162.

(*g*) Woven cotton fabrics made with close-woven stripes, composed almost wholly of filling threads, substantial portions of the goods containing either no warp threads or no filling threads, but the warp and filling threads nowhere exceeding 100 threads to the square inch, are not to be excluded from classification as cotton cloth by reason of the lack of homogeneousness of the warp and weft threads in substantial portions of the fabric.—Quaintance *v.* United States (147 Fed. Rep., 753; T. D. 26999), reversing, as to goods of this description, T. D. 26062, G. A. 5928, followed; T. D. 27307, G. A. 6351.

(*j*) Articles having a distinct trade name and use, made of etamines, having passed beyond the category of such and become distinct and separate articles in the trade, when made of cotton yarns are dutiable as countable cotton cloth.—T. D. 26692, G. A. 6147.

(*a*) Cotton pillow slips having two metal buttons attached held dutiable as countable cotton cloth, the metal being too insignificant to affect the classification of the article.—T. D. 27659, G. A. 6457.

(*b*) Finished articles such as napkins, doilies, etc., made of cotton table damask are dutiable under the specific provision for such material in paragraph 321 and not under the provisions for countable cotton cloth.—Dunham *v.* United States (150 Fed. Rep., 562; T. D. 27805) followed; T. D. 27890, G. A. 6539.

(*c*) Fancy cotton fabrics from which substantial numbers of the warp threads and filling threads are missing in different parts of the goods are not for that reason excluded from classification as countable cotton cloth.—Schade *v.* United States (147 Fed. Rep., 893; T. D. 27650).

DECISIONS UNDER THE ACT OF 1894.

(*d*) The provision that cotton cloth shall include "all woven fabrics of cotton in the piece" does not apply to embroidered cotton cloth which was not embroidered in the loom.—United States *v.* Einstein (C. C. A.), (78 Fed. Rep., 797).

DECISIONS UNDER THE ACT OF 1890.

(*e*) It is not necessary that the cotton should be uniform throughout, or, in other words, that every square inch of its area should be precisely alike or contain the same number of exposed threads. It is sufficient if the threads in a given space which comprehends all the features of the design or pattern shall correspond in number with the threads in every like space or area throughout the fabric and the average number of threads to the square inch in the whole piece of goods be thus ascertained.—T. D. 12571, G. A. 1255.

311. Cloth, composed of cotton or other vegetable fiber and silk, whether known as silk-striped sleeve linings, silk stripes, or otherwise, of which cotton is the component material of chief value, eight cents per
1897 square yard and thirty per centum ad valorem: *Provided*, That no such cloth shall pay a less rate of duty than fifty per centum ad valorem. Cotton cloth, filled or coated, three cents per square yard and twenty per centum ad valorem.

260. * * * ; sleeve linings or other cloths, composed of cotton and
1894 silk, whether known as silk stripe sleeve lining, silk stripes, or otherwise, forty-five per centum ad valorem.

348. * * * . *Provided further*, That no cotton cloth bleached, dyed, colored, stained, painted or printed, containing an admixture of
1890 silk, and not otherwise provided for, there shall be levied, collected, and paid a duty of ten cents per square yard, and in addition thereto thirty-five per centum ad valorem.

1883 [Not enumerated. Dutiable under paragraph 324, page 413.]

DECISIONS UNDER PARAGRAPH 311, ACT OF 1897.

(*f*) Bookbinders' cloth, composed of cotton and heavily starched and coated with paint or other coloring matter, whereby the interstices between the threads are effectually filled, is dutiable as cotton cloth filled or coated.—T. D. 19037, G. A. 4085.

(*g*) China silks or chinas, fabrics in the piece composed of silk and cotton, the warp being entirely of silk and the filling entirely of cotton dyed in the piece, are dutiable, where cotton is the component of chief value at 8 cents per square yard and 30 per cent. In this case silk was chief value in the gray, but cotton was chief value as found in the article when dyed, the cost of dyeing being distributed in proportion to the weight of the silk and cotton.—T. 22376, G. A. 4729.

(*a*) In determining the component material of piece-dyed goods, when the charge for dyeing is a given price per unit of weight, such charge will be distributed between the silk and cotton in proportion to the weight or quantity of each material.—Id.

(*b*) Cotton cloth in various colors and widths, generally known in trade as "Scotch hollands," "window hollands," or as "Kings hollands," which have been simply starched to the extent of about 20 per cent of the weight of the fabric and have undergone a process of "beetling," are not "filled or coated" within the meaning of this paragraph nor dutiable at 3 cents per square yard and 20 per cent but are dutiable under paragraphs 304 to 309, according to count of threads. T. D. 19450, G. A. 4167, reversed.—T. D. 22785, G. A. 4862.

(*c*) The term "filled" as used in this paragraph, which is a manufacturing rather than a commercial term, is not confined in its meaniug to such goods as have weighted with a foreign substance, usually an inorganic material, to give them a factitious solidity, in which sense it was formerly used in England, but the filling may be starch alone. But whatever substance is used to constitute "cotton cloth filled" within the meaning of this paragraph, such quantity must be used as to substantially close the interstices in the cloth and make a plain surface, and the samples of imported "Scotch Hollands" or "Kings Hollands," used for wiudow shades, stiffened with 20 per cent in weight of starch, but which does not substantially close the interstices, are not dutiable under this paragraph, but under paragraphs 304 to 309 as countable cottons. T. D. 19450, G. A. 4167, reversed and 99 Fed. Rep., 720, affirmed.—United States *v.* Pinney Casse & Lackey Co. (105 Fed. Rep., 934).

(*d*) So-called "Lancaster window blinds," being cotton cloth painted upon one surface with a mixture of linseed oil and pigments, which effectually closes the interstices between the threads and renders the fabric opaque and impervious to water, are dutiable at 3 cents per square yard and 20 per cent ad valorem and not as countable cotton.—T. D. 22966, G. A. 4905.

(*e*) Cotton tracing cloth cut up into pieces dutiable as filled cotton cloth under this paragraph and not as manufactures of cotton.—T. D. 23365, G. A. 5027.

(*f*) Cotton cloth containing figures produced by extra threads of silk (cotton chief value) is dutiable under the provisions of this paragraph.—T. D. 26373, G. A. 6044.

(*g*) Cloth made of cotton and artificial silk (cotton chief value) is not classifiable by similitude under this provision, but is dutiable as manufactures of cotton.—T. D. 26607, G. A. 6110.

(*h*) In respect to cloth with silk warp and cotton weft the cost of warping the silk threads should not be apportioned between the silk and cotton components in order to determine the component material of chief value, but should be considered as a part of the value of the silk.—United States *v.* Hoeninghaus (137 Fed. Rep., 478; T. D. 26125), affirming 131 id., 570; T. D. 25364, and reversing T. D. 24423, G. A. 5335.

(*i*) Cotton and silk mull found to be composed in chief value of cotton.—Stern *v.* United States (T. D. 25387).

DECISIONS UNDER THE ACT OF 1894.

(*j*) Silk-striped cotton cloths dutiable as cloths composed of cotton and silk and not as bleached cotton.—T. D. 16096, G. A. 3060.

(*a*) "Maharajah," a cloth composed of cotton and silk (silk chief value, but cotton predominating in quantity), dutiable as composed of cotton and silk and not as a manufacture of cotton or of silk.—T. D. 17385, G. A. 3576.

(*b*) Batiste composed of silk, cotton, and linen (silk or cotton chief value and similar to silk-striped sleeve linings), dutiable under this paragraph.—T. D. 17560, G. A. 3651.

(*c*) Cloth in which cotton is the component material of chief value, but which also contains a small percentage of silk, is dutiable as cloth composed of cotton and silk and not as countable cotton.—T. D. 18089, G. A. 3891.

DECISIONS UNDER THE ACT OF 1890.

(*d*) Plaids, and loosely woven cotton fabric, colored brown, containing less than 150 threads to the square inch, having at intervals of 4 inches, both in the warp and weft, alternate narrow bars or stripes of red and yellow silk containing 6 threads each, assessed as cotton cloth containing an admixture of silk and claimed to be dutiable as a manufacture of silk. Protest overruled.—T. D. 12147, G. A. 1009.

(*e*) Broderie silk and cotton tapestry, a double texture fabric, the under portion composed wholly of cotton warp and weft, the upper portion of cotton warp and tussah silk in the weft, woven in raised figures assimilating embroidery, designed for upholsterers' use (cotton chief value), held dutiable as cotton cloth containing an admixture of silk.—T. D. 13700, G. A. 1938.

(*f*) Chinas held to be cotton cloth containing an admixture of silk.—T. D. 10900, G. A. 395.

312. Handkerchiefs or mufflers composed of cotton, whether in the piece or otherwise and whether finished or unfinished, if not hemmed, or hemmed only, shall pay the same rate of duty on the cloth contained therein as is imposed on cotton cloth of the same description, weight, and count of threads to the square inch; but such handkerchiefs or mufflers shall not pay a less rate of duty than forty-five per centum ad valorem. If such handkerchiefs or mufflers are hemstitched, or imita-
1897 tion hemstitched, or revered, or have drawn threads, they shall pay a duty of ten per centum ad valorem in addition to the duty hereinbefore prescribed, and in no case less than fifty-five per centum ad valorem; if such handkerchiefs or mufflers are embroidered in any manner, whether with an initial letter, monogram, or otherwise, by hand or machinery, or are tamboured, appliqued, or trimmed wholly or in part with lace or with tucking or insertion, they shall not pay a less rate of duty than sixty per centum ad valorem.

258. * * *, handkerchiefs, * * *, composed of cotton or other vegetable fiber, or of which cotton or other vegetable fiber is the com-
1894 ponent material of chief value, made up or manufactured wholly or in part by the tailor, seamstress, or manufacturer, all of the foregoing not specially provided for in this Act, forty per centum ad valorem.

349. * * * handkerchiefs, * * *, composed of cotton or other vegetable fiber, or of which cotton or other vegetable fiber is the component material of chief value, made up or manufactured wholly or in

part by the tailor, seamstress, or manufacturer, all of the foregoing not
1890 specially provided for in this act, fifty per centum ad valorem: *Provided*, That all such clothing ready made and articles of wearing apparel having India rubber as a component material (not including gloves or elastic articles that are specially provided for in this act), shall be subject to a duty of fifty cents per pound, and in addition thereto fifty per centum ad valorem.

1883 325. Cotton hemmed handkerchiefs, * * *, forty per centum ad valorem.

DECISIONS UNDER PARAGRAPH 312, ACT OF 1897.

(*a*) Mufflers of silk and cotton (cotton chief value) are not dutiable under this paragraph, the provision that they shall pay the same rate of duty on the cloth contained therein as is imposed on cotton cloth of the same description, weight, and count of threads to the square inch being inapplicable to the cloth that is made of cotton and silk. They are dutiable under paragraph 388.—Guiterman *v.* United States (113 Fed. Rep., 994), affirming T. D. 21627, G. A. 4562, followed; T. D. 23755, G. A. 5153.

DECISIONS UNDER THE ACT OF 1883.

(*a*) Cotton hemmed cotton handkerchiefs held to be hemstitched.—T. D. 10236, G. A. 14; reversed, T. D. 13595, G. A. 1867; 47 Fed. Rep., 875; 52 id., 121.

1894 [No corresponding provision.]

1890 [No corresponding provision.]

1883 [No corresponding provision.]

DECISIONS UNDER PARAGRAPH 313, ACT OF 1897.

(*d*) Cotton cloth ornamented with figures produced in the loom with the Jacquard or swivel attachments, whereby threads additional to the warp and filling threads in the groundwork of the fabric are introduced, are dutiable at the rates prescribed in paragraphs 304 to 309, plus 1 cent or 2 cents per square yard as provided in this paragraph.—T. D. 21568, G. A. 4541.

(*e*) Threads introduced by the Jacquard or swivel attachment for the purpose of ornamentation only, and which are partly cut away after the fabric is woven, are threads "other than the ordinary warp and filling threads."—Id.

(*f*) Threads so introduced to form so-called "dots" or "shots," as well as other figures, are introduced "to form a figure."—Id.

(*g*) Cotton cloth known as madras shirtings or as striped shirtings and as fancy vestings, having cord effects, small dotted lines and intermittent stripes, produced in the loom, either by the introduction of two or three ply threads or by "cramming" two or three single threads in the warp, the weaving being otherwise plain, are not subject to the additional duty per square yard, but are dutiable according to condition, count of threads, etc.—T. D. 21940, G. A. 4639; T. D. 22230, G. A. 4710.

(*h*) As a general rule threads, whether warp or filling, which lie parallel with all other threads in cotton fabrics, and which extend from end to end and from side to side, as the case may be, are not other than the warp and filling threads introduced in the process of weaving to form a figure. There are some exceptions to this rule, however, including some lappets, where threads which produce the effect are left to flow loosely, instead of being clipped off.—T. D. 21940, G. A. 4639; T. D. 22230, G. A. 4710.

(*a*) Threads in cotton cloth, whether warp or filling, which do not run parallel with other warp or filling threads of the fabric throughout its length or width, as the case may be, but which cross a number of such threads at a time in a diagonal or zigzag course, and thus form scalloped or notched figures, are "other than the ordinary warp and filling threads" in the process of weaving cloth.—T. D. 22230, G. A. 4710.

(*b*) Such threads, either warp or filling, in cotton cloths as only appear on the face of the fabric in the form of a figure, and when not so appearing float loosely on the back of the fabric, and which (like those above described) do not perceptibly contribute to the strength or stability of the fabric, whether such threads run parallel with the other threads the full length or width, as the case may be, of the fabric, or are clipped off, are likewise "other than the ordinary warp and filling threads."—T. D. 22230, G. A. 4710.

(*c*) Cotton cloth containing figures in various designs produced in the process of weaving, by means of the Jacquard, swivel, drop-box, lino, or other loom attachment, with threads introduced in the warp or filling of the character following, are dutiable under this paragraph: (1) Such as have threads which float loose between the figures on the back of the fabric or which have been clipped off after weaving; (2) such as have figure threads which pursue a zigzag, wavy, or serpentine course, whether partly clipped or not; (3) such as have threads running parallel to the ordinary warp or ordinary filling, but which lie wholly or mostly on top of and additional to the warp or filling; (4) such (in either case) as have figure threads which are not necessary to the integrity or stability of the fabric, or where the fabric would have been perfect if they had not been introduced.—T. D. 22604, G. A. 4808.

(*d*) Cotton cloths ornamented with figures produced in the process of weaving with the aid of the Jacquard, swivel, drop-box, leno, or other loom attachment fall within the provisions of this paragraph as cotton cloth "in which other than the ordinary warp and filling threads have been introduced in the process of weaving to form a figure."—Claflin *v.* United States (114 Fed. Rep., 259), affirming 109 Fed. Rep., 562, and T. D. 21568, G. A. 4541; and Mills *v.* United States (114 Fed. Rep., 257), affirming 109 Fed. Rep., 564, and T. D. 22604, G. A. 4808, followed; T. D. 23753, G. A. 5151.

(*e*) Cotton cloth with various raised designs and figures woven in the fabric, which designs and figures are produced by threads that form a part of the texture and which can not be removed without destroying the integrity of the fabric, is not subject to the additional duty provided in this paragraph. The word "ordinary" as used herein is so used to contradistinguish extraordinary threads which are an integral part of the fabric, but which are independent threads introduced to form a figure and for no other purpose.—T. D. 24842, G. A. 5508.

(*f*) A protest relating to goods within both paragraphs 307 and 313 is sufficient if claim is made under the former, the latter paragraph being but a counterpart of or conjoint provision with the former as to goods covered by both.—T. D. 25108, G. A. 5613.

(*g*) Cotton cloth containing figures produced by extra threads of silk, not being cotton cloth as defined in paragraph 310, does not come under the operation of this paragraph.—T. D. 26373, G. A. 6044.

(*h*) Double-faced cotton velours containing extra threads are subject to the additional duty provided herein.—T. D. 26447, G. A. 6065.

(*i*) The additional duties imposed by this paragraph upon cotton cloth in which other than the ordinary warp and filling threads have been introduced

in the process of weaving to form a figure are to be assessed in addition to the duty, whether specific or ad valorem, provided in the other paragraphs covering cotton cloth.—United States *v.* Riggs (203 U. S., 136; T. D. 27721), reversing 136 Fed. Rep., 583; T. D. 26156, and 131 id., 568; T. D. 25362, and affirming T. D. 24562, G. A. 5374, followed; T. D. 27728, G. A. 6484.

(*a*) Figured cotton cloth the warp and filling threads of which are bleached and the extra threads colored held to be dutiable as bleached cotton cloth and not as colored cotton cloth.—T. D. 27762, G. A. 6492; overruled in T. D. 28447, G. A. 6670.

(*b*) Cotton vestings that are dotted or figured by means of colored warp threads which hang loose on the reverse side and which may be removed without leaving a visible vacancy or weakening of the fabric are subject to the additional duty provided in this paragraph.—T. D. 28127, G. A. 6580.

(*c*) The word "threads" as used in this paragraph is used in the same sense as in all the countable provisions of the cotton schedule and includes whatever cotton fiber or filaments there is used in the fabrication of cotton cloth or articles. Cotton cloth into which other than the ordinary warp and weft threads are introduced for the purpose of forming a figure, which extra threads have been clipped off on the back at intervals, where they are not interwoven, are covered by this paragraph.—T. D. 28173, G. A. 6592.

(*d*) The general scheme of the tariff act was consistently to raise the amount of the tax on cotton cloth as the cloth becomes more expensive.—United States *v.* Riggs (203 U. S., 136; T. D. 27721).

(*e*) Cotton goods showing on the face of the fabric dots produced by warp threads, which on the reverse side look like stitches or basting threads and which may be removed without affecting the strength or integrity of the fabric, are dutiable under this paragraph as figured cotton cloth.—Gitterman *v.* United States (154 Fed. Rep., 169; T. D. 27975).

314. Clothing, ready-made, and articles of wearing apparel of every description, including neck-ties or neckwear composed of cotton or other vegetable fiber, or of which cotton or other vegetable fiber is the component material of chief value, made up or manufactured, wholly or in
1897 part, by the tailor, seamstress, or manufacturer, and not otherwise provided for in this Act, fifty per centum ad valorem: *Provided*, That any outside garment provided for in this paragraph having india-rubber as a component material shall pay a duty of fifteen cents per pound and fifty per centum ad valorem.

1894 258. Clothing ready made, and articles of wearing apparel of every description, handkerchiefs, and neckties or neck wear, composed of cotton or other vegetable fiber, or of which cotton or other vegetable fiber is the component material of chief value, made up or manufactured wholly or in part by the tailor, seamstress, or manufacturer, all of the foregoing not specifically provided for in this Act, forty per centum ad valorem.

275. * * * shirts and all other articles of wearing apparel of every description, not specifically provided for in this Act, composed wholly or in part of linen, fifty per centum ad valorem.

349. Clothing ready made, and articles of wearing apparel of every description, handkerchiefs, and neckties or neck wear, composed of cotton or other vegetable fiber, or of which cotton or other vegetable fiber is the component material of chief value, made up or manufactured wholly or in part by the tailor, seamstress, or manufacturer, all of the foregoing not specifically provided for in this act, fifty per centum ad valorem: *Provided*, That all such clothing ready made and articles of wearing apparel having India rubber as a component material (not including gloves or elastic articles that are specially provided for in this act), shall be subject to a duty of fifty cents per pound, and in addition thereto fifty per centum ad valorem.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*e*) Under the act of 1846 colored hosiery, consisting of gloves, stockings, and the like, composed wholly of cotton, sometimes colored in the piece and sometimes in the yarn before being made up or manufactured, and either printed, painted, or dyed, was classed under schedule E as "caps, gloves, leggings, mits, socks, stockings, wove shirts, and drawers made on frames, composed wholly of cotton, worn by men, women, and children," and subject to a duty of 20 per cent. Section 1 of this act reduced the duty on articles in schedule E to 15 per cent "with such exceptions as are hereinafter made." This

section provides that "all manufactures composed wholly of cotton, which are bleached, printed, painted, or dyed," shall be transferred to schedule C, subject to a duty of 30 per cent reduced by this act to 24 per cent. *Held*, that colored hosiery was transferred to schedule C and is dutiable at 24 per cent and did not remain in schedule E at 15 per cent.—Reimer *v.* Schell (4 Blatchf., 328; 20 Fed. (*a*) Cotton stockings, hose, or half-hose, knitted in stripes of different colors, running crosswise or transversely, and subsequently chain stitched longitudinally, with single strands of silk or cotton thread on a sewing machine, held dutiable under this paragraph and not under paragraph 339 as wearing apparel embroidered by hand or machinery.—T. D. 19807, G. A. 4225.

(*b*) Men's black cotton half-hose, which are likewise selvaged, fashioned, narrowed, or shaped, etc., and are "clocked," i. e., they have on either side a single fancy stripe, in various colored threads, terminating at the top in an arrow point or a similar shaped design, and separating toward the heel and toe, respectively, which is embroidered with the use of a needle or by machinery, although embroidered, are dutiable at the compound rate for half hose, the provision therefor being more specific than that for embroidered wearing apparel.—T. D. 22268, G. A. 4715.

(*c*) Men's black cotton half hose, selvaged, fashioned, narrowed, or shaped wholly or in part by knitting machines or frames, and which have several fancy, perpendicular stripes, about half an inch wide, of different colored threads, woven or stitched therein with a sewing machine or similar means, and which resemble embroidery, but are not in fact embroidery, are dutiable at the compound rates for half hose, and not under paragraph 339 as embroidered wearing apparel.—T. D. 22268, G. A. 4715.

(*d*) Cotton stockings, hose, or half hose, which are selvaged, fashioned, narrowed, or shaped wholly or in part by knitting machines or frames, or knit by hand, and which are more or less elaborately embroidered, with silk or other vegetable fiber threads, by hand or machinery, are dutiable according to value at the compound rates provided in this paragraph, and not at 60 per cent under paragraph 339, as cotton wearing apparel, embroidered, such being in accordance with the doctrine of G. A. 2719, to the effect that such compound rate is more specific, and, owing to the invoice value, is a higher rate than 60 per cent. If, on the contrary, the latter rate were the higher one the goods would be dutiable at such rate.—T. D. 22357, G. A. 4721.

(*e*) Stockings, hose, and half hose, composed of vegetable fiber, which are in any degree selvaged, fashioned, narrowed, or shaped by a knitting machine or frame, are dutiable under this paragraph and not under paragraph 317.—T. D. 25771, G. A. 5852.

Rep., 256; T. D. 27135), affirming (137 id., 978; T. D. 26220), followed; T. D. 27344, G. A. 6365.

DECISIONS UNDER THE ACT OF 1890.

(*h*) Eleven cases of unequal size contained an importation of hose and half hose at various prices. The appraiser apportioned the cost of the cartons in proportion to the value of the merchandise in fixing the value of the goods and the importer claimed that the value of the cases should be distributed in proportion to the quantity of each item. It is found that a dozen pairs of hose occupy twice as much space as a dozen pairs of half hose, and the protest is overruled.—T. D. 11082, G. A. 525. Reversed in 123 Fed. Rep., 195.

(*a*) Black cotton hose the feet only fashioned are hose fashioned.—T. D. 11337, G. A. 620.

The importer claimed that it was dutiable as cork bark, manufactured. The collector claimed that if not dutiable as oilcoth, it was dutiable as carpet or carpeting, or that it assimilated to oilcloth for floors, or that it assimilated in use to carpets and carpetings. DECISIONS UNDER PARAGRAPH 339, ACT OF 1897.

(*b*) Braids made of cotton or of which cotton or other vegetable fiber is chief value, although suitable for making or ornamenting hats, bonnets, or

D. 19092, G. A. 4091.

(*b*) Braids made of cotton or other vegetable fiber and of india rubber, irrespective of the value of the rubber component, are dutiable under this paragraph and not under paragraph 320, 322, or 449.—T. D. 19773, G. A. 4221.

(*c*) Braids composed of vegetable fiber and known as "herringbone," "featherstitch," "novelty," "wave," and "rickrack" braids are used chiefly or exclusively as trimmings. Braids of the same material known as "featheredge," "star," "Renaissance," or "Battenberg" braids, "guipure lace braids," and as "beading" are used as trimmings and in fancywork, also in making tidies, doilies, and other articles. Certain braids of vegetable fiber known as "hat braids" are used chiefly in making hats or bonnets, also for trimming hats and bonnets. Braids known as "shoe-lace braids" are used chiefly in making shoe laces, also to some extent as trimmings. All these and other braids composed of vegetable fiber, irrespective of their use, whether as trimmings or otherwise, are dutiable under this paragraph and not under paragraph 320, 322, or 347.—T. D. 20651, G. A. 4342; reversed, 99 Fed. Rep., 263, but sustained, 107 Fed. Rep., 15.

(*f*) Figured bar or fish nets or nettings of cotton or other vegetable fiber, made upon the Nottingham lace-curtain machine or the Nottingham warp machine, are dutiable as nettings and not as countable cottons, nor as a manufacture of cotton, nor as Nottingham lace.—T. D. 20729, G. A. 4361.

(*g*) Cotton robes, "spangled robes," "Renaissance lace robes," "pique robes," and "embroidered muslin or pique robes," cotton scarfs, white mull ties, white mull ties with laces, being completed articles of women's wearing apparel composed of embroidered netting and of cotton lace, are dutiable as embroidered wearing apparel and not under paragraph 314 as wearing apparel.—T. D. 20851, G. A. 4387.

(*h*) Veloutine, a woven fabric having a superimposed figure or ornament applied by growing a ground flock upon a preparation of glue stenciled in the form of the pattern to be put upon it, is an "appliqued" fabric and is not dutiable under paragraph 347 as a woven fabric not otherwise provided for.—T. D. 21375, G. A. 4481.

(*i*) Cotton wearing apparel made in part of lace or embroidered is dutiable as embroidered wearing apparel and not under paragraph 314 as wearing apparel.—T. D. 21570, G. A. 4543.

(*j*) Cotton fabrics the body or foundation of which is open woven-like netting, the warp and filling threads being more closely twisted and comprising

two distinct threads like cord, the fabric ornamented with braid longitudinal stripes and figure effects resembling embroidery, produced by the Jacquard attachment, with small cotton threads differing in color from the body of the fabric, are dutiable as etamine or vitrage and not as dyed or colored cotton cloth.—T. D. 21589, G. A. 4549.

(*a*) Cotton fabrics described in the invoice as "oriental stripes," "printed canvas," "cotton canvas," and "Congress canvas," some having alternating close-woven stripes and fancy reticulated openwork, like lace netting, in different colors, and others a foundation or ground of plain woven openwork, like some kinds of netting, with fancy stripes about 4 inches wide near the edges, composed of different colored threads and cords and including a variety of openwork resembling some features of Spanish drawn-work lace, are dutiable as etamines and vitrages.—T. D. 21894, G. A. 4623.

(*b*) Doilies, napkins, tray napkins, table and bureau covers, pillow shams, and bedspreads composed of flax, ornamented throughout or near the border with open and close work figures, produced by removing, drawing, looping, interlacing, or otherwise manipulating the warp and weft threads of the foundation fabric, and the employment of additional and different threads, and which is known as drawn work, are dutiable as imitation lace and not under paragraph 322 as manufactures of cotton nor paragraph 347 as manufactures of flax.—T. D. 21944, G. A. 4643.

(*c*) Window curtains, bed sets, tidies, and other articles of cotton or other vegetable fiber made wholly or chiefly by or wholly or in part on machines or frames, and which are distinguished in commerce and common speech by the generic terms "lace" or "laces" or as "embroidered" or "tamboured," in connection with subordinate designations indicative of the peculiar style, use, and place or method of production, are dutiable as laces and lace and embroidered articles.—T. D. 21918, G. A. 4631.

(*d*) Lace window curtains partly made on the Nottingham machine, being completed when they leave the machine, except as to the bleaching or dressing, starching, and finishing, but which are afterwards subjected to a further process of manufacture, which consists in running them through what is known as a cording machine (not a Nottingham machine), which sews the cord onto the curtain, the addition of the cord increasing the value of the curtains and forming from 37 to 45 per cent of their value, are dutiable as window curtains and not as Nottingham curtains.—T. D. 21942, G. A. 4641.

(*e*) The term "tuckings" is not limited to merchandise wherein the tuck or plait has been made by sewing, but applies also to goods wherein the tuck or plait has been made by weaving. Woven tuckings are, accordingly, dutiable as tuckings.—T. D. 22162, G. A. 4700.

(*f*) Fancy vegetable-fiber articles consisting of a succession of oblong oval or elliptical or lacework forms, with purled edges, each about a half inch, and slightly over a quarter of an inch wide at the center, which are connected by threads drawn together in the form of a cord, chiefly used in making so-called Renaissance or Battenberg tidies, covers, and other lace articles and in trimming garments, commercially known as "Renaissance braid," "Battenberg braid," "lace braid," "fancy braid," "novelty braid," etc., are dutiable as lace articles.—T. D. 22266, G. A. 4713.

(*g*) Table covers wrought in a variety of circular and other fancy geometrical solid and openwork designs with a crochet hook or needle and composed of white vegetable-fiber thread or cord are dutiable as articles made wholly or in part of lace and not under paragraph 322 as manufactures of cotton.—T. D. 22267, G. A. 4714.

(*a*) Oriental curtains, table covers, and borders, composed of plain woven cotton cloth of deep red color, profusely ornamented in barbaric style with figures produced by stamping, either with so-called Dutch metal or bronze powder, and with convolved or raised figures composed of brass, tin, or other metal foil applied with glue, are dutiable as appliqued articles.—T. D. 22675, G. A. 4827.

(*b*) Women's corsets made of cotton and other materials (cotton chief value), trimmed around the upper border with cotton lace edgings, whose relative value to the corsets is from 1 to 2 per cent, are dutiable as wearing apparel made wholly or in part of lace, and not under paragraph 314 as cotton wearing apparel. T. D. 20651, G. A. 4342; sustained, and 99 Fed. Rep., 263, reversed.—United States *v.* Altman, (C. C. A.), (107 Fed. Rep., 15).

(*c*) Braids composed of cotton or other vegetable fiber, and india rubber, are dutiable at 60 per cent, as braids, and not under paragraph 449 as manufactures of india rubber. The india-rubber threads used in making such braids are of greater value than the cotton threads employed therein, in the condition of thread, but the expense applied to the cotton thread in converting the two kinds of threads into braid is some nine times more than is applied to the india-rubber thread, and makes cotton the component material of chief value in its condition as found in the article.—T. D. 23073, G. A. 4929.

(*d*) Lace window curtains only partially made on a Nottingham machine, and in part manufactured on another and different machine, which greatly enhances their value, are dutiable under this and not under paragraph 340. Sustaining the board.—In re Smith (108 Fed. Rep., 800).

(*e*) Braids and laces, composed of cotton or other vegetable fiber, and of chip, straw, and grass, cotton or other vegetable fiber being the component material of chief value, and which are intended for making or ornamenting hats, bonnets, or other articles, are dutiable as braids, and not under paragraph 408, as braids, paragraph 322, as manufactures of cotton, paragraph 347, as manufactures of vegetable fiber, or any other paragraph.—T. D. 22843, G. A. 4876.

(*f*) Women's corsets, corset covers, shirts, drawers, and other articles, trimmed with lace or embroidered edging, inserting, beading, or other trimming, composed of cotton or other vegetable fiber, or silk, and boleros, robes, galloons, scarfs, and other articles, composed wholly or in part of lace or of embroidery, or which are embroidered in some manner, are dutiable at 60 per cent under this and paragraph 390 for wearing apparel and other articles, made wholly or in part of lace, or in imitation of lace, and for wearing apparel, handkerchiefs, and other articles or fabrics, embroidered in any manner by hand or machinery, galloons, nets or nettings, etc., irrespective of the cost or value of such trimming or embroidery.—T. D. 22868, G. A. 4879.

(*g*) Cotton braids, intended to be manufactured into shoe laces, though not trimmings, are dutiable under this paragraph. The intention that the word "including" was used, not by way of specification, but by way of addition, is shown by a comparison of the acts of 1897 and 1894, indicating that braids were intentionally taken out of the provisions of paragraph 322 for manufactures of cotton aud put in the 60 per cent paragraph, irrespective of the use to which they may be applied.—Hiller *v.* United States, (C. C. A.), (106 Fed. Rep., 73).

(*h*) Strips of cotton cloth, about 2¾ inches in width, without hem or selvage, and having an ornamental design in red running lengthwise in the fabric in three parallel lines printed thereupon and used as ornamental attachments to night garments, are not dutiable as countable cotton cloth under the provisions

of the cotton schedule, act of 1897, but are properly dutiable as "trimmings," at the rate of 60 per cent ad valorem, under this paragraph. The courts have decided that the word "trimming" has no signification in trade differing from its ordinary and popular meaning. (Saltonsall *v.* Wiebusch, 156 U. S., 601.) That which is used in the nature of ornamenting, embellishing, decorating, improving the appearance of, or giving a finished effect to, a garment or an article, is necessarily a "trimming" in the full understanding and common acceptance of the word.—T. D. 23542, G. A. 5084.

(*a*) Braids, etc., composed of cotton and other vegetable fiber, and other materials, including such as are known as "Battenberg braids," "crown braids," "featherstitch braids," "feather-edge braids," "guipure lace braids," "herringbone braids," "honiton braids," "linen bobbins," "novelty braids," "renaissance braids," "rickrack braids," "star braids," "wave braids," and by various other names, and which are of the same general character as those that were the subject of G. A. 4326, are dutiable at 60 per cent ad valorem under this paragraph.—Hiller *v.* United States (106 Fed. Rep., 73), followed; T. D. 23564, G. A. 5096.

(*b*) Flax towels having both ends finished with a scalloped edge, the edges being overstitched and the stitching done on an ordinary sewing machine and not an embroidery machine, are not embroidered articles.—T. D. 24243, G. A. 5282.

(*c*) Lace curtains made partly on Nottingham lace curtain machines and partly on other machines are dutiable under this paragraph and not under paragraph 340.—T. D. 21942, G. A. 4641; In re Smith (108 Fed. Rep., 800), and Smith *v.* Read (111 Fed. Rep., 795), cited and followed; T. D. 24263, G. A. 5291.

(*d*) Linen bobbins consisting of braided linen fillets about one-eighth of an inch wide and 3 yards long, put up in small bundles, are commercially known as "tapes," and, as such, properly dutiable under this paragraph.—Wolff *v.* United States (116 Fed. Rep., 1023), reversing T. D. 20515, G. A. 4326, followed; T. D. 24302, G. A. 5302.

(*e*) Trimmings, stamped or cut by machine out of cotton velveteen fabric, which have undergone a further finishing process on another and different machine by having a heavy silk cord sewed around the edges of the trimming and a lace design sewed on the back, are dutiable under this paragraph and not under paragraph 315.—T. D. 24496, G. A. 5354.

(*f*) Ladies' cotton collars made of small tuckings are not dutiable as articles made wholly or in part of tuckings but as articles of wearing apparel under paragraph 314.—T. D. 24509, G. A. 5357.

(*g*) Cotton nets or nettings, cut into narrow strips or small pieces and designed for use in lining the sides and crowns of hats, being known as hat tips, strips, and sides, are dutiable under the provision herein for nets or nettings.—Tilge *v.* United States (115 Fed. Rep., 254), affirming T. D. 16808, G. A. 3327, followed; T. D. 24784, G. A. 5476.

(*h*) Braids composed wholly of hemp are dutiable as braids of vegetable fiber and not as manufactures of hemp not specially provided for under paragraph 347. The eo nomine provision for braids of vegetable fiber being more specific than the provision for manufactures of hemp not specially provided for.—T. D. 24972, G. A. 5569.

(*i*) Garnitures, hussar sets, and other completed unities, known in the trade as ornaments and bought and sold by the dozen or gross, held to be dutiable as manufactures according to the component material of chief value, and not as trimmings.—United States *v.* Garrison (127 Fed. Rep., 1022; T. D. 25072), affirming (121 id., 149), reversing T. D. 21060, G. A. 4425, followed; T. D. 25254, G. A. 5664.

(*a*) Cotton labels upon which fancy initials are embroidered are dutiable at 60 per cent under the proviso to this paragraph.—T. D. 26006, G. A. 5907.

(*b*) Machine scalloping is not embroidery.—T. D. 26030, G. A. 5918.

(*c*) Cotton knit shawls are not imitation cotton lace wearing apparel.—T. D. 26369, G. A. 6040.

(*d*) Button material such as is specified in paragraph 413, when embroidered, falls within the proviso to this paragraph, and is dutiable thereunder at 60 per cent.—T. D. 26371, G. A. 6042.

(*e*) Congress canvas, camille canvas, and other cotton fabrics, ecru or white in color, fabricated with a plain weave of hard-twisted threads, so that the open effect of the meshes is preserved by the character of the threads used, are properly dutiable at the rate of 60 per cent ad valorem as etamines under the provisions of this paragraph. In the construction of tariff laws a word used in a tariff act may be susceptible of a free trade meaning as designating a special group of articles such as etamines, although each article is always bought and sold by its specific trade name, such as congress canvas or camilla canvas, and none by the group designation. In re Herrman (56 Fed. Rep., 477), followed. Articles having a distinct trade name and use, made of etamines, having passed beyond the category of such and become distinct and separate articles in the trade, when made of cotton yarns are properly dutiable according to count of threads, weight, value, etc., under the provisions of paragraphs 304 to 309.—T. D. 26692, G. A. 6147.

(*f*) Tents composed in chief value of cotton, upon which are appliqued various figures and designs, are dutiable as appliqued articles.—T. D. 26832, G. A. 6190.

(*g*) Embroidery defined to be an ornamental design produced by needlework upon the surface of a fabric.—T. D. 26853, G. A. 6205.

(*h*) Cotton braids, both flat and tubular, imported in lengths of from 120 to 144 yards, which are intended to be used in making shoe laces, being cut into suitable lengths and tagged for the purpose, are dutiable as cotton braids.—Barthels Manufacturing Company *v.* United States (T. D. 26903), followed; T. D. 26954, G. A. 6245.

(*i*) Certain braided articles varying from one-eighth to one-half of an inch in width, made of cotton, found to be commercially known as tapes.—T. D. 27060, G. A. 6278.

(*j*) Braids composed wholly or in chief value of ramie are dutiable as braids of vegetable fiber and not as manufactures of ramie.—United States *v.* Rosenberg (145 Fed. Rep., 343; T. D. 27033, reversing Rosenberg *v.* United States (T. D. 25833), and affirming Abstracts 1230/32 (T. D. 25261), followed; T. D. 27062, G. A. 6280.

(*k*) The proviso to this paragraph is limited in the scope of its application to articles and fabrics ejusdem generis with wearing apparel, textile fabrics, etc., and does not apply to embroidered fans.—T. D. 24073, G. A. 5235.

(*l*) Narrow filets of cotton, braided on a braiding machine, held to be dutiable as tapes and not as braids.—Ranft *v.* United States (T. D. 25180), reversing without opinion T. D. 24287, G. A. 5297, followed; T. D. 25216, G. A. 5650.

(*m*) Embroidered articles and fabrics composed of ramie are dutiable at 60 per cent by virtue of the proviso in this paragraph relative to embroideries.—Sternfeld *v.* United States (T. D. 27773), affirming by consent T. D. 24968, G. A. 5565, followed; T. D. 27794, G. A. 6506.

(*a*) Embroidered hosiery is dutiable under the provisions of paragraph 318 except when the rate of duty therein levied is less than 60 per cent; in which event the hosiery is dutiable at the latter rate by virtue of the proviso to this paragraph.—Carter *v.* United States (143 Fed. Rep., 256; T. D. 27135), affirming 137 id., 978; T. D. 26220, followed; T. D. 27344, G. A. 6365.

(*b*) It is familiar doctrine that a proviso is to be strictly construed and that it is to be confined to what precedes it, but it is equally fundamental that when, by the terms of the proviso, it was manifestly intended to apply to the entire act generally, it must be so treated and construed.—Ibid.

(*c*) Articles made of cotton braid, thread, and rings, and which are commercially known as "Renaissance lace motifs," are dutiable as laces or articles made wholly or in part of lace.—Cohen *v.* United States (suit 4127, T. D. 27430), affirming T. D. 26750, G. A. 6163, followed; T. D. 27441, G. A. 6386.

(*d*) Articles commercially known at and prior to the passage of the tariff act of 1897 as "featherstitch braids" are dutiable under the provisions for cotton braids in this paragraph.—Vom Baur *v.* United States (141 Fed. (*e*) Embroidered parasols are dutiable under the proviso to this paragraph as embroidered articles, the rate therein levied being higher than that imposed by paragraph 462.—T. D. 27634, G. A. 6450.

(*f*) Where threads are withdrawn from a woven fabric or article, whether the same is known in trade as "drawnwork," "napkins," "doilies," or other name, and other threads introduced, forming out of the remaining warp or weft or either such threads a figure, but making no figure out of the threads alone thus introduced, such an article is and continues to be one with drawn threads only; but where out of the threads introduced and by the manipulation of these threads alone a figure is formed, which figure is a lace figure or is in imitation of some lace figure or effect, such an article is in part of lace or in part in imitation of lace; when, however, such figure formed of such extra threads alone is not in imitation of any lace figure or effect, but is ornamental, such is an embroidery, and the article is to that extent embroidered.—T. D. 27644, G. A. 6452.

(*g*) Embroidered cotton gloves are dutiable under the proviso to this paragraph and not as cotton wearing apparel under paragraph 314.—T. D. 27663, G. A. 6461.

(*h*) Braids made of cotton or other vegetable fiber and india rubber are dutiable at 60 per cent under this paragraph irrespective of the value of the rubber component.—Hague *v.* United States (73 Fed. Rep., 810), followed; T. D. 27778, G. A. 6496.

(*i*) Cotton shirts embroidered with initial letters are dutiable under the specific provision in this paragraph for wearing apparel embroidered with a letter or monogram. The embroidery work need not necessarily be ornamental in character to bring the articles on which it appears within the scope of this provision. Expressions of opinion in T. D. 26853, G. A. 6205, and T. D. 27663, G. A. 6461, not in harmony with this view are to be considered as modified accordingly.—T. D. 28170, G. A. 6589.

(*c*) Women's collar and cuff sets made of Battenberg braids in imitation of lace are dutiable under the provision contained in this paragraph for "articles made in imitation of lace," which phrase does not appear to have any trade meaning or to be other than merely a descriptive phrase.—United States *v.* Hesse (158 Fed. Rep., 407; T. D. 28519), reversing (154 id., 171; T. D. 27980), and affirming (T. D. 27086, G. A. 6283).

(*d*) Scarfs, collars, fichus, ties, and similar articles of wearing apparel, made wholly or in part of cotton or other vegetable fiber, are dutiable as wearing apparel made wholly or in part of lace and not as articles of cotton wearing apparel including neckties or neckwear.—Goldenberg *v.* United States (130 Fed. Rep., 108; T. D. 25220), affirming 124 Fed. Rep., 1003, and T. D. 22868, G. A. 4879, followed; T. D. 25844, G. A. 5866; affirmed without opinion in Goldenberg et al., v. United States (suits 3764, etc.), T. D. 27093.

(*e*) Lace collars composed wholly or in chief value of cotton are dutiable as wearing apparel made wholly or in part of lace and not as articles of wearing apparel including neckties, or neckwear. The contention of the importer that the term "lace articles" means only an article that is made from lace in the piece, overruled.—Goldenberg *v.* United States (152 Fed. Rep., 658; T. D. 27894), affirming T. D. 27113, G. A. 6290.

(*f*) Braids made of horsehair and cotton held to be dutiable by similitude as cotton braids.—T. D. 24817, G. A. 5496.

(*i*) The word "etamines," as used in this paragraph, is used in a denominative and not in a descriptive sense, and, as such, embraces only such goods as were in the trade and commerce of this country on July 24, 1897, so generally and uniformly known. Certain goods held not so known, and others, held dutiable as etamines by reason of the presumption of correctness attending the return of the collector, and in the absence of evidence disproving the same.—T. D. 25580, G. A. 5790.

(*j*) The uniformly attendant characteristics of goods generally and uniformly known as "etamines" in this country described, and certain goods held not generally or uniformly known in this country as "etamines" or "vitrages."—T. D. 26062, G. A. 5928.

(*l*) Women's corsets made chiefly of cotton, trimmed on the upper border with cotton lace, are dutiable as wearing apparel "made wholly or in part of lace."—Wanamaker *v.* United States (120 Fed. Rep., 16).

(*a*) In the fabrication of braids made of cotton and india rubber, it was found that nine-tenths of the cost of the labor involved was bestowed on the braiding of the cotton threads around the rubber filaments. It was held proper in determining component material of chief value to add this amount to the value of the cotton component, making the braids dutiable as braids in chief value of cotton, notwithstanding that in their condition as thread the rubber exceeded the cotton in value.—Calhoun *v.* United States (122 Fed. Rep., 894), affirming T. D. 20554, G. A. 4332.

While there is some doubt whether these articles are made in part in imitation of lace, it is clear that certain of the ornamental work is embroidery.—Beach *v.* Sharpe (154 Fed. Rep., 543; T. D. 28281).

(*f*) Certain narrow woven fabrics with interwoven patterns or effects along the edge thereof, and similar articles colored and ornamented with raised effects found to be trimmings and featherstitch braids, respectively, and not bindings as claimed.—T. D. 28457, G. A. 6671.

(*g*) It was the evident intention of Congress to grade the duties on handkerchiefs in accordance with the advancement of the goods in condition, and accordingly hemstitched lace-trimmed handkerchiefs are dutiable as made in part of lace rather than as hemstitched handkerchiefs.—T. D. 28594, G. A. 6688.

(*h*) Linen shirt waists each consisting of several pieces of embroidery and one piece of plain cloth packed in separate cartons, sold as entireties and intended to be used as such, are dutiable as wearing apparel partly manufactured, and being embroidered, are dutiable under paragraph 339 by virtue of the proviso therein.—T. Rep., 78, affirmed.—In re Gribbon (C. C. A.), (55 Fed. Rep., 874).

(*m*) In affirming the judgment of the Circuit Court it is not to be taken that we concur in the opinion that the embroidered handkerchiefs which are not hemstitched are, by the proviso of this paragraph, dutiable as embroidered textile fabrics. It would seem that they are manufactured articles advanced beyond and outside of the category of textile fabrics, and, like hemstitched handkerchiefs, dutiable under paragraph 349 (1890) as handkerchiefs. We do not decide this proposition definitely, however, because the case is here upon an appeal by the collector only.—Id.

(*i*) The phrase "materials of which they are respectively composed" refers to the wearing apparel and textile fabrics and not to the material of which the embroideries are composed.—T. D. 12949, G. A. 1500.

(*j*) The main object of the proviso in this paragraph was to prevent the classification by their specific names of articles embroidered with some material, which classification would render them dutiable at a lower rate than embroideries of that material; but such articles may be dutiable at a greater rate, because a higher duty may be imposed upon articles of that specific description.—In re Schefer (C. C. A.), (53 Fed. Rep., 1011).

364. Burlaps, not exceeding sixty inches in width, of flax, jute, or
1890 hemp, or of which flax, jute, or hemp, or either of them, shall be the component material of chief value (except such as may be suitable for bagging for cotton), one and five-eighths cents per pound.

338. Burlaps, not exceeding sixty inches in width, of flax, jute, or
1883 hemp, or of which flax, jute, or hemp, or either of them, shall be the component material of chief value (except such as may be suitable for bagging for cotton), thirty per centum ad valorem.

DECISIONS UNDER PARAGRAPH 341, ACT OF 1897.

(*d*) The phrase "plain woven fabrics" includes double warp fabrics not twilled or figured in any manner in the process of weaving and otherwise falling within the descriptive terms of this paragraph. Certain jute canvas suitable for artists' nse held dutiable under this paragraph and not under paragraph 347.—T. D. 19098, G. A. 4097.

(*e*) Certain double warp jute canvas held dutiable as plain woven fabrics and not as manufactures of jute.—T. D. 22560, G. A. 4785.

(*f*) Coarse jute fabrics, plain woven, known as "buckram" not exceeding 60 inches in width, weighing over 6 ounces per square yard, not exceeding 30

threads to the square inch, are dutiable under this paragraph, the mere process of signing or calendering not being sufficient to make the goods dutiable under paragraph 347 as manufactures of vegetable fiber.—T. D. 20611, G. A. 4337.

(*a*) Canvas woven with double warp and single filling each of single jute yarn, the weaving being plain, is dutiable as a plain woven fabric and not under paragraph 347 as a manufacture of vegetable fiber.—United States *v.* Lamb (C. C.), (99 Fed. Rep., 262).

(*b*) "Plain woven fabrics" mean "plain" as distinguished from twilled or figured effects produced in the process of weaving.—T. D. 23386, G. A. 5035.

(*c*) Bagging composed of plain woven single jute yarns of comparatively fine texture, suitable for the bagging of beans, potatoes, and other products, and which is not suitable ordinarily for the bagging of cotton, but only so in exceptional cases, as for bagging what is known as Sea Island cotton, is not "bagging for cotton" within or dutiable under the provisions of paragraph 344, and is not dutiable under the provisions of paragraph 347 as a "manufacture of vegetable fiber," but is properly dutiable as a "plain woven fabric of single jute-yarns" according to width, count of threads, and weight, under the provisions of this paragraph, that being more specific than said paragraph 347. Suitable for covering cotton means practically fit or appropriate for such use as indicated by the common use of those who bale cotton for shipment or transportation. When an article is commonly used for a given purpose it may be said to be "suitable" for such purpose; when not so used it can not ordinarily be said to be "suitable."—Chew Hing Lung *v.* Wise (176 U. S., 156) followed; T. D. 23719, G. A. 5135.

(*d*) Certain colored fabrics known as monks' cloth, woven double in warp and weft, from jute yarns not advanced beyond the condition of singles, are, when weighing not less than 6 ounces to the square yard, and not exceeding 60 inches in width, dutiable under this paragraph, as "plain woven fabrics of single jute yarns." The word "single" refers only to the condition of the yarns and not to the manner of weaving.—T. D. 24191, G. A. 5269.

(*e*) Bagging composed of plain woven single jute yarns of comparatively fine texture, suitable for the bagging of beans, potatoes, or other products, and not suitable ordinarily for the bagging of cotton is not dutiable as bagging for cotton.—T. D. 23719, G. A. 5135.

(*f*) Jute fabrics, known on the Pacific coast and used as hop cloth, made of plain woven fabrics of single jute yarns of a comparatively fine texture, and not ordinarily suitable for covering cotton, are dutiable according to count of threads and weight under this paragraph.—T. D. 24566, G. A. 5378.

DECISIONS UNDER THE ACT OF 1894.

(*g*) The fact that articles which in their natural color are known as burlaps are dyed or colored does not necessarily change their classification. *Held*, that dyed, colored, or striped burlaps of jute are free as burlaps and not dutiable as manufactures of jute.—T. D. 14379, G. A. 2263; T. D. 16848, G. A. 3367; and United States *v.* White (not reported) followed; T. D. 22988, G. A. 4916.

D. 12570 G. A. 1254.

(*g*) The act of 1883 (paragraph 334) provided especially for a duty on padding and canvas different from burlaps (paragraph 338), but the act of 1890 omitted any special mention of padding or canvas. *Held*, that as jute padding or canvas is a species of burlaps, they are now dutiable as such.—In re White (C. C.), (53 Fed. Rep., 787).

DECISIONS UNDER PARAGRAPH 343, ACT OF 1897.

(*a*) Jute bags containing only a single colored stripe, trivial in value and character, are not colored or dyed bags such as are excluded from the provisions of this paragraph. (*b*) Second-hand burlap flour bags made of single jute yarns, bearing a fanciful design in two colors, consisting of an ornamental arrangement of dots and other figures, with words referring to the original contents of the bags, and including a facsimile of the device usually found on the heads of flour barrels, are held to be printed, painted, or colored, within the meaning of this paragraph and hence are excluded therefrom.—Koscherak *v.* United States (98 Fed. Rep., 596), applied; T. D. 23870, G. A. 5177.

(*d*) A twilled jute fabric or bag is one in which the weft thread is alternately raised over two or more warp threads and passed under one of such, or vice versa, this process being so alternated in regular order across the fabric that a diagonal effect is produced. DECISIONS UNDER THE ACT OF 1890.

Duty was assessed under this paragraph, and the Board sustained the action of the collector. The importer claimed that the bags were free under section 7, act of February 8, 1875. *Held,*

that the acts of 1883 and 1890 were intended to be exhaustive and to take the place of all prior legislation, and that section 7 of the act of February 8, 1875, was thereby repealed.—Kent v. United States (C. C.), (68 Fed. Rep., 536); affirmed (C. C. A.), (73 Fed. Rep., 680).

DECISIONS UNDER THE ACT OF 1883.

(*d*) Single warp jute fabrics 48 and 50 inches wide, chiefly used as bagging for Sea Island cotton, held to be bagging.—T. D. 10953, G. A. 448.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*e*) Gunny cloth is not subject to duty as cotton bagging.—Bacon *v.* Bancroft, (1 Story, 341; 2 Fed. Cas., 321).

(*f*) If, before this act, gunny cloth and bags were not known to merchants under the general head of cotton bagging, but had a distinctive name, then the cloth and bags should not be taxed at 3½ cents per square yard as cotton bagging. Verdict for plaintiff.—Lee *v.* Lincoln, (1 Story, 610; 4 Law Rep., 301; 6 Hunt Mer. Mag., 174; 15 Fed. Cas., 210).

(*g*) Substances not used for cotton bagging before this act are not dutiable as such under it.—Martin *v.* Curtis (Betts Scr. Bk., 99; 16 Fed. Cas., 892).

(*h*) Whether gunny cloth was used for cotton bagging before this act is a question for the jury.—Id.

(*i*) A tariff act imposing the duty on articles used for a particular purpose should not be construed to include articles not so used at the time of the passage of the act, in the absence of an express provisiou to that effect.—Martin *v.* Curtis (Betts Scr. Bk., 99; 16 Fed. Cas., 892).

(*j*) In this case the collector had exacted a duty of 3½ cents a square yard on gunny cloth as cotton bagging. The importer recovered.

(*k*) A duty on cotton bagging can be levied only on articles known as such in commerce when the act imposing the duty was passed.—Curtis *v.* Martin (3 How., 106).

345. 1897

1894 [Not enumerated. Dutiable under paragraph 258, page 392.]

1890 [Not enumerated. Dutiable under paragraph 349, page 392.]

1883 334. * * * handkerchiefs, * * * of flax, * * * hemp, * * * thirty-five per centum ad valorem.

DECISIONS UNDER PARAGRAPH 345, ACT OF 1897.

(*l*) Linen handkerchiefs, revered and hemstitched, and having an inner ornamental border of geometrical openwork, produced by drawn threads, are

dutiable as hemstitched handkerchiefs and not under paragraph 339 as lace, nor paragraph 347 as manufactures of vegetable fiber.—T. D. 21716, G. A. 4587.

(*a*) There are, however, styles of ornamentation produced by drawing, looping, interlacing, and otherwise manipulating the threads in woven fabrics which closely resemble lace and such articles are dutiable as lace.—Id.

(*b*) Linen squares, ranging in sizes from 6 by 6 to 9 by 9 inches, with hem not exceeding half an inch in width, used chiefly as centers for lace handkerchiefs, are dutiable under this paragraph as "unfinished" handkerchiefs.—T. D. 24367, G. A. 5323.

(*c*) Unhemmed squares and other geometrical figures cut from flax cloth, the principal use of which is in the manufacture of handkerchiefs, are dutiable as unfinished handkerchiefs.—Meyer *v.* United States (138 Fed. Rep., 974; T. D. 26075), affirming T. D. 23745, G. A. 5143, followed; T. D. 26148, G. A. 5963.

(*d*) It was the evident intention of Congress to grade the duties on handkerchiefs in accordance with the advancement of the goods in condition, and accordingly, hemstitched lace-trimmed handkerchiefs are dutiable as made in part of lace rather than as hemstitched handkerchiefs.—T. D. 28594, G. A. 6688.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*e*) Linen pocket handkerchiefs, hemstitched or hemmed, are dutiable as linens and not as articles worn by men, women, or children made up wholly or in part by hand.—Richardson *v.* Lawrence (1 Blatchf., 501; 20 Fed. Cas., 717).

(*f*) It seems that a distinction has always been recognized and acted upon between articles worn upon the person and articles carried about the person.—Id.

(*g*) Cambric linen handkerchiefs cut from the piece and hemmed and stitched abroad are free as linen cambric and are not dutiable as ready made clothing or as manufactures of hemp or as millinery.—Sheldon *v.* Swartwout (47 Niles' Reg. 189; 21 Fed. Cas., 1242).

346. Woven fabrics or articles not specially provided for in this Act, composed of flax, hemp, or ramie, or of which these substances or either of them is the component material of chief value, weighing four and one-half ounces or more per square yard, when containing not more than sixty threads to the square inch, counting the warp and filling, one and three-fourths cents per square yard; containing more than sixty and not more than one hundred and twenty threads to the square inch, two and three-fourths cents per square yard; containing more than one hundred and twenty and not more than one hundred and eighty threads to the
1897 square inch, six cents per square yard; containing more than one hundred and eighty threads to the square inch, nine cents per square yard, and in addition thereto, on all the foregoing, thirty per centum ad valorem: *Provided*, That none of the foregoing articles in this paragraph shall pay a less rate of duty than fifty per centum ad valorem. Woven fabrics of flax, hemp, or ramie, or of which these substances or either of them is the component material of chief value, including such as is known as shirting cloth, weighing less than four and one-half ounces per square yard and containing more than one hundred threads to the square inch, counting the warp and filling, thirty-five per centum ad valorem.

1894 [Not enumerated. Dutiable under paragraph 277, page 460.]

1890 [Not enumerated. Dutiable under paragraphs 371 and 374, page 460.]

339. Oil-cloth foundations, or floor-cloth canvas, or burlaps exceeding
1883 sixty inches in width, made of flax, jute, or hemp, or of which flax, jute, or hemp, or either of them, shall be the component material of chief value, forty per centum ad valorem.

(*a*) Fringes of linen towels which contain warp threads only are not to be included in the ascertainment of the specific or square-yard feature of the duty.—T. D. 18979, G. A. 4077.

(*b*) The proportion of the fabric which is reversed or folded and forms the hem in linen towels is to be included in the ascertainment of the specific or square-yard feature of the duty.—Id.

(*c*) So-called flax napkins, imported in pieces or lengths of 240 inches, and about 22 inches wide, held to be woven fabrics within the meaning of this paragraph and dutiable according to weight and count of threads.—Arnold *v.* United States (147 U. S., 494), applied; T. D. 19199, G. A. 4120.

(*d*) Linen doilies and tray cloths, weighing under 4½ ounces to the square yard and containing more than 100 threads to the square inch are dutiable under the last clause of this paragraph as woven fabrics of flax, and not under paragraph 347 as manufactures of flax. Reversing T. D. 19199, G. A. 4120.—McBratney *v.* United States (C. C.) (99 Fed. Rep., 424).

(*e*) Linen napkins whether in the piece or finished articles and linen doilies in complete form, if weighing 4½ ounces or more per square yard. *Held*, to be "articles" within the meaning of the proviso to this paragraph and subject to no less duty than 50 per cent.—Junge *v.* Hedden (146 U. S., 233) followed. In estimating the number of square yards in fringed scarfs, the fringe should be excluded.—Following T. D. 18979, G. A. 4077; T. D. 19199, G. A. 4120.

(*f*) So-called Roman canvas, used by artists for oil painting, composed of flax and coated on one side with paint, the other side remaining in its original condition, is dutiable as a woven fabric, and not under paragraph 347 as a manufacture of flax not specially provided for. This process of coating canvas does not so change its character as to remove it from the application of a provision for fabrics the rate of duty on which is fixed by their weight and by the number of threads per square inch.—T. D. 15140, G. A. 2666; T. D. 17271, G. A. 3533, followed; T. D. 21325, G. A. 4465.

(*g*) Flax towels of the kind known as "macrame" towels or as "knotted fringed" towels, which are ornamented at the end with a fancy fringe, such ornamentation being about 6 inches in width, are dutiable as woven articles of flax and not under paragraph 339 as articles made wholly or in part of lace or imitation lace.—T. D. 22764, G. A. 4854.

(*h*) In this paragraph the words "fabrics" and "articles" are used interchangeably, so that the provision in the last clause for woven fabrics weighing less than 4½ ounces to the square yard applies not only to piece goods, but to articles like doilies and tray cloths. 99 Fed. Rep., 424, affirmed.—United States *v.* McBratney (C. C. A.), (105 Fed. Rep., 767).

(*i*) The proviso in this paragraph prescribing a minimum rate of 50 per cent on "the foregoing articles" includes the "woven fabrics" as well as the "articles" covered by that clause to which the proviso is attached. Woven cloths in the piece weighing more than 4½ ounces per square yard are accordingly subject to the terms of the proviso. T. D. 19199, G. A. 4120, modified.—T. D. 22920, G. A. 4896.

(*j*) The provision for woven fabrics in the final clause of this paragraph is not limited in its application to cloths and other goods in the piece, but includes as well completed articles in condition ready for use. Accordingly flax doilies, towels, etc., weighing less than 4½ ounces per square yard and containing more

than 100 threads to the square inch are dutiable at 35 per cent as woven fabrics and not under paragraph 347 as manufactures of flax.—T. D. 22920, G. A. 4896.

(*a*) To ascertain the weight per square yard of fringed linen goods, for the purpose of finding the appropriate rate of duty under this paragraph, the weight of the solid portion of the fabric should be divided by the area of the same portion, the weight and area of the fringe being disregarded in the computation. In re Field (T. D. 20557, G. A. 4335) overruled.—T. D. 23730, G. A. 5141.

(*b*) Flax articles and fabrics weighing less than 4½ ounces per square yard and containing less than 100 threads per square inch are not provided for in this paragraph.—T. D. 24084, G. A. 5238.

(*c*) Flax towels having both ends finished with a scalloped edge, the edges being overstitched and the stitching done on an ordinary sewing machine and not an embroidery machine, are dutiable under the provisions of this paragraph and not as "manufactures of flax, embroidered" under paragraph 339.—T. D. 24243, G. A. 5282.

(*d*) Union fabrics composed of cotton and flax found to be in chief value of cotton, following English market reports.—T. D. 25064, G. A. 5598.

(*e*) Flax fabrics, known as linen suitings, with wool polka dots thereon (flax chief value) held to be dutiable under this paragraph and not as manufactures in part of wool.—T. D. 25258, G. A. 5668.

(*f*) Card-cloth foundation, a woven fabric composed of flax and wool (flax chief value), is dutiable under this paragraph as fabrics in chief value of flax.—T. D. 25431, G. A. 5728.

(*g*) In determining the weight per square yard of scalloped articles, which are held not to be embroideries, the whipped portion should not be weighed.—T. D. 26030, G. A. 5918.

(*h*) Turkish towels wholly or in chief value of flax are dutiable as woven fabrics according to the weight per square yard and the number of threads per square inch. Modifying T. D. 23487, G. A. 5068.—T. D. 25763, G. A. 5844.

(*i*) Flax squares for handkerchiefs are not dutiable as woven fabrics, but as unfinished handkerchiefs.—Meyer *v.* United States (138 Fed. Rep., 974; T. D. 26075), affirming T. D. 23745, G. A. 5143, followed; T. D. 26148, G. A. 5963.

(*j*) The provision for woven fabrics in the final clause of this paragraph is not limited in its application to goods in the piece, but includes as well completed articles in condition ready for use.—T. D. 25195, G. A. 5641.

(*k*) Certain varieties of flax drawn-work held to be dutiable as flax fabrics according to weight and count of threads, the fact that the number of threads is less in some places than in the original groundwork not being sufficient to remove the goods from the scope of this provision.—United States *v.* B. Ulmann et al. (139 Fed. Rep., 3; T. D. 26271), affirming 131 id., 649; 25363, and reversing T. D. 24373, G. A. 5329.

(*l*) Woven fabrics in chief value of flax, but in part of wool, are more specifically provided for as woven fabrics, of which flax is the component material of chief value than as cloths in part of wool.—United States *v.* Johnson (157 Fed. Rep., 754; T. D. 28516), affirming 154 id., 752; T. D. 27897.

(*m*) The word "articles" in the proviso herein includes woven fabrics.—Schulemann *v.* United States (123 Fed. Rep., 1002).

(*n*) Fabrics composed of a flax warp and a wool weft (flax being the component material of chief value) are more specifically provided for as fabrics composed in chief value of flax than as manufactures made wholly or in part of wool.—T. D. 28648, G. A. 6697.

(*a*) Woven fabrics of flax and wool (flax chief value) are dutiable as woven fabrics in which flax is the component material of chief value and not as manufactured articles in part of wool.—United States *v.* Wilkinson (154 Fed. Rep., 751; T. D. 28105). United States *v.* Walsh (154 Fed. Rep., 770; T. D 28235), affirming T. D. 27921.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*b*) The term "burlaps" used in this section does not in commercial usage, by which descriptive terms applied to articles of commerce must be construed, mean "oilcloth foundations" or "floor-cloth canvas."—Arthur *v.* Cummings (91 U. S., 362).

(*c*) "Oilcloth foundations" and "floor-cloth canvas" are in commerce convertible terms for designating the same article, and it is clear that Congress intended that they should be so understood.—Id.

1897 **347.** All manufactures of flax, hemp, ramie, or other vegetable fiber, or of which these substances, or either of them, is the component material of chief value, not specially provided for in this Act, forty-five per centum ad valorem.

DECISIONS UNDER PARAGRAPH 347, ACT OF 1897.

(*d*) "Fiber cloth," so called, the warp being of heavily starched cotton threads and the weft of fibrous grass, is not cotton cloth within the meaning of the countable paragraphs of this schedule, but is dutiable under this paragraph.—T. D. 19283, G. A. 4134.

(*a*) Palm bast, an article made from the woody part of the trunks of the seivon or guano tree of Cuba and used in the manufacture of hat braids, is dutiable as a manufacture of vegetable fiber and is not free under paragraph 617 as a crude vegetable substance.—T. D. 22410, G. A. 4739.

(*c*) Burlaps of single jute yarns, woven in such manner as to present a twilled effect running diagonally across the cloth, and a plain woven cloth composed of jute yarns advanced beyond the condition of singles by grouping or twisting three or more single yarns together, are dutiable as manufactures of vegetable fiber and are not classifiable under paragraphs 341 and 347.—United States *v.* Lamb (99 Fed. Rep., 262) applied; T. D. 23386, G. A. 5035.

(*d*) Certain grain bags which had been exported containing feed to be used by cattle on the outward voyage and were returned empty in bales, but which were not in any sense owned by the reimporting vessel, or used on her voyage, or in any way identified with her appliances, were held not to be a part of her equipment within the meaning of article 491, Customs Regulations of 1899, but were dutiable as manufactures of vegetable fiber. The theory upon which the equipment of a ship is regarded as nondutiable is that it forms part of the vessel itself, ships and vessels arriving in the course of navigation not being imported merchandise within the meaning of tariff legislation.—United States *v.* Chain Cable (2 Sumn., 362; 25 Fed. Cas., 391); The Conqueror (49 Fed. Rep., 99; ib., 166 U. S., 110); The Gertrude (3 Story, 68; 10 Fed. Cas., 265); In re Swift Beef Company (G. A. 4754) followed; Kennedy *v.* United States (95 Fed. Rep., 517) followed; T. D. 23490, G. A. 5071.

(*g*) Bags of single jute yarns containing a colored or dyed stripe 1 inch wide are substantially dyed or colored, and are therefore excluded from the provisions of paragraph 343 and are dutiable under this paragraph.—T. D. 23618, G. A. 5105.

(*d*) A twilled jute fabric or bag is one in which the weft thread is alternately raised over two or more warp threads and passed under one of such, or vice versa, this process being so alternated in regular order across the fabric that a diagonal effect is produced. The process of fabrication and not the effect produced is the distinguishing feature.—T. D. 27632, G. A. 6448.

(*d*) Certain manufactures of jute varying in width from 18 to 24 inches, sized and having a patent selvage, found by the jury to be paddings or canvas and not burlaps as known in trade and commerce in this country at and prior to the passage of this act. The terms "burlaps" and "paddings" are commercial terms.—Lamb *v.* Robertson (38 Fed. Rep., 716).

(*e*) Paragraphs 334 and 336 (1883) are to be construed by the rule of "noscitur a sociis," so as to confine the concluding general descriptive terms to articles of like kind with those enumerated. This paragraph is therefore confined to woven fabrics capable of being measured by the square yard, and paragraph 336 to spun and twisted goods. Measuring tapes mounted for use, woven with a warp and filling, in complete widths, with selvages, and not spun or twisted, are dutiable under this paragraph and not under paragraph 336. S., 2499) at the highest rate.—T. D. 10341, G. A. 62; Dieckerhoff *v.* Robertson (C. C.), (40 Fed. Rep., 568); see Wiebusch & Hilger (Limited) *v.* United States (C. C. A.), (84 Fed. Rep., 451).

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*i*) Laces made by machinery out of linen thread were assessed as manufactures of flax and claimed to be dutiable as thread lace. *Held*, that as the evidence clearly showed that the goods were invariably bought and sold as "torchons" and not as thread laces, and thread lace was always hand made, it was proper to direct a verdict for the defendant.—Robertson *v.* Salomon (144 U. S., 603).

(*j*) Gunny cloth, known in commerce by that name and being a manufacture of jute, is dutiable as a manufacture of jute and not as cotton bagging or as a manufacture not otherwise provided for suitable for uses to which cotton bagging is applied, although used for baling cotton.—Troost *v.* Barney (5 Blatchf., 196; 24 Fed. Cas., 211).

(*k*) The term "manufacture of hemp" used in this schedule, it would seem, can not properly include an article generally known in commerce as "hemp carpeting," but in the manufacture of which no material is used which is in fact hemp or is so called in commercial parlance.—Baxter *v.* Maxwell (4 Blatchf., 32; 2 Fed. Cas., 1054).

(*a*) While this act provides that an import duty of 30 per cent ad valoren shall be levied on all burlaps and like manufactures of flax, jute, or hemp, or of which flax, jute, or hemp shall be the component material of chief value, "except such as may be suitable for bagging for cotton," the fact that such burlaps are suitable and can be and are used for oilcloth foundations or for any other purpose except bagging for cotton is entirely immaterial and does not subject them to an ad valorem duty of 40 per cent.—Arthur *v.* Cummings (91 U. S., 362).

352. All wools, hair of the alpaca, goat, and other like animals, shall be
1883 divided, for the purpose of fixing the duties to be charged thereon, into the three following classes:

DECISIONS UNDER PARAGRAPH 348, ACT OF 1897.

(*b*) The wool schedule of the tariff act was designed to levy duty on wool and not on the water contained in the wool, and where in an importation of wool which has absorbed an unusual amount of water while on the voyage of importation and before arrival at the port of destination the collector in assessing duty may make allowance by way of a deduction from the landed weight on competent proof of such excessive weight. Article 1276 of the Customs Regulations of 1899, relating to the unusual absorption of sea water or of moisture, impliedly includes water other than sea water. While it is desirable that importers should comply with the regulations of the Secretary of the Treasury with respect to the method of proof, so as to facilitate the administration of the customs law, such regulations are directory rather than mandatory and do not debar importers from proving their claim by the ordinary rules of evidence.—T. D. 27220, G. A. 6319.

(*c*) The growth on cabretta skins is dutiable as wool.—Johnson *v.* United States (159 Fed. Rep., 189; T. D. 28538).

(*d*) In order to sustain a claim for allowance of moisture absorbed by wool on the voyage of importation, the fact that there is an increase of about 1½ per cent in the landed weight over that of the invoice weight, which is the natural and normal amount of absorption by the wool, is not sufficient; but it must appear that the increased weight is due to the excessive and unusual absorption of sea water or otherwise. Even in the event of a holding to the contrary the burden would still be on the protestant to show that the word "wool" as used in commerce, and consequently in the tariff act, means wool without natural or normal absorption of moisture and that it is the uniform custom of the trade to buy and sell the wool upon the basis of the invoice weight without regard to the landed weight of the merchandise. The rule contained in Earnshaw *v.* Cadwalader (145 U. S., 247) followed.—T. D. 27800, G. A. 6512.

(*e*) The growth on the skin of the animal known as the cabretta, which is a cross between the sheep and the goat, held to be dutiable as wool.—John-

son *v.* United States (145 Fed. Rep., 1022; T. D. 27191), affirming 140 id., 116; T. D. 26487, followed; T. D. 27258, G. A. 6333.

(*a*) The growth upon Mocha sheepskins is not wool.—Goat and Sheepskin Import Company *v.* United States (206 U. S., 194; T. D. 28190), reversing 145 Fed. Rep., 1022; T. D. 27190, and 141 Fed. Rep., 493; T. D. 26404, and in effect overruling T. D. 27279, G. A. 6337, followed; T. D. 28248, G. A. 6619.

DECISIONS UNDER THE ACT OF 1890.

(*b*) Claim for allowance for weight of sea water overruled because the importer had not complied with articles 851 and 852 of the Regulations.—T. D. 14940, G. A. 2569.

349. Class one, that is to say, merino, mestiza, metz, or metis wools, or other wools of Merino blood, immediate or remote, Down clothing wools, and wools of like character with any of the preceding, including Bagdad wool, China lamb's wool, Castel Branco, Adrianople skin wool
1897 or butcher's wool, and such as have been heretofore usually imported into the United States from Buenos Ayres, New Zealand, Australia, Cape of Good Hope, Russia, Great Britain, Canada, Egypt, Morocco, and elsewhere, and all wools not hereinafter included in classes two and three.

1894 [No corresponding provision. All wool was free of duty under paragraph 685, page 468.]

376. Class one, that is to say, Merino, mestiza, metz, or metis wools, or other wools of Merino blood, immediate or remote, Down clothing wools, and wools of like character with any of the preceding, including
1890 such as have been heretofore usually imported into the United States from Buenos Ayres, New Zealand, Australia, Cape of Good Hope, Russia, Great Britain, Canada, and elsewhere, and also including all wools not hereinfter described or designated in classes two and three.

353. CLASS ONE, CLOTHING WOOLS.—That is to say, merino, mestiza, metz, or metis wools, or other wools of merino blood, immediate or remote, down clothing wools, and wools of like character with any of the
1883 preceding, including such as have been heretofore usually imported into the United States from Buenos Ayres, New Zealand, Australia, Cape of Good Hope, Russia, Great Britain, Canada, and elsewhere, and also including all wools not hereinafter described or designated in classes two and three.

DECISIONS UNDER PARAGRAPH 349, ACT OF 1897.

(*c*) Wool from the island of Curaçao, remotely of merino blood, is dutiable at 11 cents per pound under paragraphs 348, 349, 355, and 357 and not at 4 cents per pound under paragraphs 351 and 358.—T. D. 21345, G. A. 4472.

(*d*) Panderma wool, represented by standard sample No. 146, held to be wool of the first class.—T. D. 25424, G. A. 5721.

DECISIONS UNDER THE ACT OF 1883.

(*e*) In the phrase, "wools of merino blood immediate or remote," "remote" is limited to mean within the limit of merino blood requisite to characterize the wool as possessing merino qualities and adding to the value.—United States *v.* Midgley (D. C.), (42 Fed. Rep., 668).

(*f*) Where an article has been finally placed in a class other than that in which it was origiually and the collector brings suit to recover the excess of duty he is entitled to a presumption that it is rightfully placed in said other class, and the burden of proof is on the defendant to prove that it rightfully belonged to the class in which it had been formerly placed.—Id.

(*a*) A wool was originally placed in the third class by the examiner, who afterwards, upon the orders of the appraiser, made another examination and placed it in the second, and, upon the refusal of the appraiser to indorse, made a third examination and placed it in the first class. On trial several experts testified, upon seeing the wool for the first time, that it was plainly clothing wool (first class). *Held*, the fact of the original judgment of the Government examiner was evidence for the importer as to the grade of the wool and to impeach the reliability of the expert testimony for the United States.—United States *v.* Midgley (D. C.), (42 Fed. Rep., 668).

(*b*) Wool on Cape sheepskins is dutiable as wool class 1.—T. D. 10492, G. A. 142.

1897 **350.** Class two, that is to say, Leicester, Cotswold, Lincolnshire, Down combing wools, Canada long wools, or other like combing wools of English blood, and usually known by the terms herein used, and also hair of the camel, Angora goat, alpaca, and other like animals.

1894 [No corresponding provision. All wool was free of duty under paragraph 685, page 468.]

1890 377. Class two, that is to say, Leicester, Cotswold, Lincolnshire, Down combing wools, Canada long wools, or other like combing wools of English blood, and usually known by the terms herein used, and also hair of the camel, goat, alpaca, and other like animals.

1883 354. Class two, combing wools.—That is to say, Leicester, Cotswold, Lincolnshire, Down combing wools, Canada long wools, or other like combing wools of English blood, and usually known by the terms herein used, and also all hair of the alpaca, goat, and other like animals.

DECISIONS UNDER PARAGRAPH 350, ACT OF 1897.

(*c*) Wool or hair of the cashmere goat, sometimes called china brown cashmere wool, is dutiable under paragraph 350 as wool of the second class.—T. D. 23179, G. A. 4965.

(*d*) Leicester wool, irrespective of the country of origin, is dutiable as wool of class 2.—T. D. 26606, G. A. 6109.

(*e*) Goat hair showing merely a trace of Angora blood and unfit for combing purposes is not classifiable as Angora goat hair.—T. D. 26610, G. A. 6113.

(*f*) Wool of English blood containing no perceptible mixture of merino, although imported from New Zealand, is wool of class 2. The test is the quality and not the place of origin.—Hempstead *v.* United States (116 Fed. Rep., 99).

DECISIONS UNDER THE ACT OF 1890.

(*g*) Alum tanned sheepskins with the wool on are dutiable at 12 cents per pound under this and paragraphs 384 and 387 (1890) and not as furs dressed on the skin nor as dressed sheepskins.—T. D. 13804, G. A. 1998.

(*h*) Common goat hair, even if not fit for combing, is dutiable as hair of the goat and not free under paragraph 604 as hair not specially provided for.—T. D. 10727, G. A. 280 affirmed, and 48 Fed. Rep., 630, reversed; United States *v.* Hopewell (C. C. A.), (51 Fed. Rep., 798).

(*i*) Common goat hair held dutiable and not free under paragraph 604.—T. D. 11408, G. A. 697.

(*j*) A mixture of goat hair and calf hair held dutiable as wool, class 2, and not free as raw animal hair.—T. D. 13772, G. A. 1966.

(*k*) Goat hair selected and bunched prepared for brushmakers' use held dutiable at 24 cents per pound under paragraphs 377, 383, and 384.—T. D. 13942, G. A. 2047.

(*b*) China camel's hair dutiable as class 2.—T. D. 12657, G. A. 1306.

(*c*) Wool on angora goat skins dutiable under paragraphs 377 and 384.—T. D. 11385, G. A. 668.

DECISIONS UNDER THE ACT OF 1883.

(*d*) Common goat hair is dutiable at 10 cents per pound and not free, as "hair, horse, or cattle, and hair of all kinds, not specially enumerated."—Cooper *v.* Dobson (157 U. S., 148), reversing 46 Fed. Rep., 184.

351. Class three, that is to say, Donskoi, native South American, Cordova, Valparaiso, native Smyrna, Russian camel's hair, and all such
1897 wools of like character as have been heretofore usually imported into the United States from Turkey, Greece, Syria, and elsewhere, excepting improved wools hereinafter provided for.

1894 [No corresponding provision. All wool was free of duty under paragraph 685, page 468.]

378. Class three, that is to say, Donskoi, native South American, Cordova, Valparaiso, native Smyrna, Russian camels hair, and including
1890 all such wools of like character as have been heretofore usually imported into the United States from Turkey, Greece, Egypt, Syria, and elsewhere, excepting improved wools hereinafter provided for.

355. Class three, carpet wools and other similar wools.—Such as Donskoi, native South American, Cordova, Valparaiso, native Smyrna,
1883 and including all such wools of like character as have been heretofore usually imported into the United States from Turkey, Greece, Egypt, Syria, and elsewhere.

DECISIONS UNDER PARAGRAPH 351, ACT OF 1897.

(*e*) Certain unwashed wool, known as Panderma wool, held to be wool of the third class.—T. D. 24082, G. A. 5236.

(*f*) Panderma wool, represented by standard sample No. 146, held to be wool of the first class.—T. D. 25424, G. A. 5721.

(*g*) The growth on the skin of the animal known as the cabretta, which is a cross between the sheep and the goat, held to be dutiable as wool of class 3.—Johnson *v.* United States (145 Fed. Rep., 1022; T. D. 27191), affirming 140 id., 116; T. D. 26487, followed; T. D. 27258, G. A. 6333.

(*h*) The growth on certain Cape sheepskins found to be wool of the third class.—T. D. 28632, G. A. 6695.

DECISIONS UNDER THE ACT OF 1890.

(*i*) In customs cases the courts will take judicial notice of the general facts of natural history, including the fact that the unimproved native sheep of all countries produces fleeces whose value is depreciated more or less by the undue quantity of the hair growing on the belly, flanks, and parts of the thighs and arms of the animals.—Lyon *v.* Marine (C. C. A.), (55 Fed. Rep., 964).

(*j*) Certain bales of merchandise purporting to be the fleeces of the unimproved North China sheep were imported from Shanghai, the papers being regular and free from all questions of fraud. The goods consisted of very low grade wool, containing a large mixture of coarse, short hair, and cost 3 cents a pound in Shanghai, and was worth but 9 cents in Baltimore. The importer testified that he had lived in China and had dealt in the fleeces of

China sheep, and that the importation consisted of such fleeces. The custom-house expert, however, testified that the hair in the fleece was goat's hair, and on this evidence the collector and board of appraisers placed the importation in class 2, paragraph 377, act of 1890. *Held*, that an appellate court, taking judicial notice of the fact that a large proportion of hair grows on the bodies of unimproved sheep, would find that the whole importation consisted of the fleece of the sheep, and therefore belonged to class 3, reversing the circuit court.—Id.

(*a*) Wool on cape sheepskins held to be third class.—T. D. 11357, G. A. 640.

(*b*) Certain skirted wool held to be third class.—T. D. 13049, G. A. 1554.

DECISIONS UNDER THE ACT OF 1883.

(*c*) Certain goods held to be wool of an inferior grade which comes from a deteriorated sheep.—T. D. 10770, G. A. 323.

352. The standard samples of all wools which are now or may be hereafter deposited in the principal custom-houses of the United States, under the authority of the Secretary of the Treasury, shall be the
1897 standards for the classification of wools under this Act, and the Secretary of the Treasury is authorized to renew these standards and to make such additions to them from time to time as may be required, and he shall cause to be deposited like standards in other custom-houses of the United States when they may be needed.

1894 [No corresponding provision. All wool was free of duty under paragraph 685, page 468.]

379. The standard samples of all wools which are now or may be hereafter deposited in the principal custom-houses of the United States, under the authority of the Secretary of the Treasury, shall be the
1890 standards for the classification of wools under this act, and the Secretary of the Treasury shall have the authority to renew these standards and to make such additions to them from time to time as may be required, and he shall cause to be deposited like standards in other custom-houses of the United States when they may be needed.

1883 [No corresponding provision.]

353. Whenever wools of class three shall have been improved by the admixture of Merino or English blood from their present character as
1897 represented by the standard samples now or hereafter to be deposited in the principal custom-houses of the United States, such improved wools shall be classified for duty either as class one or as class two, as the case may be.

1894 [No corresponding provision. All wool was free of duty under paragraph 685, page 468.]

380. Whenever wools of class three shall have been improved by the admixture of Merino or English blood from their present character as
1890 represented by the standard samples now or hereafter to be deposited in the principal custom-houses of the United States, such improved wools shall be classified for duty either as class one or as class two, as the case may be.

1883 [No corresponding provision.]

DECISIONS UNDER PARAGRAPH 353, ACT OF 1897.

(*d*) The provision in paragraph 353 for wools "improved by the admixture of Merino or English blood" does not cover growths of a low grade in which it is the exception to find traces of such admixture and which can not be said to have been so "improved;" and wool on Cape sheepskins, which is of this inferior character and contains much hair and kemp, and which is not worth more than 8 cents per pound, is not within the purview of this provision.—T. D. 28632, G. A. 6695.

354. The duty on wools of the first class which shall be imported washed shall be twice the amount of the duty to which they would be subjected if imported unwashed; and the duty on wools of the first and second classes which shall be imported scoured shall be three times the
1897 duty to which they would be subjected if imported unwashed. The duty on wools of the third class, if imported in condition for use in carding or spinning into yarns, or which shall not contain more than eight per cent of dirt or other foreign substance, shall be three times the duty to which they would otherwise be subjected.

1894 [No corresponding provision. All wool was free of duty under paragraph 685, page 468.]

381. The duty on wools of the first class which shall be imported washed shall be twice the amount of the duty to which they would
1890 be subjected if imported unwashed; and the duty on wools of the first and second classes which shall be imported scoured shall be three times the duty to which they would be subjected if imported unwashed.

356. The duty on wools of the first class which shall be imported washed shall be twice the amount of the duty to which they would be
1883 subjected if imported unwashed; and the duty on wools of all classes which shall be imported scoured shall be three times the duty to which they would be subjected if imported unwashed. * * *

355. Unwashed wools shall be considered such as shall have been shorn from the sheep without any cleansing; that is, in their natural
1897 condition. Washed wools shall be considered such as have been washed with water only on the sheep's back, or on the skin. Wools of the first and second classes washed in any other manner than on the sheep's back or on the skin shall be considered as scoured wool.

1894 [No corresponding provision. All wool was free of duty under paragraph 685, page 468.]

382. Unwashed wools shall be considered such as shall have been shorn from the sheep without any cleansing; that is, in their natural
1890 condition. Washed wools shall be considered such as have been washed with water on the sheep's back. Wool washed in any other manner than on the sheep's back shall be considered as scoured wool.

1883 [No corresponding provision.]

DECISIONS UNDER THE ACT OF 1890.

(*a*) Montevideo merino wool, class 1, pulled from the skins, the pelts being simply spouted with cold water, should be classified as scoured wool.—T. D. 11400, G. A. 683.

356. The duty upon wool of the sheep or hair of the camel, Angora goat, alpaca, and other like animals, of class one and class two, which shall be imported in any other than ordinary condition, or which has been sorted or increased in value by the rejection of any part of the original fleece, shall be twice the duty to which it would be otherwise subject: *Provided*, That skirted wools as imported in eighteen hundred and ninety and prior thereto are hereby excepted. The duty upon wool of the sheep or hair of the camel, Angora goat, alpaca, and other like animals of any class which shall be changed in its character or condition for the purpose of evading the duty, or which shall be reduced in value by the admixture of dirt or any other foreign substance, shall be twice the duty to which it would be otherwise subject. When the duty
1897 assessed upon any wool equals three times or more that which would be assessed if said wool was imported unwashed, the duty shall not be doubled on account of the wool being sorted. If any bale or package of wool or hair specified in this Act invoiced or entered as of any specified class, or claimed by the importer to be dutiable as of any specified class, shall contain any wool or hair subject to a higher rate of duty than the class so specified, the whole bale or package shall be subject to the highest rate of duty chargeable on wool of the class subject to such higher rate of duty, and if any bale or package be claimed by the importer to be shoddy, mungo, flocks, wool, hair, or other material of

any class specified in this Act, and such bale contain any admixture of any one or more of said materials, or of any other material, the whole bale or package shall be subject to duty at the highest rate imposed upon any article in said bale or package.

1894 [No corresponding provision. All wool was free of duty under paragraph 685, page 468.]

383. The duty upon wool of the sheep or hair of the camel, goat, alpaca, and other like animals which shall be imported in any other than ordinary condition, or which shall be changed in its character or condition for the purpose of evading the duty, or which shall be reduced in value by the admixture of dirt or any other foreign substance, or which has been sorted or increased in value by the rejection of any part of the original fleece, shall be twice the duty to which it would be otherwise subject: *Provided*, That skirted wools as now imported are hereby excepted. Wools on which a duty is assessed amounting to three times or more than that which would be assessed if said wool was
1890 imported unwashed, such duty shall not be doubled on account of its being sorted. If any bale or package of wool or hair specified in this act imported as of any specified class, or claimed by the importer to be dutiable as of any specified class shall contain any wool or hair subject to a higher rate of duty than the class so specified, the whole bale or package shall be subject to the highest rate of duty chargeable on wool of the class subject to such higher rate of duty, and if any bale or package be claimed by the importer to be shoddy, mungo, flocks, wool, hair, or other material of any class specified in this act, and such bale contain any admixture of any one or more of said materials, or of any other material, the whole bale or package shall be subject to duty at the highest rate imposed upon any article in said bale or package.

356. * * * The duty upon wool of the sheep, or hair of the alpaca, goat, and other like animals, which shall be imported in any other than ordinary condition, as now and heretofore practiced, or which shall be
1883 changed in its character or condition for the purpose of evading the duty, or which shall be reduced in value by the admixture of dirt or any other foreign substance, shall be twice the duty to which it would be otherwise subject.

DECISIONS UNDER PARAGRAPH 356, ACT OF 1897.

(*a*) Where white and black Iceland wools, which in commerce have always been dealt in and imported separately packed, have been, with the intention of obtaining a lower rate of duty, mixed together in the same bale but not subjected to any alteration by chemical or mechanical means, they are "changed in condition" within the meaning of this paragraph, though they can afterwards be restored to their original condition. Inasmuch as the mixing was done for the purpose of evading the duty on white wool only, the black wool being subject to the same rate of duty when classified in its mixed condition or separately, only the white wool is liable to a double duty. This double duty means that the white wool should be assessed with twice the rate of duty to which it would have been subjected had it been imported without being changed in condition.—T. D. 25168, G. A. 5629, modified; Stone *v.* United States (147 Fed. Rep., 603; T. D. 27515).

DECISIONS UNDER THE ACT OF 1890.

(*b*) As to the duty on assorted third-class wool.—T. D. 11692, G. A. 797.

(*c*) Angora goat hair with an admixture of cattle hair and third-class wool, imported and invoiced as cattle hair and claimed to be free. Forfeiture proceedings decided in favor of the importers. The question whether the merchandise was wool or hair held not to have been involved in the forfeiture proceedings and the merchandise dutiable at 10 cents per pound under the act of 1883 and 12 cents per pound under the act of 1890.—T. D. 13496, G. A. 1798.

(*a*) Certain third-class wool found not to be subject to any of the conditions contained in this paragraph.—T. D. 14243, G. A. 2207.

(*b*) The sorting clause applies to wools of all classes. The term "sorting" means a changing of the original fleeces and not a separation of the wools as to color.—In re Higgins (C. C.), (50 Fed. Rep., 910).

(*c*) The provision that the "duty on wool that has been sorted shall be twice the duty to which it would be otherwise subject" means twice the duty to which it would have been subject if it had not been sorted:—Id.

(*d*) Scotch Haslock wool found to be wool of the third class washed and sorted.—T. D. 14453, G. A. 2299.

(*e*) In applying the sorting clause to wools of the third class which are subject to ad valorem duty, the value of the wool in an unsorted condition should be ascertained and multiplied by twice the rate provided for wool of such value.—Id.

(*f*) The proviso that "wools on which a duty is assessed amounting to three times or more than that which would be assessed if such wool was imported unwashed, such duty shall not be doubled on account of its being sorted," applies to wools of all classes.—Id.

(*g*) Where sorted wool of class 3 is worth over 13 cents per pound, and the duty thereon at 50 per cent amounts to more than three times the duty which would have been assesed upon it if it had been imported unwashed, double duty can not be assessed upon it under the sorting clause.—Id.

(*h*) The importation of wool separated as to colors by entire fleeces, the colors being of different values, and entered for duty as washed wool of the third class, is not within this paragraph imposing double duty. Affirming 50 Fed. Rep., 910.—In re Higgins (C. C. A.), (55 Fed. Rep., 278).

(*i*) This proviso can not be restricted to those classes of wool upon which the act assesses duty by the express term "unwashed."—Id.

DECISIONS UNDER THE ACT OF 1883.

(*j*) Carded wool noils made from improved Turkish wool, of merino blood, and in a scoured condition, held dutiable as scoured wool, class 1, and not as wool of the third class as noils made from carpet wool.—T. D. 10495, G. A. 145.

(*k*) This paragraph is not restricted to wool changed in its character or condition for the purpose of evading duty, nor to wool reduced in value by the admixture of dirt or any other foreign substance, but to cover also wool advanced or improved beyond ordinary conditions.—Juillard *v.* Magone (37 Fed. Rep., 857).

(*l*) "Wool-tops," which are wool advanced to an improved condition over scoured wool by the further processes of combing, gilling, and winding into balls, found to be "wool improved in other than ordinary condition" and liable to double duty.—Id.

(*m*) If wool is imported scoured, although in a form not commercially known as scoured wool, and if its condition is different from that in which wool was customarily imported prior to the date of this act, it is dutiable as "wool scoured in other than ordinary conditions.—United States *v.* Patton (D. C.), (46 Fed. Rep., 461).

(*n*) Where wool has been changed from one condition to another for the purpose of evading duty, whether the condition in which it was entered was a customary condition in which wool was imported prior to the date of this act or not, it is subject to double duty.—Id.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*a*) Wool imported which had been scoured, then carded and prepared, then put upon a comb from which it comes in long lengths, known as slivers or slubbing. It is then put through a process called grilling, which forms the slivers into a less number of slivers of greater thickness. These slivers are then taken into the drawing room and finished, from whence they come out in the form of round balls called tops. These tops become new articles of merchandise which are sold to spinners, who spin them into worsted yarn. The collector first classed the wool as waste and fixed the duty at 10 cents a pound, which was paid; but subsequently the collector imposed a duty of 10 cents a pound on the whole importation as wool of the first class, costing under 30 cents a pound in the unwashed condition, then trebled the duty because the importer scoured, and then doubled the result upon the ground that the tops had been changed in their character or condition for the purpose of evading the duty. The importer declined to pay, and the United States sued. *Held*, that the duty of 60 cents a pound was properly imposed.—Patton *v.* United States (159 U. S., 500).

(*b*) The provision that duty on wool of the first class imported washed, shall be twice the amount of the duty to which it would be subjected if unwashed, must, in view of the necessities of its practical application, be construed to require a doubling of the specific and ad valorem rates and not a computation of the amount of duties which the law would impose on the number of pounds of unwashed wool, and then a doubling of this amount.—Foster *v.* Simmons (9 Fed. Cas., 573).

(*c*) The specific duty by weight is to be calculated on the same number of pounds in each case, and is to be twice the amount for washed that it is for unwashed wool, and the ad valorem duty on washed wool is to be twice the ad valorem duty on the same number of pounds of unwashed wool. In this case there was imported 3,294 pounds of washed wool valued at $1,627. Had it been unwashed it would have been valued at $813.50. The collector exacted 20 cents a pound specific duty and 22 per cent ad valorem on the washed value ($1,627). He should have collected 20 cents a pound and 22 per cent on the unwashed value ($813.50).—Arthur *v.* Pastor (109 U. S., 139).

1897 **357.** The duty upon all wools and hair of the first class shall be eleven cents per pound, and upon all wools or hair of the second class twelve cents per pound.

1894 [No corresponding provision. All wools was free of duty under paragraph 685, page 468.]

1890 384. The duty upon all wools and hair of the first class shall be eleven cents per pound, and upon all wools or hair of the second class twelve cents per pound.

1883 357. (*c*) If hearth rugs made entirely of worsted were well known in commerce by the denomination of "worsted stuff goods" at the time of the passage of this act, they are free.—Riggs *v.* Frick (Taney, 100; 3 Haz. Reg. U. S., 8; 20 Fed. Cas., 781).

(*d*) But if they were not so known, they were liable to a duty of 15 per cent under the act of July 14, 1832, section 2, clause 25, as a nonenumerated article.—Id.

(*e*) Worsted shawls are not dutiable at 41 per cent wool as woolen goods or goods of which wool is a component part, but are free.—Albers *v.* Frick (1 Fed. Cas., 301).

(*f*) This section is not the only one which may be applicable to an importation of wool invoiced at less than 7 cents per pound and not mixed. Under the seventh section of this act the collector may order an appraisement, and if that results in a valuation over 7 cents per pound the ad valorem and specific duty provided for by the act of May 19, 1828 (4 Stat., 270), must be levied, the appraisal being conclusive of the value.—Rankin *v.* Hoyt (4 How., 327).

(*g*) Worsted carpet bindings are free and are not dutiable at 25 per cent under section 2, paragraph 2. The clause relating to bindings refers exclusively to articles of that description when composed wholly or in part of wool.—Chester *v.* Curtis (1 Blatchf., 499; 5 Fed. Cas., 583).

367. On blankets, and flannels for underwear composed wholly or in part of wool, valued at not more than forty cents per pound, the duty per pound shall be the same as the duty imposed by this Act on two pounds of unwashed wool of the first class, and in addition thereto thirty per centum ad valorem; valued at more than forty cents and not more than fifty cents per pound, the duty per pound shall be three times the duty imposed by this Act on one pound of unwashed wool of the first class, and in addition thereto thirty-five per centum ad valorem.

1897 On blankets composed wholly or in part of wool, valued at more than fifty cents per pound, the duty per pound shall be three times the duty imposed by this Act on one pound of unwashed wool of the first class, and in addition thereto forty per centum ad valorem. Flannels composed wholly or in part of wool, valued at above fifty cents per pound, shall be classified and pay the same duty as women's and children's dress goods, coat linings, Italian cloths, and goods of similar character and description provided by this Act: *Provided*, That on blankets over three yards in length the same duties shall be paid as on cloths.

282. On blankets, * * *, and flannels for underwear * * *, composed wholly or in part of wool, the hair of the camel, goat, alpaca, or other animals, valued at not more than thirty cents per pound, twenty-five per centum ad valorem; valued at more than thirty and not more

1894 than forty cents per pound, thirty per centum ad valorem; valued at more than forty cents per pound, thirty-five per centum ad valorem: *Provided*, That on blankets over three yards in length the same duties shall be paid as on woolen and worsted cloths, and on flannels weighing over four ounces per square yard, the same duties as on dress goods.

393. On blankets, * * *, and flannels for underwear composed wholly or in part of wool, the hair of the camel, goat, alpaca, or other animals, valued at not more than thirty cents per pound, the duty per pound shall be the same as the duty imposed by this act on one pound and one-half of unwashed wool of the first class, and in addition thereto thirty per

centum ad valorem; valued at more than thirty and not more than forty cents per pound, the duty per pound shall be twice the duty imposed by this act on a pound of unwashed wool of the first class; valued at more than forty cents and not more than fifty cents per pound, the duty per pound shall be three times the duty imposed by this act on a pound of
1890 unwashed wool of the first class; and in addition thereto upon all the above-named articles thirty-five per centum ad valorem. On blankets and hats of wool composed wholly or in part of wool, the hair of the camel, goat, alpaca, or other animal, valued at more than fifty cents per pound, the duty per pound shall be three and a half times the duty imposed by this act on a pound of unwashed wool of the first class, and in addition thereto forty per centum ad valorem. Flannels composed wholly or in part of wool, the hair of the camel, goat, alpaca, or other animals, valued at above fifty cents per pound shall be classified and pay the same duty as women's and children's dress goods, coat linings, Italian cloths, and goods of similar character and description provided by this act.

363. Flannels, blankets, * * *, composed wholly or in part of worsted, the hair of the alpaca, goat, or other animals (except such as are composed in part of wool), not specially enumerated or provided for in this act, valued at not exceeding thirty cents per pound, ten cents per pound; valued at above thirty cents per pound, and not exceeding forty
1883 cents per pound, twelve cents per pound; valued at above forty cents per pound, and not exceeding sixty cents per pound, eighteen cents per pound; valued at above sixty cents per pound, and not exceeding eighty cents per pound, twenty-four cents per pound; and in addition thereto, upon all the above-named articles, thirty-five per centum ad valorem; valued at above eighty cents per pound, thirty-five cents per pound, and in addition thereto forty per centum ad valorem.

DECISIONS UNDER PARAGRAPH 367, ACT OF 1897.

(*a*) Cotton blankets having about 6 per cent in value of wool, sufficient to improve their appearance and merchantable character, are blankets composed in part of wool.—T. D. 20398, G. A. 4313.

(*b*) Zarapes, Mexican woolen blankets, known in trade as blankets, are dutiable as such and not under paragraph 370 as wearing apparel or shawls. The fact that blankets are sometimes put to use as wearing apparel during the day, while used as blankets during the night, does not change their classification.—T. D. 22377, G. A. 4730.

(*c*) Horse blankets composed of jute, cattle hair, and cotton (jute chief value, but cattle hair an important and conspicuous constituent), fashioned to conform to the shape of the animal, and the edge or borders of which are secured by cotton braid, the article being designed expressly to be worn in the stable or on cars or in vessels during transportation, and which are generally designated in trade as horse blankets and known by dealers variously as "jute horse blankets," "Yorkshire blankets," "shipping blankets," and sometimes as "jute rugs," are dutiable at 22 cents per pound and 30 per cent as blankets composed wholly or in part of wool, and not under paragraph 347 as manufactures of jute, or paragraph 447 as saddlery, or section 6 as a nonenumerated article.—T. D. 22985, G. A. 4913.

(*d*) Horse blankets composed in part of wool are dutiable under the specific designation of blankets herein and not as saddlery.—T. D. 24701, G. A. 5431.

DECISIONS UNDER THE ACT OF 1890.

(*e*) Woolen horse blankets are dutiable as blankets.—T. D. 15021, G. A. 2598.

(*f*) Flannel lawn-tennis shirting is not flannel for underwear.—T. D. 12960, G. A. 1511.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*a*) Under schedule E, act of 1846, blankets of all kinds were dutiable at 20 per cent. The act of 1857 reduced the duty on the articles mentioned in this schedule to 15 per cent. The articles imported were commercially known as blankets in 1857, but not so known in 1846. The commercial meaning in 1857 controls.—Christ *v.* Baker (17 Leg. Int., 322; 5 Fed. Cas., 651); see Christ *v.* Schell (17 Leg. Int., 350; 5 Fed. Cas., 653).

368. On women's and children's dress goods, coat linings, Italian cloths, and goods of similar description and character of which the warp consists wholly of cotton or other vegetable material with the remainder of the fabric composed wholly or in part of wool, valued at not exceeding fifteen cents per square yard, the duty shall be seven cents per square

1897 yard; valued at more than fifteen cents per square yard, the duty shall be eight cents per square yard; and in addition thereto on all the foregoing valued at not above seventy cents per pound, fifty per centum ad valorem; valued above seventy cents per pound, fifty-five per centum ad valorem: *Provided*, That on all the foregoing, weighing over four ounces per square yard, the duty shall be the same as imposed by this schedule on cloths.

1894 [Not enumerated. Dutiable under paragraph 283, page 494.]

394. On women's and children's dress goods, coat linings, Italian cloths, and goods of similar character or description of which the warp consists wholly of cotton or other vegetable material, with the remainder of the fabric composed wholly or in part of wool, worsted, the hair of camel, goat, alpaca, or other animals, valued at not exceeding fifteen cents per

1890 square yard, seven cents per square yard, and in addition thereto forty per centum ad valorem; valued at above fifteen cents per square yard, eight cents per square yard, and in addition thereto fifty per centum ad valorem: *Provided*, That on all such goods weighing over four ounces per square yard the duty per pound shall be four times the duty imposed by this act on a pound of unwashed wool of the first class, and in addition thereto fifty per centum ad valorem.

1883 [Not enumerated. Dutiable under paragraph 365, page 495.]

369. On women's and children's dress goods, coat linings, Italian cloths, bunting, and goods of similar description or character composed wholly or in part of wool, and not specially provided for in this Act, the duty shall be eleven cents per square yard; and in addition thereto

1897 on all the foregoing valued at not above seventy cents per pound, fifty per centum ad valorem; valued above seventy cents per pound, fifty-five per centum ad valorem: *Provided*, That on all the foregoing, weighing over four ounces per square yard, the duty shall be the same as imposed by this schedule on cloths.

1894 alpaca, or other animals, including such as have India rubber as a component material, and not specially provided for in this Act, valued at not over fifty cents per pound, forty per centum ad valorem; valued at more than fifty cents per pound, fifty per centum ad valorem.

395. On women's and children's dress goods, coat linings, Italian cloth, bunting, and goods of similar description or character composed wholly or in part of wool, worsted, the hair of the camel, goat, alpaca, or other animals, and not specially provided for in this act, the duty shall be

1890 twelve cents per square yard, and in addition thereto fifty per centum ad valorem: *Provided*, That on all such goods weighing over four ounces per square yard the duty per pound shall be four times the duty imposed by this act on a pound of unwashed wool of the first class, and in addition thereto fifty per centum ad valorem.

364. Bunting, ten cents per square yard, and in addition thereto, thirty-five per centum ad valorem.

DECISIONS UNDER PARAGRAPH 369, ACT OF 1897.

(*a*) Women's dress patterns of wool, each pattern comprising material for the body of the dress and material for trimming the same, all embroidered with silk, are dutiable as women's dress goods in part of wool and not as articles embroidered made of wool nor as wool wearing apparel.—Thomas *v.* Wanamaker (129 Fed. Rep., 92; T. D. 25155), affirming 123 Fed Rep., 193.

(*b*) Women's dress goods of wool, embroidered by hand or machinery, are dutiable as women's dress goods in part of wool and not as articles embroidered made of wool.—Hall *v.* United States (136 Fed. Rep., 774; T. D. 26122), affirming 131 id., 648; T. D. 25340.

(*c*) Dress goods composed of silk and wool (silk chief value) are removed from the operation of the provisions in paragraph 387 for woven fabrics in part of silk by reason of the proviso in paragraph 391, which requires that all manufactures of which wool is a component material shall be classified and assessed for duty as manufactures of wool. They are classifiable, therefore, under the provision in this paragraph for women's and children's dress goods in part of wool.—United States v. Scruggs (156 Fed. Rep., 940; T. D. 28580), reversing 147 id., 888; T. D. 27652.

DECISIONS UNDER THE ACT OF 1894.

(*a*) Dress-skirt facings of hair cloth (hair chief value) about 10 inches wide, having a light cotton lining and stitched together and hemmed ready for application, are dutiable as dress goods.—T. D. 18228, G. A. 3938.

(*b*) Worsted dress goods are dutiable under this paragraph and not under paragraph 395, act of 1890 (when imported between August 28, 1894, and January 1, 1895). Reversing T. D. 15335, G. A. 2769.—Murphy *v.* United States (C. C.), (68 Fed. Rep., 908); affirmed (C. C. A.), (72 Fed. Rep., 1008); overruled (169 U. S., 209).

(*g*) Certain flannels held to be dress goods.—T. D. 11866, G. A. 857.

(*h*) Women's dress goods imported in patterns, each pattern consisting of a plain woven fabric for the body of the dress and one or more shorter pieces embroidered, are dutiable, the plain portion under this paragraph and the embroidered portion under paragraph 398.—T. D. 11975, G. A. 888; T. D. 14302, G. A. 2231.

(*i*) Gloria cloth, a manufacture of silk in the warp and worsted in the weft (silk chief value), having no border on the selvage, which is the distinguishing characteristic of umbrella cloth, is dress goods composed wholly or in part of worsted.—T. D. 12230, G. A. 1044; T. D. 14713, G. A. 2435. In re Bister (C. C.), (54 Fed. Rep., 158); Bister *v.* United States (C. C. A.), (59 Fed. Rep., 452).

DECISIONS UNDER THE ACT OF 1883.

(*m*) Certain dress goods containing 8.64 per cent of cotton held dutiable at 9 cents per square yard and 40 per cent.—T. D. 10326, G. A. 47.

(*n*) Certain wool and cotton dress goods held to be dutiable at 5 cents per square yard and 35 per cent.—T. D. 10326, G. A. 47.

(*a*) Certain dress goods of wool and silk costing over 20 cents per square yard held dutiable at 7 cents per square yard and 40 per cent as in part worsted goods and not as manufactures of silk.—T. D. 10343, G. A. 64.

(*d*) Dress goods composed in part of worsted held dutiable under this paragraph.—T. D. 11391, G. A. 674.

(*e*) Articles known as thibet cloths or coatings, made of cotton warp and worsted filling, which are commercially known as dress goods, or are of like description to dress goods as known in trade and commerce, are dutiable (when valued at less than 20 cents per square yard) at 5 cents per square yard and 35 per cent and not under paragraph 363, act of 1883.—Sullivan *v.* Robertson (37 Fed. Rep., 778).

(*f*) Women's dress goods composed chiefly of wool, with from 1.94 to 4.74 per cent of cotton introduced in the warp and selvages thereof to change the classification, in the form of a fiber, the warp being a mixed or compound thread of wool and cotton, held not to have been made with threads of other materials within the meaning of this schedule. Also held that the language of this paragraph explicitly restricts the operation of this clause to threads wholly composed of other materials than wool or worsted.—Luckmeyer *v.* Magone (C. C.), (38 Fed. Rep., 30).

(*g*) The phrase "goods of like descriptions" is not restricted in its application to Italian cloths, but relates also to women's and children's dress goods.—Sullivan *v.* Robertson (37 Fed. Rep., 778).

(*h*) The words "all such goods" in the proviso to this paragraph refers only to goods composed wholly of wool and other animal products.—Ellison *v.* Hartranft (24 Fed. Rep., 136); Sullivan *v.* Robertson (37 Fed. Rep., 778).

(*i*) Women's and children's dress goods which contain no cotton, except about 6 per cent carded into the wool from which the warp is spun, are dutiable at 5 cents per square yard and 35 per cent and not at 9 cents per square yard and 40 per cent, though the cotton was used for the purpose of securing a lower classification.—Farwell *v.* Seeberger (C. C.), (40 Fed. Rep., 529).

(*j*) Women's and children's dress goods composed of wool and cotton, valued at less than 20 cents per square yard and weighing less than 4 ounces to the square yard, the cotton being carded in with the wool from which the yarn composing the warp was spun, there being 94 per cent of wool and 6 per cent of cotton, the cotton being put in to secure a lower classification of duty, and an ordinary examiner not being able to detect the cotton without a careful examination, and there being no threads or yarns made wholly of cotton or other material than wool, are dutiable at 5 cents per square yard and 35 per cent and not at 9 cents per square yard and 40 per cent.—Seeberger *v.* Farwell (139 U. S., 608).

(*k*) The above case affirmed and applied to goods in which the percentage of cotton varied from 1.99 to 4.47 per cent.—Magone *v.* Luckmeyer (139 U. S., 612).

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*l*) Women's and children's dress goods, manufactured of hair imported between April 30 and June 24, 1874, were dutiable under this paragraph as amended January 30, 1871, and not under the act of March 2, 1867, as women's

and children's dress goods composed wholly or in part of wool, worsted, etc. Reversing the Circuit Court.—Falconer *v.* Miller (93 Fed. Rep., 655).

(*a*) Goat's hair composed of 80 per cent of goat's hair and 20 per cent of cotton, used chiefly for women's dresses, and which were imported between January 24 and June 25, 1874, were subject to the duty imposed by this act, as manufactures of hair not herein otherwise provided for, as modified by the act of June 2, 1872 (17 Stat., 231), and not to the duty imposed by the act of March 2, 1867 (14 Stat., 56), section 3, upon "women's and children's dress goods and real or imitation Italian cloths, composed wholly or in part of wool, worsted, the hair of the alpaca, goat, or other like animals," it being found by the jury that they were not known in commerce among merchants and importers as "women's and children's dress goods.—Arthur *v.* Butterfield (125 U. S., 70).

(*b*) In a suit to recover duties paid upon Saxony dress goods as of similar description to delaines, it is for the jury to say as a fact whether the goods upon which the duty was laid were of similar description.— Greenleaf *v.* Goodrich (1 Hask, 586; 21 Int. Rev. Rec., 324; 10 Fed. Cas., 1168); affirmed (101 U. S., 278).

(*c*) The words "similar description" are to be understood in their popular and generally received meaning, goods similar in product and adapted to similar uses and not necessarily produced by similar processes or methods of manufacture.—Id.

(*d*) The words "of similar description" if a commercial phrase, with a particular and specific trade meaning other and different from its meaning in ordinary speech, should, in its interpretation, receive that particular and specific trade meaning; but, if not such commercial phrase, should receive its meaning in ordinary speech.—White *v.* Barney (C. C.), (43 Fed. Rep., 474).

(*e*) In determining whether goods are goods of similar description to delaines, cashmere delaines, muslin delaines, or berage delaines, composed wholly or in part of worsted, wool, mohair, or goat's hair, and on all goods of similar description, three matters are to be considered: (*a*) The rule which is to be used in determining whether the former goods are similar or dissimilar to the latter; (*b*) the standard of comparison, or, in other words, what are the different varieties of the latter goods with which the former are to be compared and found similar or dissimilar; and (*c*) what are the former goods which are to be compared with that standard.—Id.

(*f*) While the words "of similar description" have been held (Greenleaf *v.* Goodrich, 101 U. S., 278) to mean "similarity in product, in uses, in adaptation to uses, and not in appearance or in process of manufacture," the word "product," however, imports an article which is made of something, and which, when made, has characteristics which are apparent to the senses; and in judging as to similarity of product the material of which a product is made and its appearance when made may be taken into consideration. By this phrase, "goods of similar description," is meant completed fabrics, composed wholly or in part of worsted, wool, mohair, or goat's hair, and used for dress goods, which also, as completed fabrics, possess qualities of general appearance, character, and texture, like unto or generally resembling the qualities which distinguish delaines, cashmere, berage, or muslin.—White *v.* Barney (C. C.), (43 Fed. Rep., 474).

(*g*) The similarity required is a similarity of product, in adaptation to uses, and in uses, even though in commerce they may be classed as different articles.—Schmieder *v.* Barney (113 U. S., 645, Greenleaf *v.* Goodrich (101 U. S., 278).

(*a*) The change of classification and phraseology made in the act of 1862 shows an intention to take out of the mixed material clause of the act of 1861 (which was limited to manufactures not otherwise provided for) some descriptions of goods which the act placed there, and by transferring them to another class subject them to additional duty prescribed for that class.—Greenleaf *v.* Goodrich (101 U. S., 278).

370. On clothing, ready-made, and articles of wearing apparel of every description, including shawls whether knitted or woven, and knitted articles of every description, made up or manufactured wholly or in
1897 part, felts not woven and not specially provided for in this Act, composed wholly or in part of wool, the duty per pound shall be four times the duty imposed by this Act on one pound of unwashed wool of the first class, and in addition thereto sixty per centum ad valorem.

1894 284. On clothing, ready-made, and articles of wearing apparel of every description, made up or manufactured wholly or in part, not specially provided for in this Act, felts not specially provided for in this Act, all the foregoing composed wholly or in part of wool, worsted, the hair of the camel, goat, alpaca, or other animals, including those having India rubber as a component material, valued at above one dollar and fifty cents per pound, fifty per centum ad valorem; valued at less than one dollar and fifty cents per pound, forty-five per centum ad valorem.

On cloaks, dolmans, jackets, talmas, ulsters, or other outside garments for ladies' and children's apparel, and goods of similar description or used for like purposes, and on knit wearing apparel, composed wholly or in part of wool, worsted, the hair of the camel, goat, alpaca, or other animals, made up or manufactured wholly or in part, fifty per centum ad valorem.

392. * * * On shawls, made wholly or in part of wool, worsted, the hair of the camel, goat, alpaca, or other animals, not specially provided for in this Act, valued at not more than thirty cents per pound, the duty per pound shall be three times the duty imposed by this Act on a pound of unwashed wool of the first class, and in addition thereto forty per centum ad valorem; valued at more than thirty and not more than forty cents per pound, the duty per pound shall be three and one-half times the duty imposed by this Act on a pound of unwashed wool of the first class, and in addition thereto forty per centum ad valorem; valued at above forty cents per pound, the duty per pound shall be four times the duty imposed by this act on a pound of unwashed wool of the first class, and in addition thereto fifty per centum ad valorem.

393. On hats of wool, * * * composed wholly or in part of wool, the hair of the camel, goat, alpaca, or other animals, valued at not more than thirty cents per pound, the duty per pound shall be the same as the duty imposed by this Act on one pound and one-half of unwashed wool of the first class, and in addition thereto thirty per centum ad valorem; valued at more than thirty and not more than forty cents per pound, the duty per pound shall be twice the duty imposed by this act on a pound of unwashed wool of the first class; valued at more than forty cents and not more than fifty cents per pound, the duty per pound shall be three times the duty imposed by this act on a pound of unwashed wool of the first class; and in addition thereto upon all the above-named articles thirty-five per centum ad valorem. On blankets and hats of
1890 wool composed wholly or in part of wool, the hair of the camel, goat,

alpaca, or other animal, valued at more than fifty cents per pound, the duty per pound shall be three and a half times the duty imposed by this act on a pound of unwashed wool of the first class, and in addition thereto forty per centum ad valorem. (*a*) A woolen cloak lined with fur (the latter material being the component of chief value) is an article of wearing apparel composed wholly or in part of wool and not dutiable as a manufacture of fur.—T. D. 19249, G. A. 4126.

(*a*) Certain articles made of wool or worsted braid of different widths, stitched in place by hand or machinery in various conventional openwork designs and intended to be sewn or otherwise attached to women's cloaks or waists as trimmings or ornaments, and which are incurved or hollowed at the top to conform to the shape of the garment about the neck, are dutiable as articles of wearing apparel and not under paragraph 371.—T. Although it was admitted that it was the practice to strip the cords off a large proportion of the goods after importation and sell them as woven silk fabrics, which was the collector's classification of them, it was found upon testimony taken in the Circuit Court that about 60 per cent of the importation was sold as it came, and the court held this sufficient to negative the contention that the sewing of the cord on the goods was done after the articles were complete as woven fabrics for the purpose of effecting a temporary condition during importation that would result in evading the proper duty on the goods.—Vantine *v.* United States (155 Fed. Rep., 149; T. D. 28188), reversing T. D. 25330, G. A. 5688.

DECISIONS UNDER STATUTES PRIOR TO THE ACT OF 1883.

(*s*) The term "silk" before "silk vestings * * * laces * * * etc.," in the absence of any other consideration than the terms of the statute, the words "silk laces" embrace all laces made of silk; and to restrain or limit this meaning it is not enough to say that in commerce a thing included in the general designation is usually or universally spoken of by its specific particular name.—Jaffray *v.* Murphy (19 Int. Rev. Rec., 143; 13 Fed. Cas., 285).

(*a*) Proof that silk lace is known in trade as "black thread lace" does not take it out of the duty laid upon it as "silk lace" and subject it to a duty as thread lace.—Id.

(*b*) Unless the goods themselves were specifically known as "thread lace" to distinguish them from other laces made of silk (in which case Congress must be presumed to recognize the distinction) they were dutiable at 60 per cent as silk laces.—Id.

(*c*) The term "silk veils," in the absence of any other language, includes all veils made of silk, and the presumption is that "crape veils," being manufactures of silk, are embraced within the term "silk veils."—Morrison *v.* Arthur (13 Blatchf., 194; 22 Int. Rev. Rec., 10; 17 Fed. Cas., 833).

(*d*) But if it be shown that in trade and commerce "crape veils" are not "silk veils," that is, are contradistinguished from "silk veils," and are commercially known as different articles from "silk veils," and that the term "crape veils" is a distinctive term which distinguishes the article called by that name from a silk veil, then the term "silk veil" fails to designate a crape veil, and crape veils are dutiable as manufactures of silk.—Id.

(*e*) Silk spot nets and dotted nets are dutiable at 60 per cent as "silk vestings, pongees," etc., and not as manufactures of silk.—Morrison *v.* Miller (37 Fed. Rep., 82).

(*f*) Laces, cigar ribbons, galloons, and braids, made substantially of silk, although cotton form a part thereof, were dutiable at 60 per cent under this section.—Swan *v.* Arthur (103 U. S., 597).

(*g*) An article of silk and cotton bought and sold as "spotted or dotted net," but which was a lace in which silk was the component of chief value, was a "silk lace" dutiable as such and not as a manufacture of silk.—Drew *v.* Grinnell (115 U. S., 477).

(*h*) Silk neckties are dutiable as wearing apparel under the acts of 1861 and 1862 and not as scarfs by similitude.—Fiske *v.* Smythe (15 Int. Rev. Rec., 115; 9 Fed. Cas., 172) ; reversed in Smythe *v.* Fiske (23 Wall., 374), where such neckties are held to be dutiable at 50 per cent under the act of June 30, 1864, which imposes that rate on "all dress and piece silks."

391. All manufactures of silk, or of which silk is the component material of chief value, including such as have india-rubber as a component material, not specially provided for in this act, and all Jacquard figured goods in the piece, made on looms, of which silk is the component material of chief value, dyed in the yarn, and containing two or more colors in the filling, fifty per centum ad valorem: *Provided*, That all manufactures, of which wool is a component material, shall be classified and assessed for duty as manufactures of wool.

1897

1894

302. All manufactures of silk, or of which silk is the component material of chief value, including those having India rubber as a component material, not specially provided for in this act, forty-five per centum ad valorem.

300. * * * buttons, and ornaments, made of silk, or of which silk is the component material of chief value, forty-five per centum ad valorem.

1890

414. All manufactures of silk, or of which silk is the component material of chief value, not specially provided for in this act, fifty per centum ad valorem. *Provided*, That all such manufactures of which wool, or the hair of the camel, goat, or other like animals is a component material, shall be classified as manufactures of wool.

412. * * * buttons, and ornaments, made of silk, or of which silk is the component material of chief value, fifty per centum ad valorem.

1883 383. All goods, wares, and merchandise, not specially enumerated or provided for in this act, made of silk, or of which silk is the component material of chief value, fifty per centum ad valorem.

Rep., 997), reversing T. D. 22178, G. A. 4705, followed; T. D. 23309, G. A. 5000.

(*d*) Intent is not an element in determining the proper classification of imported articles, and merchants are at liberty so to manufacture and so to import their goods as to subject them to the lowest possible duties under the tariff laws.—Johnson *v.* United States (123 Fed. Rep., 997).

(*e*) Velours composed of silk and cotton (silk chief value), upon the face of which are longitudinal strips of plush or raised pile surfaces, between which are plain or ribbed surfaces, are dutiable when weighing over 8 ounces per square yard as manufactures of silk, and when weighing less than 8 ounces per square yard as woven fabrics of silk under paragraph 387.—United States *v.* McGibbon (113 Fed. (*j*) Silk ribbons, with an extra warp thread woven in to be used as a draw string, by which they may be drawn up into shirring or ruffling after importation, are not dutiable as silk trimmings, but fall within the provisions of this paragraph and are dutiable as manufactures of silk at 50 per cent ad valorem.—T. of one color, while the threads which form the swivel figures are of a different color in each instance, the swivel threads not extending from selvage to selvage of the fabric, are not Jacquard figured goods containing two or more colors in the filling, the swivel thread not being a part of the filling.—Wimpfheimer *v.* United States (149 Fed. Rep., 1022; T. D. 27748), affirming 142 id., 849; T. D. 26878, and T. D. 21569, G. A. 4542, followed; T. D. 27796, G. A. 6508.

(*g*) Ribbons made of silk and cotton, silk preponderating in value and cotton in quantity, are dutiable as manufactures of silk and not as ribbons made of cotton, whether composed in part of india rubber or otherwise. (*h*) Silk figured goods containing two or more colors in the filling, which were in fact made upon a Jacquard loom, are dutiable as Jacquard figured goods in the piece containing two or more colors in the filling, regardless of the circumstance that they are not such goods as are usually and customarily made upon a Jacquard loom.—Bassett *v.* United States (154 Fed. (*k*) The proviso in this paragraph has the effect of relegating every manufacture of silk of which wool forms a component material of any value to the wool schedule and makes it subject to a duty under the appropriate paragraph of that schedule.—United States *v.* Scruggs (156 Fed. Rep., 940; T. D. 28580), reversing 147 id., 888; T. D. 27652.

(*a*) A proviso is not necessarily to be construed with reference solely to the paragraph to which it is attached; its scope depends upon its words and the legislative intent inferable therefrom rather than upon the divisions of the statute into paragraphs, sections, etc., made for purposes of convenience.—Ibid.

(*b*) Catheters composed of a silk or cotton core, to which is applied a varnish made of linseed oil and copal, spread upon the cores by frequent coatings and worked down to a smooth surface and flexible condition, are properly dutiable according to the component material of chief value, which in these cases is ascertained to be silk or cotton according as the one or the other constitutes the core.—United States *v.* Johnson (154 Fed. SCHEDULE M.—PULP, PAPERS, AND BOOKS.

393. Mechanically grouud wood pulp, one-twelfth of one cent per pound, dry weight; chemical wood pulp, unbleached, one-sixth of one cent per pound, dry weight; bleached, one-fourth of one cent per pound, dry

1897 weight: *Provided*, That if any country or dependency shall impose an export duty on pulp wood exported to the United States, the amount of such export duty shall be added, as an additional duty, to the duties herein imposed upon wood pulp, when imported from such country or dependency.

1894 303. Mechanically ground wood pulp and chemical wood pulp unbleached or bleached, ten per centum ad valorem.

1890 415. Mechanically ground wood pulp, two dollars and fifty cents per ton dry weight; chemical wood pulp unbleached, six dollars per ton dry weight; bleached, seven dollars per ton dry weight.

1883 393. Pulp, dried, for paper-makers' use, ten per centum ad valorem.

DECISIONS UNDER PARAGRAPH 393, ACT OF 1897.

(*d*) The term "dry weight" as used in this paragraph, providing for a specific duty on wood pulp, does not mean the absolute dry weight of the material, but the air dry weight as understood in commerce. Where a question has been raised by protest as to the accuracy of the percentage of moisture in an importation of wood pulp as determined by the test of the Government chemist, the Board may find the correct percentage from the preponderance of evidence before it.—T. D. 26611, G. A. 6114.

(*e*) Where an ascertainment is made by a Government chemist of the amount of moisture in chemical wood pulp, which is based upon 10 per cent of the bales included in the importation, and this is accompanied by a dsecripton of the method employed, the result reached by him is not refuted by an analysis made by a chemist employed by the importers, reaching a different result, there being no preponderance of evidence as betweeu the analyses made by the two chemists. There must be a clear preponderance of the evidence to justify making a reliquidation.—T. D. 27543, G. A. 6413.

(*f*) The license tax levied by the Province of Quebec, Canada, of 40 cents per cord on pulp wood cut on Crown lands which is to be manufactured into wood pulp in Canada, and of 65 cents per cord on pulp wood cut on Crown lands for manufacture outside of Canada, after exportation, is in effect a levy by said province of an export duty on pulp wood of 25 cents per cord. Wood pulp manufactured in Canada from wood cut on Crown lands in Quebec is therefore liable to the countervailing duty imposed by the proviso to this paragraph.—T. D. 24306, G. A. 5306.

(*a*) The laws and regulations of the Province of Ontario prohibit absolutely the cutting of pulp wood on Crown lands unless it is to be manufactured into wood pulp in Canada. This arrangement does not operate as an export duty on such pulp wood.—Ibid.

(*h*) "Plateaux" which are braids or plaits of straw sewed or woven together into an oval form and used for making women's hats, but have to be manipulated into the desired form and pressed or wired so as to retain that form, and are then trimmed, are free and not dutiable as manufactures of straw.—United States *v.* Bacharach (C. C. A.), (92 Fed. Rep., 990).

(*i*) The provision herein for braids composed of straw includes braids of straw and cotton, straw constituting over 71 per cent in quantity and about three-fourths in value of the goods.—United States *v.* Rheims (89 Fed. Rep., 1020), affirming T. D. 28143.

DECISIONS UNDER THE ACT OF 1883.

(*j*) Tam O'Shanters, Brights, Windsors, Belmonts, etc., commercially known as caps and not as bonnets or hoods, being knotted goods made of worsted, are not dutiable as bonnets or hoods under this paragraph or by similitude.—T. D. 10562, G. A. 212.

(*k*) Wool knit hoods are dutiable as hoods and not as manufactures of wool.—Stodder *v.* Spalding (24 Fed. Rep., 89).

(*l*) It was proper for the collector to show that Scotch bonnets were not known immediately before or on March 3, 1883, in trade and commerce as "bonnets for men."—Toplitz *v.* Hedden (146 U. S., 252).

(*m*) Artificial fruits, with artificial stems and leaves, used only for trimming and ornamenting ladies' hats and bonnets, are dutiable as trimmings for hats, bonnets, and hoods, and not as ornamental feathers, flowers, etc.—Marsh *v.* Seeberger (30 Fed. Rep., 422).

(*n*) This paragraph does not require that trimmings for hats in order to be strictly dutiable at 20 per cent shall be composed of any particular material.

It is the use for which they are intended and to which they are applied that furnishes the criterion by which they are to be assessed.—Id.

(*a*) Though goods are made expressly for the purpose of being used by milliners in making and ornamenting hats, bonnets, etc., yet if they have become adapted to other uses to such an extent that the jury can say that their chief and principal use is not in the making and ornamenting of hats, etc., there is a failure to show that they ought to have been classed as hat ornaments merely.—Fisk *v.* Seeberger (D. C.), (38 Fed. Rep., 718).

(*b*) Though goods are used chiefly and solely in the manufacture of hats, bonnets, etc., if they are bead ornaments or are composed of silk or other metal they are dutiable under the specific clause relating to such article.—Walker *v.* Seeberger (C. C.), (38 Fed. Rep., 724).

(*c*) Artificial flowers stuck into a little stand or box and salable as ornaments and not good enough for millinery uses, but resembling flowers so used more than any other article, are dutiable as bearing a similitude to flowers used for hat trimmings.—Walker *v.* Seeberger (C. C.), (38 Fed. Rep., 724).

(*d*) This paragraph includes goods known respectively as "chinas" and "mercalines" and principally used for lining hats, if such goods are trimmings and are chiefly used for making or ornamenting hats, bonnets, and hoods.—Meyer *v.* Cadwalader (C. C.), (49 Fed. Rep., 19); Hartranft *v.* Meyer (149 U. S., 544).

(*e*) The term "trimmings" should not, under the evidence, be given any technical or particular commercial meaning, but should receive its proper signification and common import as used and applied in ordinary life.—Meyer *v.* Cadwalader (C. C.), (49 Fed. Rep., 19).

(*f*) The mere fact that chinas and mercalines are bought and sold by those particular names and are called "linings" does not necessarily exclude them from the class of trimmings if they are in fact trimmings chiefly used for making or ornamenting hats, bonnets, and hoods.—Id.

(*g*) The fact that the articles are imported by the piece and must be cut up before they are actually applied to use in making or ornamenting hats, bonnets, and hoods does not exclude them from the class of trimmings if they are distinctly adapted and chiefly used for trimming hats, bonnets, and hoods, and are not specially enumerated or provided for.—Id.

(*h*) Hat trimmings are dutiable under this paragraph and not under the silk act of February 8, 1875, notwithstanding that silk is chief value and they contain less than 25 per cent of cotton.—Id.

(*i*) Whether this paragraph includes certain gauzes, crepons, crepes, satins, and velvets depends upon two considerations, viz, whether the particular goods are trimmings and whether their chief use was in making or ornamenting hats, bonnets, and hoods.—Meyer *v.* Cadwalader (C. C.), (49 Fed. Rep., 26).

(*j*) The collector having decided that, under the evidence, the goods in suit were trimmings, this question is narrowed to the single inquiry as to their chief use.—Id.

(*k*) Velvet ribbons made of silk and cotton (silk chief value), known as "trimmings" chiefly used for making or ornamenting hats, bonnets, and hoods, but sometimes used for trimming dresses, are dutiable as hat trimmings and not as manufactures of silk.—Hartranft *v.* Langfeld (125 U. S., 128).

(*l*) Ribbons composed of silk and cotton (silk chief value), used exclusively as trimmings for ornamenting hats and bonnets and having a commercial value only for that purpose, are dutiable as hat trimmings and not as manufactures of silk.—Robertson *v.* Edelhoff (132 U. S., 614).

(*a*) Imported articles commercially known as ribbons, composed wholly or partly of silk and chiefly used for trimming hats, bonnets, or hoods, are dutiable as hat trimmings and not as manufactures of silk.—Cadwalader *v.* Wanamaker (149 U. S., 532).

(*b*) Trimmings of various styles and materials, some composed entirely of silks, some chiefly of silk, some chiefly of metal, and some being a combination of both silk and metal, used exclusively or chiefly for hat or bonnet trimming and not suitable nor used to any appreciable extent for any other purpose, are dutiable as hat trimmings and not as manufactures of silk or metal.—Walker *v.* Seeberger (149 U. S., 541).

(*c*) Whether the goods were trimmings used exclusively or chiefly in the making and ornamentation of hats, bonnets, or hoods was a question for the determination of the jury, and it was error in the trial court to instruct otherwise.—Id.

(*d*) Sheets of woven willow with a backing of thin cotton cheese cloth glued on, held to be free as sparterre.—T. D. 11691, G. A. 796.

(*e*) Silk and cotton trimmings (silk chief value, and cotton more than 25 per cent), used for making or ornamenting hats and commercially known as hatbands, hat trimmings, bands and bindings, are dutiable as hat trimmings and not as manufactures of silk. Affirming the judgment of the Circuit Court.—Robertson *v.* Edelhoff (C. C. A.), (91 Fed. Rep., 642).

Rep., 265; T. D. 28385).

(*a*) Small, cup-shaped articles, composed of the mineral substance called "opal" or imitation thereof, perforated with four holes, which are described in the invoice as "opal buttons, 4 holes," and which are expressly intended for use in making shirt studs, and are a finished part, a chief feature of such articles of jewelry, are dutiable as buttons not specially provided for, or under paragraph 434 as jewelry and not under paragraph 435 as imitation precious stones.—T. D. 22757, G. A. 4847.

(*b*) Fancy metal buttons, from one-fourth of an inch to an inch in diameter, composed of small, circular forms of polished steel faceted upon the upper surface, and of gilded metal in imitation of gold and oxidized silver, and of gilt, metal, and polished steel combined, of nearly circular, octagonal, hexagonal, or star-shaped outline, with ordinary eyes or shanks, and which are designed for use in women's dresses or other garments, individually, and are not connected or joined together in sets by chain, cord, or otherwise, like those which were the subject of T. (*f*) Articles composed of mother-of-pearl, which are known in trade and commerce by the specific name of pearl collar buttons and sold at a stipulated price per line button, are dutiable as pearl buttons and not as manufactures of pearl.—T. D. 11981, G. A. 894; T. D. 14404, G. A. 2288. In re Rosenthal (C. C.), (56 Fed. Rep., 1015).

(*l*) The collector having introduced witnesses who testified that the term "brass buttons" had no different meaning in trade than in common parlance, the court permitted them on cross-examination to be asked what they understood the term to mean in common parlance. Each answered that it meant but-

tons composed principally of brass. *Held*, that while the definition of terms having no special meaning is a matter of law, this testimony was harmless, because the definition given was precisely that which the court would have given and also because the jury was instructed to return a verdict for defendant unless the importation were not brass buttons according to the commercial meaning of the term.—Erhardt *v.* Ullman (C. C. A.), (51 Fed. Rep., 414).

(*a*) Plaintiff having imported certain buttons composed partly of brass and partly of tin, the collector assessed duty as manufactures of metal. The importer claimed the buttons dutiable under this paragraph. The importer introduced evidence tending to show that brass buttons had a commercial meaning which included most, but not all, buttons made of brass; that certain buttons made of brass, but gilded, were known as gilt buttons, and that the buttons imported were known as fancy metal buttons. The collector gave evidence tending to show that there was no difference between the trade meaning and the popular meaning of brass buttons. *Held*, that the court properly charged that if the buttons in question were not brass buttons, according to the trade meaning, a verdict should be returned for the importer, otherwise for the collector.—Id.

(*b*) Buttons made of enameled iron covered with velvet made of silk and cotton with cotton backing and with a narrow satin rim, known as velvet and not as silk buttons, held to be dutiable as buttons and not as manufactures of silk.—T. D. 11358, G. A. 641.

1897 into the United States, which is afterwards used for fuel on board vessels propelled by steam and engaged in trade with foreign countries, or in trade between the Atlantic and Pacific ports of the United States, and which are registered under the laws of the United States, a drawback shall be allowed equal to the duty imposed by law upon such coal, and shall be paid under such regulations as the Secretary of the Treasury shall prescribe; coke, twenty per centum ad valorem.

[Coal act of January 15, 1903 (32 Stat., 773].

* * * That the Secretary of the Treasury be, and he is hereby, authorized and required to make full rebate of duties imposed by law on all coal of every form and description imported into the United States from foreign countries for the period of one year from and after the passage of this act. That the provisions of paragraph 415 of the tariff act of July twenty-fourth, eighteen hundred and ninety-seven, shall not hereafter be construed to authorize the imposition of any duty upon anthracite coal.

318½. Coal, bituminous and shale, forty cents per ton; coal slack or
1894 culm, such as will pass through a half-inch screen, fifteen cents per ton.

1890 will pass through a half-inch screen, thirty cents per ton of twenty-eight bushels, eighty pounds to the bushel.
433. Coke, twenty per centum ad valorem.

417. Coal, bituminous, and shale, seventy-five cents per ton of twenty-eight bushels, eighty pounds to the bushel. A drawback of seventy-five cents per ton shall be allowed on all bituminous coal imported into the
1883 United States which is afterwards used for fuel on board of vessels propelled by steam which are engaged in the coasting trade of the United States, or in the trade with foreign countries, to be allowed and paid under such regulations as the Secretary of the Treasury shall prescribe.
418. Coke, twenty per centum ad valorem.

(*a*) Anthracite coal containing less than 92 per centum of fixed carbon is dutiable under this paragraph and not free under paragraph 523 as anthracite coal.—T. D. 18838, G. A. 4066; T. D. 21378, G. A. 4484; In re Coles (C. C.), (93 Fed. Rep., 954); Coles *v.* Collector of Customs (C. C. A.), (100 Fed. Rep., 442).

(*b*) There is a distinction between "ship stores" of a vessel and "sea stores." The former consist of articles which make up part of the body or equipment of the ship, her tackle, apparel, and furniture, such as anchors, cables, spars, and cordage, being necessary for her navigation. Sea stores consist of provisions taken on board for the use of passengers and crew and intended for their health and susteuance. Coal placed on a vessel for use in navigation is in no sense "ship stores."—T. D. 22433, G. A. 4746.

(*c*) Anthracite coal containing less thau 92 per cent of fixed carbon is dutiable under this paragraph and not free under paragraph 523 as anthracite coal not specially provided for.—Evans *v.* Collector of Customs of Port of San Francisco (C. C. A.), (107 Fed. Rep. 110).

(*d*) Anthracite coal testing less than 92 per cent fixed carbon held dutiable under this paragraph.—T. D. 24392, G. A. 5330.

(*e*) An importation is complete when the goods are brought within the limits of a port of entry with the intention of unlading them, and the right of the Government to duties then attaches. It is uot essential to that right that the goods should be actually unloaded. Coal was imported on a steamship and entered at the custom-house, but a portion of it was purchased by the owners of the ship and retained in the vessel's bunkers as part of her coal store for the return voyage and was never unladen. *Held*, that it was nevertheless dutiable; that the sale being made after the importatiou was complete could not operate to defeat the Government's right to duties.—T. D. 24497, G. A. 5355.

(*f*) Anthracite coal testing below 92 per cent fixed carbon is dutiable under this provision. Coal which had been brought within the limits of the port of entry prior to January 15, 1903, was not entitled to the rebate of duty provided by the act of Congress approved on that day.—T. D. 24624, G. A. 5407.

(*g*) Retort carbon, the residuum that accumulates on the inside of gas retorts in the manufacture of gas out of bituminous coal, is dutiable as coke.—T. D. 24847, G. A. 5513.

(*h*) Coal imported and entered before the passage of the act of January 15, 1903 (32 Stat., 773), is not free by virtue of said act merely because some of the coal was not discharged from the importing vessel until after that date. That act had no retrospective operation.—T. D. 24941, G. A. 5555.

(*i*) The act of January 15, 1903, providing for the free importation of coal for a period of one year from and after its passage, took effect on the day of its approval by the President and expired on January 14, 1904, and coal which did not reach a port of entry until January 15, was not entitled to the benefits of said act. It is a general rule that where computation is to be made from an act done, the day on which the act was done is to be included.—T. D. 25292, G. A. 5678.

(*j*) Coke and coal being distinct commodities and regarded as such in the tariff law, the act of January 15, 1903, providing for a rebate of duty on coal does not apply to coke.—T. D. 25434, G. A. 5731.

(*k*) Coal which was not imported into the port of San Francisco until January 16, 1904, arrived too late to be admitted free of duty under the act of

January 15, 1903, providing for the free entry of coal "for the period of one year from and after the passage" of the act. It is immaterial that the vessel may have been actually within American waters even as early as January 14, An importation is not complete till the importing vessel has arrived within the limits of the port of entry.—T. D. 25568, G. A. 5786.

(*a*) Duty shall be taken only on the actual weight as returned by the United States weigher, who is the proper officer to ascertain the weight of imported goods and whose return should be followed by the collector in estimating duty. The appraisement of imported merchandise is restricted to determining the price or value of the parcel or quantity by which the purchase and sale of the article are made and has rightfully no reference to the totality of the purchase.—T. D. 25767, G. A. 5848.

(*b*) Bituminous coal-dust screenings mixed with a small percentage of coal-tar pitch and pressed into molds, so as to form small bricks or briquettes, so as to facilitate transportation and to make it suitable for burning in grates, imported December 14, 1903, held to be free of duty under the act of January 15, 1903, as within the provision for "all coal of every form and description," and not dutiable at 20 per cent under section 6.—T. D. 26542, G. A. 6087.

DECISIONS UNDER THE ACT OF 1894.

(*c*) Retort carbon is dutiable as coke and not as a nonenumerated article.—T. D. 17816, G. A. 3750; T. D. 18532, G. A. 3988.

DECISIONS UNDER THE ACT OF 1890.

(*d*) Certain screenings of bituminous coal held to be culm.—T. D. 11057, G. A. 500.

(*e*) Coal consisting of 66⅔ per cent of coal slack or culm and which will pass through a half-inch screen, and 33⅓ per cent of bituminous coal which will not pass through such a screen, is dutiable as bituminous coal.—T. D. 13816, G. A. 2010.

(*f*) The right to drawback on bituminous coal imported and consumed as fuel on a steam vessel engaged in the coasting trade, which existed before the passage of the act of 1890, was taken away by that act.—United States *v.* Allen (163 U. S., 499; 52 Fed. Rep., 575; 58 Fed. Rep., 864).

DECISIONS UNDER THE ACT OF 1883.

(*g*) Coal with 82.40 per cent of carbon is dutiable as bituminous coal and not free as anthracite coal.—T. D. 10234, G. A. 12; reversed, T. D. 15857, G. A. 2957.

(*h*) This court has jurisdiction of an action to recover the drawback on bituminous coal given by this paragraph.—Kennedy *v.* United States (23 C. Cls. R., 363).

(*i*) Coal imported in June, 1886, and entered for warehousing under bond, to be withdrawn for use as fuel on steamship owned by importers. Coal withdrawn after July 1, 1886. *Held*, that this section confers a privilege, not in the nature of a contract, liable to be withdrawn at any time; that the act of June 19, 1886, section 10 (24 Stat., 81), providing that after July 1, 1886, the right of drawback shall apply only to vessels of the United States, is not retroactive, but, nevertheless, is applicable to coal imported before its enactment, if the privilege of withdrawal is not exercised before July 1, 1886.—The Cunard Steamship Co. *v.* United States (25 C. Cls. R., 428).

(*a*) The provision allowing drawback on coal used by steam vessels as amended by the act of June 19, 1886, section 10 (24 Stat., 81), was not repealed by paragraph 432, act of 1890, but the drawback, less 1 per cent thereof, is continued in force by the proviso to section 25, act of 1890.—United States *v.* Allen (52 Fed. Rep., 575); affirmed (C. C. A.), (58 Fed. Rep., 864); reversed, United States *v.* Allen (163 U. S., 499).
